Forget Me Always

Sara Wolf

Forget Me Always Sara Wolf

All warfare is deception. Even in high school.

It's been nineteen days since Isis Blake forgot about *him*. The boy she can't quite remember. She's stuck in the hospital with a turban-size bandage on her head, more Jell-o than a human being should ever face, and a tiny bit of localized amnesia. Her only goal? To get out of this place before she becomes a complete nutjob herself.

But as Isis's memories start to return, she realizes there's something important there at the edges of her mind. Something that may mean the difference between life and death. Something about Sophia, Jack's girlfriend.

Jack Hunter—the “Ice Prince”—remembers everything. Remembers Isis's purple hair and her smart-ass mouth. Remembers that for a little while, Isis made him feel human. She made him *feel*. She burned a hole in the ice...and it's time to freeze back up. Boys like him don't deserve girls like her. Because Jack is dangerous. And that danger might be the only thing protecting her from something far more threatening.

Her past.

From Reader Review Forget Me Always for online ebook

Elizabeth says

I loooooooooooooooooooved Lovely Vicious and now I dying for Savage Delight. Only 57 days!!

Henz says

This sequel has gotten a bit depressing for me because of **Sophia**. I really hate her character since she made all things complicated, I know I shouldn't blame her but it drained all the fun in this book. **Isis** is still her usual awesome self despite being in a hospital for awhile. This girl is all sunshine and I just love her for it.

Jack on the other hand had turned icier and more brooding than ever but I love reading his POV, they're all lyrical and I'm such a sucker for guys being lyrical and broken at the same time. It makes me want to nurse him until he smiles. *sigh*

The ending is still predictable, there's also a lot of plot holes and some of the characters are left out but that didn't stop me from finishing it and reading the final book.

Siobhan Davis says

Another superb read from the phenomenally talented Sara Wolf. This series packs plenty of punch. What I love most about it is the complex characterization, witty dialogue, and angst-filled romance that had me biting my nails to the bone!

My heart bled for Isis and Jack in this one. Just as they seemed to have come to an understanding, Isis can't remember who Jack is and he feels like it's his fault for the way he's treated her. I spent the whole book praying that her memories of him would return so that all would be right with the world.

Sophia plays more of a central part in this story, and the mystery that was introduced in the first book is revealed here. There were elements of the plot that I had already guessed, which was a bit of a bummer, but there was enough going on with other sub-plots that were left-of-field to compensate for same.

Does it make me a nasty person that I thought of making a voodoo doll of Sophia and sticking her with pins until she just evaporated? Because she was seriously getting on my wick in this book. Yes, I know I'm coming across as very insensitive but she was standing in the way of true love, and I will always champion true love.

Like the last book, I did predict the ending, but it was still a shocker. I'm known for loving my cliffhangers and my teen angst so this book was a pretty perfect read.

I hope I don't have to wait too long for the next one as I'm already on tenterhooks waiting to find out what

happens next. I have a feeling Jack is going to blame himself and push Isis away and I think I might be throwing a few temper tantrums before this series concludes.

Overall, this was another fab read and I highly recommend it to fans of witty, edgy, slightly dark, YA contemporary romance.

Thanks to Entangled Teen for providing an ARC of this book in exchange for my honest review.

Noodle says

With this second book, I felt we got to delve a little deeper into the inner working of Jack Hunter. The first book was majorly told by Isis, with little bits of Jack while this book had a little more of him and I thoroughly enjoyed him. I'm now also in love with Jack. Like a lot.

"You were thinking out loud. About sex. Has it been a recent event for you?"

Congratulations. Who's the lucky man?"

"Sea slug," I correct, and sit on a chair. Warily.

"I was trying to be nice."

"Don't. You suck at it."

Reread: October 15th 2015

Christine Alibutud says

[Updated book review - 29 May 2016]

2014 seemed so far away from 2016, but Savage Delight (now re-published as Forget Me Always) was just as witty and hilarious as I remembered it to be. I told myself that I'd only reread Lovely Vicious (now re-published as Love Me Never), but *really*, I should've known better than to fool myself I'll be able to resist me some Isis & Jack. Man, I still love those two like nothing has passed! So glad I decided to read this series again!

"Light meets dark..."

"...Secrets meet truths."

