Double Trouble C.P. Smith

Book #2 in the Wallflower Series. Recommend you read Book #1 to follow story.

“ ‘Tis better to never have loved and lost than to live with the regret of your stupidity.” ~ Sienna Miller, Wallflower

They say you can't teach an old dog new tricks, or in this case, Wallflowers to behave. Then again . . .

Sienna Miller spent her whole life being the odd woman out. Shunned and misunderstood by her family, she finally has a chance for a new start thanks to Calla and Poppy, her Wallflower sisters. Now all she needs is a Prince Charming.

Bo Strawn is a cop with a troubled past. He's stubborn and set in his ways until a certain Wallflower shakes up his life for good. Bo's finally got a shot at happily ever after. That is, he's got a shot if he can solve a mystery surrounding the Wallflowers and keep his headstrong woman off the back of a horse.

Rated mature for language and sexual content.

I thought Wallflowers: Three of a Kind was funny well Double Trouble had me laughing even more so!! The "adventures" these wild wallflowers got into had me shaking my head and yelling "Don't do it" yet "adventured followed them like a shadow.

Poppy and Sienna's banter with each other had me constantly laughing and snorting. It made me think of my friends and the conversations we've had.

“Five minutes with Randy Balls and a vibrator keeps me warm at night.”

Sienna's attraction to Bo is intense to say the least yet Bo's past has him cautious around her. And yes he says and does some idiotic things that had me shaking my head. As they "danced" around each other you could feel the intense chemistry that had sparks shooting out. We get to see Bo's alpha come out and my goodness I needed relief from the heat he was bringing to my tablet.

“Do you get it yet?” he whispered. “Mine to touch. Mine to taste. Mine to fuck until you’re breathless . . . Mine to worship.”

We do get to see what Devin and Calla are up and let me say that their love has only intensified. Be prepared to cry, laugh and swoon over the men these wallflowers love. ~Kara, 5 Stars

-Screwball comedy romance. When I requested this ARC, I had thoroughly enjoyed Wallflowers: Three of a Kind, the first book in this series. There was a good mix of humor, romance and some suspenseful action-y type scenes. I got to enjoy the little ‘verse Ms. Smith had created and was eager to see what she had in store for the next Wallflower, Sienna. She seemed to be the fairly level headed one of this trio of friends, and her interactions with Bo in the first book were thoroughly intriguing. I enjoyed the ‘verse but man does it get crazy up in this joint. Let’s dive in, shall we?

-More continuing saga than standalone. The story picks up right where we left off in the previous book. So much so, that there is barely any setup before the reader is lead straight into Bo and Sienna’s dramatic issues with getting involved. AKA the emotional bruhaha: Bo’s mother left his family and was headstrong and headed straight into disaster, eventually leading to her death and he is afraid of being hurt. Sienna, on the other hand, has no experience with love as she is the product of an affair, her father left and her mother and siblings treat her like poo they scraped off their shoe. There’s more defense being played here than the last hockey game I watched.

-Heightened situations lead to some crazy antics. So, straight up, this story has a more wacky, kind of “I

Love Lucy” vibe than the first book. Think Lucy and Ethel on a dude ranch kind of vibe. It can be fun, but you definitely need to be in that particular mood. I wasn’t quite there, but I really wanted to connect with Bo and Sienna. They said a lot of the right things (sometimes repeatedly) but then...

-The romance is...ok. Ay Dios Mio. The emotional antics just missed it for me. Basically, Sienna lived in the Waffle House when it came to deciding whether to be with Bo (who was your standard possessive alpha type). Bo visited the Waffle House, but he moved on pretty quick, which I appreciated.

-The virgin trope is fine, but... What caused me to not connect with the romance was the emphasis on the virgin trope, especially some of Sienna’s comments about it. Don’t get me wrong, I can get down with it, but the use of “soiled” in relation to a woman turns me off. That’s just a personal peeve of mine, so if it doesn’t bother you as a reader, carry on.

-Still looking forward to the next installment. Ok, after all this, I want to clarify, I like a lot of the characters and I like this ‘verse and I think it can be enjoyable, even if Bo and Sienna weren’t quite my cuppa. I have high hopes for Poppy and Nate.

The Wallflowers are a wacky crew and I liked it, just not as much as the 3 of a Kind. While the humor can be fun, I could have done with less screwball comedy and more time devoted to the emotional aspect of this romance. However, I do enjoy Ms. Smith’s characters and I am really intrigued with Poppy and Nate, so if you’re into the wacky side of romance, you may enjoy this.

