Wow, I'm still drying my tears! I haven't been moved by a book in a long time!

## Shani Struthers says

A fabulous book - worth every one of its five golden shiny stars and then some! Godcorp is the story of Evie Stone and her utter, absolute and overwhelming grief when her boyfriend, Malcolm, is killed in an untimely motorbike accident. It's a mistake - a colossal one - she wants him back and if there's one thing Evie is, it's determined! She is thrown a line - literally - the hotline to Godcorp but, as with all these big organisations, can she get through, actually speak to someone? No, she bloody can't. She then becomes intertwined with business mogul Lucius Devlin who also says he can help her in her quest to bring Malcolm back, that's when she starts playing with fire - literally. You're going to have to read the book to find out more, I'm not one to give away plot lines but believe me when I say you are so going to want to read this book! The writing is fresh, it's young and it's exciting, the idea itself - heaven and hell as giant corporations is genius. And the characters? Well, when Lucius is on the page it sizzles, he is one naughty, naughty devil! The chemistry between him and Evie is almost tangible - actually, there's no 'almost' about it. And then there are the Prophets - 3 hilarious characters that provide some much needed light relief in amongst the angst. But, as funny and as clever as the book is, there are also serious undertones regarding religion and philosophy - most notably, who's to say who's right or wrong - it's really a matter of perspective. And perhaps there are shades of light and dark in everyone, including such notable deities as God and the devil. In short, I loved this book so much, I asked the author for the sequel (both coming soon) and devoured that too - it's every bit as brilliant as the first. I now have a book hangover until No.3 comes along!

Godcorp is a unique book that stands out with its well thought out plot, back story and characters. I mean, where else would you find the Devil as a possible love interest?

When Evie's on-again, off-again boyfriend is killed in a freak accident, she is convinced that he was taken before his time. She consults with the church, psychics and anywhere else she can think of to get the answers that she needs. The mysterious Lucius Devlin points her in the direction of the even more mysterious Godcorp.

Evie has the Midas touch but as she continues to seek the truth, her life starts to fall down around her as her focus slips. As she delves deeper into her investigation of Godcorp, she finds that it is heaven rebranded and it has a website and a call centre.

Lucius Devlin is temptation; sexy, hot and the devil incarnate. He wants Evie for his own company and for himself, having fallen for her big time. But what happens when the Devil wants you and claims you for himself?

Evie's persistence and single-mindedness is the reason that she gets as far as she does but at great personal cost. While she also falls for Lucius she is also still love with her deceased boyfriend. Who will she ultimately choose?

Lucius is a character of contrasts. He appears to be kind and considerate to Evie's needs and providing her with the tools she needs to get the answers that she wants. On the other, his past and his business dealings show him to be completely driven and selfish in his actions. There is certainly more to Lucius than meets the eye and his actions should not be taken at face value, after he is the Devil.

I loved this story, pure and simple. It deals with a difficult subject in a sensitive way and looks at the questions people ask themselves when they lose a loved one. The characters are all so vivid and just jump off the page at you and suck you into the story. The history of Godcorp and the Devil were fascinating to read and brought the belief of heaven and hell into the 21st Century. The story is unique and stands head and shoulders above the majority of books around at the moment. With its conclusion leaving lots more questions still unanswered, I can't wait to read the second instalment. Watching the Devil fall in love is a new one for me!

If you are fan of Ian Somerhalder, You will love it. If you love paranormal romance You will love it. If you love a great story with an interesting plot you will love it. It's that kind of a book where you think this can't happen but yeah it did. This book is beautifully written telling a story of Evie who wants her boyfriend aka ex boyfriend back to life. She has a gut feeling that it was a mistake. Early in the story I was frustrated and angry with her. I could understand her pain. I know how it must have felt but she went to an extreme but the story which happened next changed my opinion. SO yeah this book is a kind of book what you believed in the starting it will change it in the end. It's like a drug which will keep you holding on to it. Enters Devlin and the story is gone Devil! Oh my It was a fantastic book. A devil so charming his words so touching that you wouldn't care who you are! It was fun to know him. The chemistry between Evie and him was electrifying. I was like leave your ex and marry this guy!! DO you like books with surprises ? Do you like books where you don't know what's happening next ? This book is yours! This is a fantastic debut by Jessica Smith!!

