A Sorcerer's Fist

Guy Antibes

A Sorcerer's Fist Guy Antibes

Armed with knowledge of an insidious plot to assume power over the world, Ricky Valian must battle religious zealots within the organization that took him in after he was branded a traitor. Together with a secret society that Ricky never took seriously, he finds allies that he once thought enemies to fight against the enemy hidden among those he thought were allies.

Robert says

Good and expected ending

My only thought is Antibes warned us in the preface of book 3 that the story would seem slow as Ricky matured and developed relationships. But book 5 seemed more slow. Multiple battle fronts developed with a multitude of characters in many countries. Trying to envision all the troop movements led by many leaders around the cities and countryside was too much. I just scanned the text trying only to catch significant events. But the ending picked up the pace nicely.

Ian Cheok says

Enjoyed it but there are some issues

I enjoyed the book and the series as a whole, although book 1 started off as being "rushed" book 2 and 3 came out nicely with a good pace. But the last book had too many unnecessary plot twists and events that just made the entire book seem rushed.

And Ricky's character seemed to get more naive as the book goes on. Spoilers ahead. In this book he kept over using his powers or lets himself lose all his powers multiple times. You would think he would learn from his lessons.

Anyway overall still a good book but I wish the author took some time to concentrate on the main arc of the story so that there is more flesh instead of bones.

Melissa Jane says

Awesome ending to a first rate series! I can't begin to say enough good things about this book and the author. His Power of Poses series, Disinherited Prince series, Warstone Quartet series and the latest Song of Sorcery series are all well worth reading for any lover of fantasy. Highly recommended book but you should definitely read the previous books in the series first.

Pat says

Same

Same old issues I have with the series. It has great concepts but they are executed poorly. Things build quickly and then are resolved in a sentence or two.

James E. says

Great Fantasy series

Thoroughly enjoyed this series. I have seen some of the other reviews about predictableness in the story, and perhaps there is some, but as a whole very entertaining series.

Keith Millspaw says

I enjoyed this entire series. fun, easy read.

Wayne says

They story concludes

I enjoyed Ricky's journey but I felt book 5 was rushed and at times I felt as though I was reading a fleshed out outline or storyboard. I got a little tired of the constant references to Ricky being Pira's "knight". Despite these negatives Book 5 was a good read. I look forward to the authors next series.

Tiuri says

This was a rather abrupt ending to a fun series. Even though Ricky was the unlikeliest of teenagers, it was a fun read.
