## From Reader Review Dane's Restraint for online ebook

### Cheryl says

This is the 4th book in the Dume Ranch series and features Dane. Sara Piermont is at the Dume Ranch for a bachelorette party for her cousin. She's recently moved to Texas and is a school teacher. She's from Las Vegas where her mom was a stripper and her dad owned a club. She's always held herself back sexually because of this. She's decided to let go for the weekend. She sets her sights on Dane Dumen who is more than willing to let her think she's in control and chase him. But, Dane has a lot he wants to show her. Both agree to a weekend fling, but both end up wanting more. I like how this book ended. Everything moved at the right pace. Nice conclusion to the series.

Dane's Restraint is the fourth book in the Dume Ranch Series by J.J. Ranger. While is part of a series it can be read and enjoyed as a standalone novel. I chose this book because after reading the summery I was hooked. I had to see how it ended.

Sara is such a unique character. Her parents own a strip club, so you expect her to be more worldly than she was. She came across as a naive character. It is apparent that she has fooled a lot of people in the past, but Dane saw right through it.

Dane is a rugged, sexy cowboy. While he only wants a fling for the weekend, shortly after spending time with Sara he decides he wants to spend more time with her.

The chemistry between Dane and Sara is explosive. They are a great pair in and out of the bedroom. The sex was off the charts hot. I loved that at the end of the story they are talking dating and not marriage, so they can get to know each other better.

I would have liked to have seen this book longer than it was. I also would like to see Sara and Dane a few months or years later to see how they do. Overall, this was an enjoyable book. While I have not read the other books in the series, I will be picking them up to read.