This series was lol funny.

I've no choice but to read the next book in the series. I can't possibly miss how Evie deals with being the devil's bride.

### **Kirsteen Price says**

From the minute I was told about this book I knew I'd love it and it didn't disappoint. Pitched just at the right side of tongue in cheek it grabs you and pulls you into Evie Stones sometimes warped mind and takes you on a journey from the corporate sales world, through rural Herefordshire, into the realms of Heaven and ends with the Devil firmly by your side. If you liked Fifty Shades you'll love Godcorp even more, Lucius Devlin

has no hard limits and you'll be glad he hasn't. I found it completely absorbing and even found myself wondering if it really was possible to drop God an email or call him from my mobile. Definitely one to watch, can't wait for book 2.

The Godcorp synopsis made the book stand out to me when a Review Tour email popped in my inbox, so thanks to the author and tour host for giving me the chance to read it.

This is an honest review and I have to say I was engrossed, and although I had a niggling feeling on my shoulder (must have been the good conscience angel sat there poking me) I began to hope that Lucius Devlin (The Devil himself) would get the Gal... the Gal in question is Evie, now there is a determined woman! but I will get to the characters in a moment.

Now first lets start with the premise of this story - its a paranormal tale of Heaven, Hell and Fate, and it was a refreshing change of vision for Heaven and Hell, I quite like this version actually and it reminded me a little of my favourite tv show Supernatural, in fact Castiel in his trench coat stood being reprimanded by that HR Angel biatch flashed into my head as GodCorp was described.

When Malcom Evie's long time on-again, off-again boyfriend is killed in a motorbike accident, she is devastated, but she has this niggling feeling in her gut (there go those niggles!) that its a mistake, that he shouldn't be dead.

She can't let this feeling go so she embarks on a mission to contact god... she tries the church, mediums and and GOOGLE (and of course she has more success with the latter, because as you know Google knows everything LOL)

Now lets get onto Evie, as I said she is a determined lady, she is a successful Sales Manager, in fact what ever brand she touches turns to Gold... and it seems that our Lovely Evie is a MIDAS, Her boss had plucked her from obscurity and now she was the girl with the golden touch and everyone wanted her to look after their accounts.

Obviously after Malcom's death she is not really focused on her job, but a chance meeting with a potential new client brings her an unexpected lead on her quest.

Businessman Lucius Devlin drops a few clues about a mysterious Godcorp. Who is Godcorp you may ask - well apparently heaven was rebranded in 1999 and its even got a website and a call centre!!! (picture me googling godcorp at a certain point in the books beginning...yep I kid you not!)

Now let me get onto the other lead character...Lucius Devlin - well how would I describe him, well he is HAWT!!!!

The sexy, suave, panty melting man is actually the ultimate fallen angel, yep good old Morning Star, the Devil himself, although he now goes by the more modern Moniker of Lucius rather than Lucifer. And he has set his sights on Evie, he tries to head hunt her for his business, and his bed!

The Dark lord has a thing for old Evie and he offers to help her on her quest, to show her he is not as all the "Media" make him out to be. (he does a good job too, because I was like HELL YEAH!) Jessica Smith has done a great job with Lucius, he is such a multi faceted character, on the one hand he comes across as kind and considerate a good boss to his employees, but then on the other hand his business dealings show him to be the ruthless cutthroat Devil you expect him to be. I know for sure that by the end of the book I was shocked and was wanting to grab a hold of book 2 ASAP to find out what exactly will happen next!!!!

To finish off I just want to say that I loved this book and I laughed and cried along with Eive and I really will be getting Book 2 as soon as My TBR gives me the space to read it (I may just sneak it in next month!)

