Life in a small town was supposed to be easy...

SEAN

"Ever since I got out, I've been lost, trying to figure things out. I feel like I'm going crazy in this town. That was until I met her. Lydia.

An angel from out of town who came here to save me.

She's the only girl who makes me feel sane.

She's a damn goddess.

I have to do anything to keep her happy, anything to make her mine, anything for her..."

LYDIA

"Sean. They call him Brash. I can see why.

He's part of some motorcycle club or something.

The tattoos. The muscles. That demeanor. Why am I not surprised he just got out of prison? They don't make'em like him in the city.

I don't know if I can handle a man like him. But damn if I'm not so attracted to him..."

Welcome to Ivory, home of friendly townsfolk, honest cops, and motorcycle clubs.

Lydia leaves the big city to start her life over in the small town of Ivory. It's nothing like she's ever experienced, including Sean, member of the Black Reapers Motorcycle Club. The ex-convict has Lydia captivated. A torrid affair draws them to each other. But the life of a club member is never easy. Will a passionate attraction that the two of them crave be enough to keep them together? Or will life in Ivory be too much for them to overcome?

BRASH is a STEAMY standalone romance novel featuring a bad boy biker and the woman he'll do anything to protect. There are no cliffhangers and no cheating. Happy ending? You'll have to read to find out!

This review may have a few spoilers here and there.

But anyways, I thought this book was an alright read I wasn't disappointed in the book but wasn't all that into it either. Would I read the next books in this series yes,"! This book though I love reading MC Romance, was sort of different from the other MC romance I've read idk can't put my finger on it. Though, I did enjoy Sean and Lydia story.

A new author for me but a genre that I read a lot of and she really hit the ball out of the park. The story is about Brash (Sean) a member of the Black Reapers Motorcycle Gang and Lydia all set in the town of Ivory. The heat and attraction between these two was instantaneous but they have obstacles other than the different life style Lydia is a city girl.

The strength of this book was the great characters that where so well written I hope this is the start of a series and am looking forward to future books

I was given an ARC copy of this book but this is a true and honest review

Brash is an entertaining and enjoyable read that introduces us to the Black Reaper's Motorcycle Club and the small town of Ivory. This book focuses on Sean (Brash) and Lydia. This couple's attraction is instantaneous and their chemistry sparks. Can a bad boy biker and a big city girl not only find love but keep it in a small town? Read this book to see for yourself. I'm posting a voluntary review after reading an advance copy of this book.

I received a free copy of this book via Booksprout and am voluntarily leaving a review. The opinions are my honest thoughts on the author's work. This was a book that quickly draws you in and keeps your attention until the end. In fact I read this book in one sitting and the time flew right by. The passion and instant attraction and chemistry between Sean aka Brash and Lydia was off the charts. The story flowed along great and the characters development was right on. This was a sweet but steamy book. There was attraction, action, hotness and protectiveness throughout to keep you captivated. Great Read

Lydia had just moved from the city to the small town of Ivory in hopes of finding peace, and something different than what she was used to. While there she becomes friend with Gina who is a little wild but they get along good. As they go to a bar for a night of fun, she meets Sean (Brash) who has just recently come out of prison, those two have an instant connection. And they are combustible, you my friends need to read the rest..as always Enjoy!!

Oh wow! In this story we meet Lydia, a transplant to a small town named Ivory. She's come to this town to help in the local bakery. Her first night there she meets a biker named Brash aka Sean. They are both drawn to each other. Brash has a bad history. As they grow closer, life starts to get interesting. Brash served time and had just gotten out. Lydia left the city for some breathing room. What happens next--- read the story!! You won't regret it!!

I love MC stories. This one is excellent!! Love the characters and the situations they are thrown into. Fantastic story and read!!

#### **Good read hard to believe ending**

The story flowed well but I saw all the plots coming. The ending was very hard to believe anyone who knows a thing or two about MCs is a brother doesn't leave for a woman they are either all in or nothing

This was a great book! I just love rugged bad boy types in books! They get your heart pumping! This is a love at first sight without Lydia and Brash really realizing it. Overall the book is good, with enough action and drama to keep you reading until the very end.

This book has some action with the romance. Good characters, but Lydia seems to have no problem with why Brash was in prison. Maybe she should have asked more questions. Then the brother of the man Brash killed comes looking for some payback. Good read.

Lydia arrives in the town of Ivory looking forward to a small town life-style after working 12 hour days in a restaurant in "the big city". She's worn out, both mentally and physically, and feels that starting a new job in the tiny Amy's bakery would help her find what she's been looking for in her life.

Sean (aka Brash) has just been released from prison and has returned to the brotherhood of his MC club, the Black Reapers. He's feeling a bit lost after serving three years in prison and has begun to feel a sense of wanting more in his life.

The couple meet when Lydia's co-worker Gina invites her to go out after work with her to a town bar. Brash becomes instantly enthralled with Lydia, and what follows is a complicated, steamy story. Lydia becomes entangled in a dispute between Brash and Poison (a former member of a rival MC club and the brother of the man Brash killed.)

I have some mixed feelings about this story. While I enjoyed the interaction between Sean and Lydia, I almost felt like Brash had a split personality. One minute he was a sensitive, caring boyfriend, and the next, he was a heartless MC biker who shrugged off committing a murder. I wanted to shake Lydia at times. She struck me as someone suffering from depression, and she seemed to want to rationalize everything, including the murder committed by Brash. I got tired of the phrase "He may have committed a murder, but he did his time!" So as long as someone goes to prison for it, murder is ok? Uh... no.

There were some good, spicy scenes that helped drive the story forwards, but there were also some gratuitous sex scenes that (for me) merely detracted from the plot. Sexy scenes that stick out like a sore thumb should probably get edited out.

The plot had a little suspense worked into it, which did help to save it from its repetitiveness. I also liked the HEA at the end of the story. Overall, this book was just an ok read for me.