5 MAKE-YOU-GO-ALL-WHAT-THE-F-I-FREAKIN-LOVE-THIS STARS!!!!

I CAN'T EXPRESS HOW MUCH I'M IN LOVE WITH THIS SERIES! MY MOUTH WAS LEFT HANGING AT THE END! I AM IN SHOCK... AGAIN! I THOUGHT NOTHING CAN SURPRISE ME BUT THEN I WAS LIKE "**NO FREAKIN WAY!!!!**"

HEY ISIS BLAKE! Do you remember anything? Does the name Jack Hunter ring a bell to you?

How about now??

...Now?

Good! Not only are your memories restored, but Mr. Ice Prince McHottie Pants is also icing his icy way back!

But that's not the only thing that's back.

The past haunts not only Isis and Jack, but also Wren, Kayla, Avery, and Sophia. New characters, new mysteries, problems, secrets, hidden truths, shocking discoveries, dirty playing tactics, and just A WHOLE LOT tangle up with the mess their past brings. And of course, *Nameless* is back in the picture.

I won't babble too much so as not to spoil the good stuff, **BUT DAMN THIS WAS SUCH A GOOD READ!!!** I couldn't put it down, that's how good it is!!! Just like Lovely Vicious, every part was written with wit and I loved it!!! This second installment was just as good as the first one, and I can't wait for the third! Again, the story was done brilliantly, and the conflict was written in a clever manner. Of course, I loved Jack & Isis, **AND YES I SHIP THEM OH SO HARD!!!** The other characters were just as beautifully written, and they all had appealing personalities!

WHAT MORE CAN I SAY??!! I JUST LOVED IT!

HERE ARE THE MOMENTS I SO ABSOLUTELY LOVED:

Isis' amnesia moments

All the "Please remember!!!" moments

When Isis finally had her memories back

Sophie's moments + Tallie (although Sophie had her crazy moments, I still loved her).

Wren moments + Kayla moments + Avery moments...Heck, even Knife-Kid moments!!

The mysteries of the past!

ISIS' CRAY CRAY MOMENTS!!! SOOO HILARIOUS!!!!

Jack.....JUST JACK <3

More Jack Hunter!!! THAT ICE PRINCE IS SERIOUSLY YUM

The continued "war" between Jack and Isis

Isis' vulnerability because of *Nameless*

Jack's love for Isis (I am officially swoon-ified!!)

Jack and Isis' sweet moments

AND JUST EVERYTHING!!!!

Me after reading this book:

And thank you for that Ms. Sara Wolf! You are brilliant!!! I SERIOUSLY CAN'T WAIT FOR THE NEXT INSTALLMENT!!!! YOU ARE WITTY AND FUNNY AND SO GOOD AND JUST UGHH!! I LOVE YOU!!!

Again, loved this installment to death!!!! Gave me a good laugh, a good cry, and just over-all a good time!!!

But that ending just left me hanging!!! AND I AM DYING!!! I NEED THE NEXT BOOK!!!!!!

Aj the Ravenous Reader says

I was only mildly shocked by the ending and a teensy-weensy disappointed because although I foreshadowed that the event was gonna happen, I still hoped the author would possibly have optioned a different route. But I guess that particular ending was inevitable and perhaps for the best. But other than that, the book is perfect!!!

So perfect that Ryan Reynolds could kiss a man!hahaha. Because even if the love story and the entire plot were heavy, the characters particularly Jack and Isis, Isis especially, made everything light, entertaining and breathlessly funny. For that incredible reading experience, I thank you Ms. Sara Wolf. I've never encountered a crazier (huge compliment) writer.

Valeria says

Uhh... I freaking LOVED it!! This book left me speechless, soo many stuff revealed. Like damn sara where do you come up with this stuff?

When is the third book comig out I NEED to know... I also need more jack and isis romance like hardcore romace....

This whole series is fantastic! Jack and Isis are incredible characters soo entertaining and witty. I SHIP them soo much!!

Sara please put a date on the third book im dying with that cliffhanger, like say whattttt?!!!!! (But I secretly love cliffhangers- I know im a masochist)

Vasiliki says

5 stars!

*ARC kindly provided by **Entangled Publishing, LLC** via Netgalley in exchange of an honest review.*

The book goes with story exactly was left in Love me Never! The plot was great and lots of questions are answered! I need to point out that the story deals with a couple of really sensitive issues and it's done nicely but it's not for everyone!

They were surprises and twists and characters that are funny, serious, mature and immature! Ms. Wolf has written a fantastic YA/NA book that gave me fast heart beating, sleepless nights and physical pain! In other words, this book made me feel alive and I cannot thank Ms. Wolf enough for it!

