REMEMBER YOUR TRUE ENEMY

Erwin's political enemies have hired Levi and his crew to take back some incriminating documents. Their reward: the right to live a proud life above ground, in the royal capital. But deep in Titan territory, it's going to be tough to break formation and steal from a squad leader, and Levi still insists on killing the man who humiliated him after the mission is complete. Of course, beyond the walls anything can happen, and a sudden change in Levi's fortunes will force him to face the greatest regret in his life...

FINAL VOLUME!

I. AM. DEAD.

Judy (Geeky Reading) says

~3.5/5

First of all: color pages! Of Levi! They're so pretty!

Now, we all knew that this was going to end badly, right? I mean, of course. It sucks, but it happened. Poor Levi, who has to live with it.

We got to see Levi be his awesome self some more, who kicks all the titan ass. The plot with Erwin wraps up, and I honestly didn't really care about that. Erwin never really stood out to me, and he still doesn't.

We saw a little bit of Hange in this book! Yay! Now that's the real interesting story, in my opinion—how Hange and Levi got so close. Hange is such an interesting character, and has such an obvious relationship to Levi. I wanted more of that, but oh well.

Also, in regards to the side story at the end, am I the only one who loves Levi cleaning in an apron while glaring? I think he looks so charming like that, and I smile every time I see it.

A very interesting, though sad, spin-off story. Definitely worth picking up if you like Levi and/or Erwin. Totally worth it.

Mario says

Great, just as the first volume.

Since I've seen the anime, I knew how it was going to end, but it was still a very enjoyable read. Anime adaptation of Levi's story was a lot different than this manga, and I can say that I actually enjoyed manga better.

Since I still don't wanna get out of this world, I'm probably gonna read 'Before the Fall' spin off next. I'm really hoping to enjoy that as much as I enjoyed this.

Rob says

Story

A satisfying conclusion to a pretty interesting story giving back story on Levi and Erwin.

Mr. Snark's story adds some good depth and a little more intrigue the politics of life behind the walls. I'll be curious to see if the subplots introduced here find their way into the main story at some point.

Artwork

Mr. Suruga's artwork is again good, and I didn't notice much difference from the artwork of Mr. Isayama.

Sara Brusco says

Amo Levi e amo Erwin, i miei personaggi preferiti dell'attacco dei giganti (insieme a Jean) e quindi non potevo perdermi questo spettacolare spin-off che racconta del loro incontro e della vita di Levi prima della sua entrata nell'armata ricognitiva. Disegni e storia splendida e, nonostante qualche errore di grammatica dovuta alla traduzione italiana, non mi sentivo di dare un voto inferiore alle 5 ??

Lo consiglio vivamente.

Se non avete ancora letto il manga o visto l'anime fatelo perché merita davvero.

Gabriela says

This is so sad...but so good too!!!

James DeSantis says

Sadly not as good as the OVA. I think I just enjoyed the story more in that.

We get a lot of extra padding here. Secrets upon secrets, that really don't feel heartfelt. I guess I just couldn't get attached to the plot they were trying to pull off here. I get it was trying to go for a deeper story but didn't measure up.

Saying that the fights are still entertaining and the deaths are as fucked up as you expect. It was especially sad to see a certain person get killed. You knew it was coming if you read or watched AoT but man oh man, it was screwed up for sure.

Overall a decent spin-off that gives a deeper look in to Levi but not nearly as good as Attack on Titan.

Mary says

Thanks...for ripping out the little feelings I had left!

Levi is just awesome, you know?? But that PART OMG. I just....I can't. Just read it and cry and OMG why!????

Paula says

me ahogo en lágrimas, chau chau chau

Diana ~Daughter of the Books~ says

I may or may not have cried. Okay I definitely cried. I love Levi so much and if Isayama dares to hurt him any longer, I'll be so mad

Raeleen Lemay says

All in all, a neat little duology! I don't think it's entirely necessary to read these two volumes to enjoy the broader Attack on Titan series (these aren't even written by Isayama!) but I'm glad I read them anyway. It's worth it just for the art (and Levi's friends!)

Sofia says

4.5 stars

Aah. I get it now. The fuss over the inscrutable Levi.

I've been meaning to check out this much talked about Attack on Titan spin-off series for quite a while now. Written by Gun Snark and illustrated by Hikaru Suruga, it centers around its most enigmatic character. Well, *here's the thing*. Despite being an obvious fan favorite, Levi always seemed like the typically arrogant, inconsiderate and somewhat problematic character to me. You know, the one every good ol' shounen manga needs and has (minus the bizarre obsession with cleaning). Nothing I haven't seen before, or so I thought.

Needless to say, I was not prepared.

Prequels can be tricky to pull off, but Snark and Suruga have managed to do this right and give us several moments throughout the series that not only illuminate bits of Levi's character, but which also thematically tie into certain events within the main series. As a result, its entirety ends up feeling like it matters slightly more than you might expect from a two-volume spin-off. For instance, the glimpse into the recent past of the Attack on Titan world shows just how long Erwin's been playing political games ~~without giving a break to~~

~~those ever knitted brows~~ to keep the Survey Corps afloat and during the climax of the volume Levi learns a lesson about teamwork the hard way, a lesson that's echoed in a speech he gives to Eren during their attempt to capture the Female Titan in the main series. To a lesser degree it also hints at aspects of Levi's background which are just now being explored within the original series. *Everything fits together as pieces in a puzzle.* No Regrets does a pretty good job with the characterization of all the established characters, though I admit I was hoping that Levi would be less rough around the edges than he is shown to be to better highlight the changes that turned him into who he is in the main series. His interactions with his comrades, Isabel and Farlan, thankfully made up for any disappointment I might have had, regardless of the apparent lack of explanation to how, for example, Farlan and Levi even met in the first place—which could have been easily added to the story to further explore the bond between the trio the readers came to love. Nonetheless a convincing backstory that gave more insight into Levi's unique perspective on the world and successfully made my cold little heart *gasps* sympathize with a character whose behavior I used to find abhorrent.

"The three of us always pulled through, right?"

"Levi, believe in us."

Veronica Morfi says

Now I get the whole 'Choice speech' Levi makes from time to time. It makes me love him even more, if that's possible.

Amber Hetchler (????????) says

LEVI ACKERMAN YOU SEXY BEAST

Did I really just say that?

I really just said that.

? Franzi ? says

I'm not crying, I only have a little ball of rage in my eyes ???