Between Love & Hate

Five Amazing Stars

I was so absolutely thrilled to this second most wonderful book from this fabulous series, Opposites Attract. I most thoroughly enjoyed the first most beautiful a gorgeous story , and now just so pleased to read the second one now. Such a blessed and gorgeous tale.

Such a wonderful book this surely is. When the young and beautiful Cali and Poppy joined and made this beautiful group calling themselves the Wallflowers. They made this partnership to build strength after the previous hurt lives to finally be strong. Both getting rid of regrets to have a more peaceful future. These women are just completely and honestly heroes.

I now completely adore this now between both now, Sienna and Bo. He was full of himself and was completely sexy too. Sienna was just so attracted to him. She completely felt so much more than originally with Chase. There was absolutely not anything more alike than I'd thought before. It was Bo who I cared for now. After this big escape on the sand. Sienna just knew she had to have him now, not Chase.

I completely adored the continued hilariousness through this book. Such a complete love/hate relation between these two, who ultimately together in complete lust.

I absolutely adored this most wonderful story. So sweet, funny, with an admiring and beautiful characters throughout. I just loved this most delightful, delicious, and exciting romance. That I just so loved. Now Im just can't wait until the next book too!!

* I recommend this book to everyone!!

Flavs is Mrs David Gandy♥~♥' says

I Voluntarily reviewed a copy of this book

Everything about this book was just AWESOME... I loved Bo and I loved Sienna, but the two of them together.... HOT HOT HOT

From the beginning to the end these women with their men will have you hooked. Sienna always felt like the odd one out in her family, so when she met Poppy and Calla she finally found her place, but she still had that insecurity that she's not good enough for anyone.

Bo did everything he could to deny that Sienna had him from the minute he laid eyes on her. But he had his own insecurities about trusting women. How could he when his own mother left him when he was just a boy. But he couldn't deny his feelings for Sienna and finally he just had to give in. But will he be able to keep her safe from other and more importantly from herself.

This book will have you LOL for the girls antics, but also make you want to cry your eyes out. Everything about this book will have you screaming for me. Love, Sex and danger, what more can you ask for

I can't wait for the next book, I want it, I need it NOW!!!

~Nichole~ Sizzling Pages Romance Reviews says

?????

I love everything this author creates. She's a straight up first class ticket to romance. My kind of love stories with heroes who know exactly what they want and they claim it. Bo fought his feelings for a small moment but after that he straight up took on the task of showing Sienna what a real man is like. This story in true CP Smith fashion had exciting twists, crazy shenanigans and a blazing love story. You'll want to #oneclicknow because #BoIsAwesome.

ARC received for an honest review

This is the second book in the Wallflowers series, and carries on where book one, Three Of A Kind finishes up.

Double the trouble, double the suspense and double the laughs is what CP Smith has given us with Double Trouble.

If you have read the first book, you will know doubt remember the trouble that our wallflowers, Calla, Sienna and Poppy got themselves into.

This is a romantic suspense story, so it is romancey, and it is suspensey, but it is so much more than that.

I laughed, I cried, I screamed at my kindle. I shook my my head at the girls antics, felt for those mean dealing with them, whilst laughing at the same time.

I adore Bo and Sienna together. They have that love/hate thing going on real well.

You know things are going to be fiery between them, but whooooo those sparks!

Witty writing, beautiful friendships, fun storylines, Double Trouble kept me turning page after page to find out what shenanigans the wallflowers would get up to next.

There is some great set up for the third book in the series, and can't wait to see what happens next.

Stacey is Sassy says

I like them big, braw and scowling

I think these types of stories are not for everyone. Me, I love them when I'm in the right mood. What type of book am I talking about? *The Alpha hero meets his TSTL heroine*... Look, what better way to make your hero sparkle and shine than to have a heroine that needs saving. Sure, it may make the heroine look utterly stupid, but you take the good with the bad.