Isis has changed in my eyes. Yes, she is still herself with her witty comments and fast talk but her heart starts opening up and it's beautiful to watch her to grow in such a way! I really love her!

Jack mainly broke my heart every time I was reading his POV. I couldn't understand his reasons before, but I understand everything now and I love him too! He used to be the Ice Prince but he is actually warmer than fire!

Their interactions gave me life! Beautiful! There was tension and feelings and everything I wished for! I cannot see how the future of Isis and Jack will be but I really need to know.

However the end of the book left me a big hole in my heart! I don't know how I will find the strength to wait until the next installment of this series with everything that happened! The last chapter, Wren's POV was just amazing and really set up everything for the next book!

I definitely recommend this book to everyone who loves a good YA/NA with a bit of darkness and lots of pain!

Sabrina says

I would like to thank Netgalley for providing an early eARC in exchange for an honest review.

The ending broke my heart. I will be honest. The sweet freedom of being free was cut short in a horrific end. That twist at the end left me in tears.

This book was a challenge for me. I normally avoid contemporary YA for a number of reasons but I couldn't stay away from this one for number of reasons. Mainly because this series deals with mental illness and hiding from the demons from your past.

This book is more than just about war between Isis and Jack. It is more than their differences and conflicts. This book is about their troubled pasts, haunting their present and causing indecision for their future. This book is much more than what's just written on the pages.

This series was rewritten and republished with new content. Reading the reviews of the older editions and reading Forget Me Always, I believe that this book entirely different, in a good way. It's my thought but I may be mistaken.

I believe this isn't just any other YA contemporary. It's something so much more. You just have to read between the lines.

Penelope Douglas says

Chewed this up faster than the first one. Same great Isis with a lot more intrigue. Not predictable at all.

Navdha says

This is going to be a very spoiler filled rant review with a lot of cussing in about every other line for every other character. It's a mixed review for both *Lovely Vicious* and *Savage Delight*. It's going to be long.

***gives a pointed look* You've been warned.**

This series is one of those that I truly despise but can't seem to give up on. There are actually quite a few reasons for that.

Reason #1:

The books are really really short, like I can finish them in a single sitting short. And that is just reason enough for me to read them ~~since I have a GR challenge to complete.~~

Reason #2:

These stories have a tendency to end in a way that I just have to know what happens next. They make my ugly curious streak flare up and I just gotta know dammit!!

Reason #3:

I'm a sick masochist. >_<

Anyway, let's start with reasons of why I despise this book, shall we?

rubs hands together

Reason #1: The unrealistic story

Okay, so this story is set up in a high school right? A high school where the administration and the teachers have an authority over the students, right? Where teachers are supposed to act mature even if they aren't, right? Sadly though, this series forgot to get the memo.

In the last book we saw the Principal pasting butt crack flaunting pictures of one of his student for another student all over the school. We also saw a student march in the middle of a class to throw a fit and fling a few cuss words at another fellow student while the teacher just stood back and watched. Then we saw a Math teacher checking out the ass of a student while another student snapped at the teacher for doing so, making the teacher back away. If any of you were bothered by that, or were hoping it wouldn't be the case in this book, I'm sorry to be the one to tell you that it doesn't get any better. We see Isis being disrespectful and outright rude to her Principal on several occasions. Even though that moron deserves it, I'm not able to comprehend why Isis hasn't be suspended for her filthy mouth.

But that's just one of the reasons why I say that the story is unrealistic.

So high school students means teenagers, doesn't it? I'm reading a book about teenagers. I have to remind

myself that several times because either they're acting like nonsensical kids rambling shit or bearing the weight of the world on their shoulders. It doesn't make sense! It's aggravating!

Reason #2: The despicable characters

I hate every character in this book. Seriously. I have *reasons* for hating every one of them. In fact I'm going to write down my reason for hating each one of them. ~~I'm tired of stating reasons but I can't seem to stop.~~

I don't remember having read a single book that has annoyed me as much as this one cause of the characters and the *characters* alone. So I'm going to list down each character and their characteristics/flaws.

1) Isis:

- Chronic illness of being a blabber mouth
- Questionable habit of snooping into others business
- Feeling sorry for herself
- Being annoying in general

If I actually met Isis in real life, I would either drown her in chloroform or shoot her, whichever was convenient at that given moment. This girl needs to learn to **shUT THE FUCKING HELL UP!** You're traumatized? I get it. You're trying to cope with life by building a cocoon around yourself? I get it. Even though you don't get tired of pointing out how fucking fabulous you are every waking moment of every day, you're insecure and trembling inside? I get it too! But please, for the love of God, stop speaking or I'll cut your tongue out.

