The Reviewer says

Considerations follows Alexis and Brads life right where the they left in book 1. They go to Paris because he has business to attend there and takes her with him so she can make up her mind if she wants to become his partner in crime. His grandfather left on his will that he will inherit all of his goods if he gets married at least for a year. The problem is, Brad was too focused on working his ass off to deserve his position as owner of his grandfather's company that he has only 2 months left to get married or he will lose the inheritance.

I feel that Alexis has inferiority issues. She thinks she doesn't deserve to be in Brad's world just because she's "plain and simple". She goes to Paris with him and gets a peek of what living in his world means and feels like.

Brad is super rich and apparently super HOT he was great chemistry with Alexis. Since they met they have been humping like bunnies on the table, at a wall and also in the mile high club. He is overwhelmed by Alexis honesty and "innocence". She is fresh blood in his world and advises her to be careful.

They both go to a gala where a man tries to take advantage of her feeling her up and kissing her until Brad intervenes. He takes her home and gives her the proposal for their marriage. Will she accept?

Keep reading folks.....

Brad and Alexis' story continues with a weekend trip to Paris, Alexis is wooed by the life Brad lives but her insecurities keep her grounded and she feels out of her depth, but there's a sense of her gaining confidence thanks to Brad. The sex is phenomenal, but again the story begged for more depth, it skimmed the surface of what could have been an epic lengthier book instead of a Novella.

Denise says

These were just too short for me to feel any kind of connection or bond between them. The ending just didn't "feel" for me.

Kristy says

Again, don't know why this had to be divided into three books. It was annoying.

So they went to Paris and obviously Brad is starting to have feelings for her and she him. So it annoys me that they are trying to hide it from each other.

Entertaining enough

This is Book 2. A condition of his Grandpa's will stipulated that Brad must get married and stay married for a year, if he's to inherit Reinehart Industries. The deadline by which Brad has to get married is approaching quickly, so he proposes to Alexis Jones, the cute receptionist he met two days ago. Will she say Yes? Well I will leave you to ponder that and no peeking ahead to read what the third book is about that's cheating.

Tosha says

This book was Same as the first. Interesting story line but had no real details. I really hated that it was broken up into 3 very short stories. If I'd have know that in the beginning I probably wouldn't have started it. But each ending left you hanging on.

Lena says

krátké, ale jsem zv?davá co nám p?ipraví ve t?etím díle...ale i tak si myslím že to nebude nic závratného, když kniha bude mít stejn? málo stránek jako p?edchozí dv?..

Laura F. says

I've read all three parts and this was my favorite. I love Paris, I love the way the relationship develops between the two of them, and it's hot and steamy and kinda sweet too :)

Wouldn't the story have been better if there was some conversation in it..felt like I was reading some girl's diary!

Angel says

Now that I got past the writing style,I actually started to enjoy the story a little
Even tough I think it is a little rushed

Oh,and the best thing about this book is it's cover! I Love it!