In my romance reads, I'm a sucker for a hero that is big and braw, rescuing his lady love, bare-chested, scowling at the ne'er do well baddies and charging off on his brute of a stallion. Now, you might be thinking that I'm talking about a historical romance. I'll be honest, *Double Trouble* really read like an historical romance...with a touch of smutty, madcap, suspense, cowboy fun. Where else would you have the fair virginal maiden who blushes like a schoolgirl at the hint of sexual innuendo? You can't help but think historical when a hero demands that his woman stays put and do what she's told. Oh, the heroine gets all huffy and does what she wants anyway, leading to the hero rushing in to save the damsel in distress. Then we have the remorse after she's saved from being stuck up a tree, fallen in the mud or came face to face with a red-haired bandit who holds a weapon to her head. See, you can't blame me for thinking historical romance.

Anyways, *Double Trouble* was entertaining. The sexy times were really HOT!! The suspense portion of the story was made up of a ton of coincidences that seemed to all meld together but were really miles apart. The camaraderie between 3 blokes who fall for women that are nothing but trouble. The friendship between the Wallflowers was something I can relate to. Well, the book loving portion was familiar and relatable. Not sure the TSTL portion of their friendship is something that I'd want to relate to though, as I'm not one to risk or put myself in danger. The additional characters were interesting, but I admit that Chase's small part was a wee bit OTT and I can't say I'm a big fan of Sienna's family.

Like Sienna, Calla and Poppy, I'm a huge fan of *Julie Garwood's* historical romances and I loved the mention of the characters from them. *Double Trouble* really felt like a romance reader's haven. I felt comfort and familiarity at the mention of books and characters that I know and love. I smirked when the characters recognise an Alpha hero when they meet them and to some extent, even know how to handle them because of their knowledge. Sure, sure, it's so far from reality...but isn't it great to dream?

Another great instalment to the series and I can't wait for Poppy and Nate's story.

I'm an Aussie chick who loves to read and review romance, drink coffee, be a *Style Setter* and stalk David Gandy. To see more of my reviews, fashion, food and pervathons -

?Tonya? says

This is why CP Smith is an auto buy....

I rarely (if ever) give 5 stars to a book without an epilogue. They are too important to me and the lack of one leaves me feeling like the story is incomplete. That being said, this was so good, and I loved it so much, that I had to give it 5 stars.

I literally could have posted quote after quote of witty lines or steamy dirty talk (all things that I love). I absolutely adored every character.

Bo, that sexy beast....he was a fantastic hero. He had a bad childhood and felt he needed to keep Sienna at bay- that didn't last long. He was alpha, loving and an all around good man. Once he finally gave in and went after Sienna, there was nothing that could stand in his way.

Sienna was so sweet. She was strong, smart and so funny. I adore these Wallflowers. I felt for her because her family wasn't there for her and she had no control over the reasons why. If anyone should have been exciled, it should have been her mother. I was so glad that she and Bo provided the love and security that each have lacked in their lives.

-no cheating - CP Smith has a disclaimer that she doesn't have that in her storiesshe doesn't let us down

-no ow/om drama

-pushing away but it doesn't last long

-steamy sex scenes

-great secondary characters

-no epilogue- I was disappointed in this fact. However, the main characters from book 1 played a big part in this story, so I'm hoping the same will happen with book 3. Hopefully even an epilogue to wrap them all up? Wishful thinking....

I am looking forward to book 3, I'm hoping Nate and Poppy have been celibate since first meeting.

nicklein says

Nice little plot twist at the end. I liked it but the girl's adventures were getting a bit annoying.

Gi's Spot Reviews says

Can't wait for you to meet Bo!!! Be prepared to swoon!

Remember when I said that **Wallflowers: Three of a Kind** was Perfect?! Well, with **Double Trouble** C.P. Smith managed to top that up, because Bo and Sienna's story was BEYOND perfect!

This book, like the first one, is so much more than a couple's love story. Wallflowers truly is journey, and I couldn't adore these three couples – yes, we all know how that cat and mouse thing is going to go with Nate and Poppy – and the whole universe any more. I'm completely and utterly addicted and devour every word C.P. Smith writes, but these girls and their men take it so a whole new level.

Bo (who I'm claiming as my own, btw) and Sienna, with their broken pasts proved that love can indeed overcome everything, given how they healed one another with the help of their family at heart, the rest of the gang. In the meanwhile there was an enticing mystery, that hooked us in, even more, and plenty of funny shenanigans the girls managed to get themselves into, sorry, that managed to find them.LOL

The suspense, the discovery and all the puzzle pieces flowed perfectly and realistically.