2) Jack (the Jackass):

- Unfathomable professional choice of whoring out
- Absurd habit of being a colossal dick to everyone other than Sophie
- Being a rage monster

I cannot pretend to understand or appreciate Jack whoring himself out for helping Sophie. He chose to become an escort because it was easy? Convenient? Didn't have any other option? Wasn't his mother loaded? Even if I assume that he didn't wanna borrow any money from his mother, wasn't he a genius? Couldn't he use his genius to.. I don't know, develop an app and sell it for millions? I don't get it but whatever. What really ticks me off though is how he justifies his infidelity. Even though he loves Sophie since middle school and has had a baby with her, he thinks it is *okay* to sell his body since he doesn't "feel" anything for the women he fucks. Besides that, he makes out with Isis when he's dating Kendra-what's-her-name? Oh and if his devotion towards Sophie is so absolute, why the fuck does he secretly harbor feelings for the creepy girl who stalked him? Dude, what in the world is wrong with you???

You make me sick.

But anyway, the only thing I tolerate about Jack is that he gives it up to Isis straight. He doesn't beat around the bush and calls her out on her bullshit. He is mean, arrogant, pompous and just as fucked up as Isis. ~~They can both go fuck themselves.~~

3) Sophie:

- Dying cause of that incident that fried up her nervous system..?

- Unhinged and bitter cause of that incident/illness
- A pretentious fuck
- A selfish little bitch

She was supposed to be sweet.

She wasn't.

She was supposed to love Jack like a brother according to her letter to Jack in *Lovely Vicious*.

She didn't.

They'd had sex.

Many times.

She was supposed to respect her love for Jack by going through the surgery that he had whored himself out for.

She didn't.

That uncaring, insensitive, tactless, inconsiderate piece of shit jumped off a balcony! I'd be glad that she died if I wasn't seething.

4) Avery:

- Being a lying piece of scum
- Opportunistic, irascible and crazy
- A stereotyped, depressed, popular she-devil.

I mostly didn't have the energy to despise her because I was busy hating everyone else. Although.. She does deserve accolades for being the most spiteful, resentful and obnoxious prick.

Since this has gone out of hand, I'll wrap up by saying that Kendra-what's-her-face is a bimbo, Isis' mom is a parasite and needs to grow a pair, the Principal needs to learn some manners and Wren can stay just as he is because he is the only normal teenage guy in the book.

Reason #3: The ending(s)

I can't seem to grasp how one moment nothing is going wrong in the book with Isis being incoherent and rude, glaring at Jack while he is being depressed and exasperated and then next moment, BAM! The book is about to end/has ended with something gone terribly wrong, leaving the reader disoriented with a general wtf-happened expression on his face. I am not a fan of such endings. Endings of that sort eventually lead to me writing long pissed off reviews stating reasons of why the said book pissed me off. It's a vicious cycle that I love and hate at the same time.

Anyhoo, after my incessant grumbling, I should admit that the writing style of the author is to be blamed for getting me hooked. It is simple yet engrossing and captivating. That is the only reason I'm rating this book 2 stars.

Gah! I'm finally done with this review!

Now the wait for the next one starts

NiCoLeTa E. says

Hmmmm... I'm really confused! I don't know what i'm felling right now....

It starts like that...

and after a while i became so much angry...

I wanted so bad to slap Sofia in some point...

I wanted to strangle Nameless or...

I wanted to shake up Isis...

And i wanted to hug and comfort my sweet Jack!!!

Oh! I almost forget it... I like you knife-guy, I really do, dude!!!!

And when i was about saying HALLELUJAH...

Then.... Bang!

Oh, FUCK!!!!

Everything collapse...

and i fell to the bottom...

and i become like that...

Why the hell, is everything against them???

First, was the amnesia... The pain in my chest was unbearable...

Secondly, too many secrets...

And finally, it seems that almost everyone is against them...

My poor, Isis... You have to get over the shitty attitude of Nameless and give a chance to Jack...

And my lovely Jack, don't back off... Reclaim her harder!!!!

Please, Sara!!! Make me happy!!!

I can't stand anymore that burden in my heart!!!
Give me something good...

Laz says

"The sadness will last forever. And I think he was right, but I also think he was very, very wrong. It doesn't last forever. Because we don't last forever."

