Great book by Creflo Dollar... The steps outlined in this book provide you with a framework for organizing your life from a spiritual perspective. The book's emphasis is on applying practicality to your life based upon everyday scriptures as the foundation for living..

Anamarie says

I love this book. Because it so simple to understand and to do the steps. If your not seeing manifestation from the book, it is because your not applying it to your life or your not doing what you read long enough.

Angie Dent says

This is an excellent book that leads to self-discovery and awareness. This book makes you think. It causes awareness of your actions and assists in making better choices and reaching goals. It's a thorough, practical and interesting guide for:

- Closer walk with God;
- Healthy, satisfying relationships;
- Successful career;
- Change in lifestyle, behavior or diet;
- Assistance with overcoming depression

A small percentage of the book offers practical advice, but the remainder is deeply rooted in biblical principles. This book teaches how your thoughts shape the outcome of your life. It's not about cancelling negative thoughts with positive ones, but aligning your thoughts with what God's word says about you, your present and future.

This book helped me to discover that I had been waiting on God for change in my life, but he was waiting on me to take the first step.

I highly recommend this book. I wish it was smaller so I could keep in my purse!

A Biblically based plan for creating the life that you want. "Delight thyself also in the Lord and he shall give thee the desires of thine heart." (Psalm 37:4) The author outlines steps to be taken in order to change your life for the better. Great advice and very easy to understand.

With the Pastor being my television spiritual adviser I can't help but to promote and support his effort of translating Gods' will for our lives .I am still in the midst of reading these very essential steps to a successful life and am very glad to have found your site Goodreads. There is no better name for a bookstore thats where I would believe you'd find the Best; not just good books.

This book is a guideline to follow God's plan for our lives, if we follow his word and apply it in everything we do.

I feel like I may have been a little harsh to the un-critical atheists in my review of *Disbelief 101*, so to even up the score I'm finally going to vent my spleen at this book.

I hate this book. I hated it the first time I saw it, I hated it when I had to keep five copies of the hardcover on the shelf even though it wasn't selling, and I hated it when it came out in paperback. I hate the workbook that goes along with it.

Why so much hatred? Dr. Dollar just wants you to have a good life, and isn't that a good thing?

Yes, good lives are good things, but what is a good life? What does Dr. Dollar want you to have, and what does he promise is what God wants you to have? Well I'll give you a hint, it's his name. Dr. Dollar wants you to be rich, and he doesn't just want you to be, God wants you to be rich. That's right, God, and JC, the dude who said that stuff about it being easier for a camel to pass through the eye of a needle than a rich man to get into heaven, and the same guy who threw a temper tantrum and fucked the shit up of some money lenders in the temple, well he's changed his mind on all of that, and he wants you to be RICH!!!! And this other dude, Dr. Dollar is here to show you how to do it. Just look at him posing there on the cover, he looks as

trustworthy as a used car salesman, notice the expensive looking suit, the nice watch, all those things he's gotten by cashing in on JC, and in his previous books that he has hawked (including how to get out of debt, the god way) and through his ministry. Look at him living the good life, and all of this can be yours too, because it's what JC and dad want for you.

Dr. Dollar isn't the only person out there profaning religion and turning it into a get rich quick scheme for people who would find venturing an aisle over into the New Age section a sin to try to make money with spells or through magical thinking. It's probably just that his name is Dr. Dollar that brings my annoyance at the whole industry to point right to him. Now, one might say that he has a right to all of his money, and hawking this stuff, and doing his preaching and getting paid the big bucks to do it is his right. Besides one might add it does say in Leviticus that one has to give a certain percentage of ones income to the ministry, and since Dr. Dollar is a minister he has the money coming to him. Yeah, well Leviticus is a bull-shit book that says lots of things that people have chosen to pick and choose which to follow and which not to follow. Even many punishable by death offenses most Christians would never bat an eye at transgressing, but that's another problem. So we'll bracket the idea that the bible says it's ok for Dr. Dolllar to get money for preaching.

Besides having the smile of a swindler, I'm pretty sure that Dr. Dollar is breaking at least one of the ten commandments with the cover of his book, I'd say that he's making himself into an idol, but that could be debatable, we'll let him pass on that one too for now. But what about the profaning of JC and Dad for his own profit? Is there a circle in Dante's Hell for him? I'm pretty sure there is, and that he will one day be there right between Joel 'look at me with my name all big on my fancy new bible translation' Olsteen and Tim 'I hope the rapture doesn't come too soon because I'm still really busy getting paid' LaHaye.

Maybe these people are sincere, and want to do good, but they are so misguided and turning everything they do into a marketable commodity that seems only aimed at self centeredness and personal rewards. Besides that being opposite of everything that I think I know about what the Bible is really saying, there is also the nagging feeling that if there is this thing watching over us, that means you, me, all those other people and the entire universe that's so big that our planet is like a grain of sand in the Sahara Desert in the whole vast scope of it all, do you really think it gives a shit if you have more money or not? Really? You do? Oh. I'm sorry, you're probably right. It's not working for you yet? Yeah, I guess maybe the workbook is needed, you can't just expect it all to work with just the book, of course you need the workbook, and the devotional when it comes out. That way even if you don't find the happiness you are looking for at least Dr. Dollar gets more Dollars.