And I'll stop my praising here because you really NEED to read this! One sexy HOT Alpha, one sassy and sweet 'wallflower' and plenty of suspense, and off the charts chemistry within the whole group, need I say more?! Oh, yes, and be prepared, because like me, you'll be begging CP for Nate and Poppy's story! I know I did! <3 <3 <3 <3 <3

With no words spoken, love spilled between those sheets and healed us both, wrapping us in a cocoon that neither time nor space could weaken. For the first time in either of our lives, we were finally home.

Finally secure.

Finally loved for who we were.

4.5 Fun & Sexy Stars!!

This is the second book in C.P. Smith "*Wallflowers*" series and if you (like myself) *LOVE* alpha's this is a must read author!!!! I absolutely love and adore every single character in this series (along with all her other books/series). The Wallflowers are fantastically loyal friends; and make you wish you were part of their little trio. This story is so much more than a love story, it's a story of love, friendship, family, and comradery. I must say I absolutely love and adore (Calla's) Aunties, I'm so glad they were included in this book.

This is Bo and Sienna's book, who both have heartbreaking backgrounds and must learn to trust each other. I must say I loved watching them fight their growing attraction to one another, these two were absolutely made for each other! You can actually feel their chemistry, their passion, and their struggle to fight a losing battle.....fun times!!

Sienna & Bo's story follows right after Calla & Devin's end. These wacky ladies seem to walk right into trouble and mischief....unwittingly (*at least most*) of the time, and once again a *Wallflower* finds herself in trouble and its "all for one and one for all" for these girls and the men who love them.

All-in-all, a great addition to the series and I can't wait for Poppy and Nate's story. Once again CP Smith rocked my world with her yummy alphas and the lucky women who managed to capture their hearts. The ending of this book will **BLOW.YOUR.MIND** and have you hoping and praying that the next book will be released soon!!!! *PLEASE C.P. Smith don't keep us waiting too long!*

Sassy Southern says

First, I must let you know to read this series in order as all six characters, encompassing the three couples, are introduced in the first book, *Wallflowers: Three of a Kind*. It is so flipping good. I've been eagerly anticipating the second title and I know I'll do the same for the third. I fell in love with this author, these characters, this series, within a couple chapters. Now, Bo and Sierra's story has arrived, and I'm diving in.

Sienna, PA to the CEO of Poe Publishing, has always felt invisible, misunderstood and essentially ostracized from her parents for not taking after them, nor being the perfect child like her siblings. However, when a truth is revealed when she was fifteen, she was visible, but seen as the reason her dad left, unable to live with her mom's lies any longer. Not too long after reaching adulthood, she fell for her brother's friend, only to once again become invisible as the feelings weren't returned at all. She's since started a man embargo and is sticking with it. When she and her friend, Poppy, find a third woman like them, geeky, introverted, etc., they know Cali is their sister at heart, and so the *Wallflowers* are born.

Bo, a cop, is emotionally jaded due to the abandonment of his mom while he was young, and the impact it had on his dad. Bo has stubbornly become set in his ways, vowing to avoid any woman that reminds him of his mom. Upon meeting Sienna, he perceives her to be the same way, believing her as headstrong, a rule breaker, and nothing but trouble, yet at the same time the pull to her is so strong.

When Sienna is faced with her past in the form of Chase, the guy she believed herself to be in love with, she quickly realizes what she felt for him was nothing but imagining him as the one who would save her, any hold he had on her is long gone. She's free. Now, if only she could let go of the attraction she feels for Bo...but she knows what she feels for him is real, completely different from her young crush on Chase. However, it's clear Bo feels nothing for her but annoyance and disgust, a fact made evidenced by the heartbreaking words he hurls at her while fighting what he feels for her, unable to accept Sienna is nothing like his mom.

Unfortunately, as Sienna, Cali, and Poppy are trying to enjoy girls' night out, Sienna trying to magic wand her pain away, they accidentally walk into something they should, and as such, are now in danger. As Bo works toward discovering who's after them and why, his connection, his attraction, to Sienna steadily grows stronger, and he begins to see her in a different light, realizing he misjudged her. Sienna, learning what she feels for Bo is returned, they did to take a chance and explore what they could be to one another.

Can Bo make things right with Sienna before it's too late? Can he make her see that he's happy she came into his life? Will Sienna accept that Bo truly sees her as she is, and adores her for it? Are the Wallflowers safe? Will Bo uncover who's behind the attacks on them? Will Bo and Sienna get their HEA?

One-click now and follow along as two people, seemingly opposites, realize they have the one thing in common that counts...love. - By Elizabeth