This was a decent follow up to the first book which I still hold dearly in my heart but in this one something felt off. First and foremost, I hate how the author categorized it as a novel despite its short length.

Isis is a really dark and twisted teenager and that's my favorite kind. However, she's snarky and sassy and sometimes doesn't think the consequences of saying whatever she feels like saying and ends up hurting people around her. I'm not saying that Jack, the cold king, doesn't deserve any of this but sometimes we have to draw a line at what is and isn't appropriate to say and more importantly when it's the right time to say it.

Although, Isis is an amazing character, I wish there were less snarky comments and more plot. At times, it felt like the storyline was being dragged on and I don't like overstretched scenes.

The rating is not objective. At all. To be honest, it's pretty harsh because the first book was flawless and I loved how different it was from other books of its kind. This one simply did not live up to my expectations. Sadly.

Something tells me, by the way the book ended, that the next one though is going to be more intriguing. Let's see.

bibliophile (Romance Addict) says

****5 WTF-Was-That-Ending Stars!**

Series: Lovely Vicious by Sara Wolf. This is the second installment after Lovely Vicious.

“The sadness will last forever. And I think he was right, but I also think he was very, very wrong. It doesn’t last forever. Because we don’t last forever.”

This book comes after Lovely Vicious, and it is a completion after the crazy ending in book one. We also have a new character who played a big role in this book, Sofia.

If you've read the first book, you might have an idea on who's this, and why she's very important to the plot line. In this sequel though, she's one of the main characters. We learn more about her personality and the past. I must admit, Sofia is very twisted and can be borderline crazy. At the same time, I didn't hate her. I just feel sorry for her even though she's the crazy antagonist. To make it short, I don't know how to feel about her.

~~Again, I love this book's humor.~~
The funny banters.
Isis.
The plot was definitely very dark</s>.
~~Yet, I laughed a lot while reading this.~~
~~There was so much more than that.~~
~~Funny.~~
~~Cute.~~
~~A crazy plot twist.~~
~~A crazy ending.~~
~~& it is a fast read.~~

*I advice you don't read this review if you haven't read the previous book to avoid any spoilers. **Especially** if you're planning on reading this series.*

So in this sequel, we follow Isis who is now suffering with amnesia. She was very traumatized. However, everything is normal except the fact that she doesn't know jack. She forgot the wars, and the connection she had with him.

“Jack doesn’t give a jackshit about me. No, wait, I got that backwards. I don’t give a jackshit

about Jack the Shit.”

On the other hand, she meets **Sofia**. The girl she wanted to know so much about, but she doesn't even remember anything about her anymore. They soon become friends again, but to Isis's surprise, Sofia is hiding so many secrets. As her memory is coming back slowly, Isis discover all the lies and secrets.

As I have already stated, this book is short. I think it's a sidestep to prepare us for what's going to happen in Brutal Precious. I honestly can't wait to pick up the last book.

Another character that we got to know more about is Will ~~Nameless~~. He's a jerk, and I wanted to punch his face so many times because he's a creep. We will definitely get to know him more in the third book, and I can't wait till Jack smashes his face. ~~I'm getting too emotional.~~

Series: Lovely Vicious.

Author: Sara Wolf.

Book: Second book in the series.

Heroine: 5 Stars!

Hero: 4.5 Stars.

Plot: 4.5 Stars.

Plot Twist: 5 Stars.

Ending: 5 Stars. (I was like WTF?)

Cute Scenes: There was only one cute scene, I wanted more!!

Hot Scenes: Doesn't exist!! (This isn't bad in this book since we are in transition to another place & a new journey. So I don't mind it.)

Overall: 5 STARS!!

Perks Of Being A Fangirl says

Review:

What I will be doing with the rest of my day...anybody else?

CLIFFHANGERS AND I HAVE A LOVE HATE RELATIONSHIP.

After waiting months for this book I really hoped that this will solve everything between Isis, Jack and Sophia. Unfortunately it doesn't. This book had me laughing at the ridiculous things Isis says to damn right frustrated but I thoroughly enjoyed all the emotions it left.

My favourite quote from this book is:

'The sadness will last forever. And I think he was right, but I also think he was very, very wrong. It doesn't last forever. Because we don't last forever.'

BRING ON THE NEXT BOOK

~~~~~

UPDATE: 27/12/13

THE BLURB

I NEED THIS BOOK

This is what I say to this book

---