The characters come alive, and I loved the 'Prophets' (you will just have to read the book - I don't want to spoil the enjoyment for you)

The way Jessica has described Godcorp and the Upgrade of Heaven & Hell into the 21st century intrigued me. I loved the way that she brings in the Corporate world into the way they are run now.

This is a gem of a book and I would recommend it to all Paranormal/fantasy readers, but it is a series and ends in a cliffhanger and I now have more questions - but heck Book 2 is there ready and waiting so the pain was lessened.

Its a novel idea to have the Devil as the romantic lead male, but Jessica has done a fabulous job. and when I read her Author Bio on her Amazon page, I realized why this story has such Heart and soul... I love an author who isn't afraid of putting part of herself in her work, and I will be keeping an eye out on all her future works too.

I know that this book will be a Favourite Read of this year.

It was different from what I was use to reading,as I began reading it I got more and more into the book. It made me question about heaven and hell, I love the way it was brought into the 21st century. I felt so sad for Evie and Malcolm, I love how she was not willing to let him go. I loved how the devil was portrayed. It was better than I expected. I'm about to finish book 2

### **Nikki Reeves says**

So this is the first book I have read by Jessica and let me tell you I was not disappointed. This is one of the best books I have read in a long time. I was literally sitting on the edge of my seat the whole entire book!!! I felt so bad for what happened with Malcolm in the beginning that started this journey for Evie. My heart broke with her and at times I felt like she was completely insane while also pulling for her to get her answers. And Lucius what can I can about him?? There really are no words.. He is something else that's for sure. This is one of those books where you want it to go one way the way things should be but then again you are crossing your fingers that it ends another way. There were many moments in the book that left my mouth literally hanging open all the way up until the very end!!! I should say I was surprised but I really

wasn't lol not in a bad way you just have to read the book to really understand. And I highly recommend this book. I am starting the second one ASAP!!!!

### **Adalinda Gonzales says**

This is just to tell you what got me to read Godcorp. I normally go for books by authors I already know. i used to be afraid of reading other authors books worried that they wouldn't meet my expectations. Jessica Smith's cover for Godcorp caught my attention. I wanted to know more about it. I attended an author takeover from her and I liked the teasers she had provided.

To get to the point. I highly recommend Godcorp. I fell in love not just with the cover, but whit Evie. Don't get me wrong there where times that I wanted to slap her, but overall she was a great character to read and relate to. I don't think that I should tell you the synopsis but to give you some detail on it here it is. Evie was waiting for her on again of again boyfriend when she got the news that would change her life forever. She meets Lucius Devlin who guides her in the direction of Godcorp in order to get her boyfriend back. Lucius Devlin is not what she thought he was which makes the story even more interesting. Jessica totally had me in an emotional roller coaster. I was sobbing my eyes out and laughing at the funny moments. There where times I wanted to scream because the situation called for it. I was getting desperate to find out how this was going to end. I had to put the book down because of personal issues, but other than that i would have pulled an all nighter. This book is a definitely a must read.

Get ready girls because Lucius Devlin is coming and Oh My God! is he bringing his sinister sexy smile with him. You know that he has something planned further than what he actually says. I fell in love with him. And boy do i want taste his different flavors. But starting with vanilla is Okay too. I repeat Godcorp will have you in a high and low roller coaster ride. AWESOMESAUCE JESSICA SMITH. You have me hooked

I was gifted this book for an honest review and all i can say is that i loved it!

This is quite a different book to and i've read before and it had me hooked from start to finish. Evie Stone's ex boyfriend, at the time, suffers a road accident on his way to meet her and ends up dead. He was supposed to meet her as he had an important secret to tell her but she never learns what it is. Evie feels deep down there is a terrible mistake, and having always trusted her instincts, she finds herself meeting different people and doing things that may question her sanity to try to bring Malcolm back.

In walks Lucius Devlin, who is perfect in every way and wants to poach her from her place of work to work for him. He helps her in every way he can, or so it seems, to get Malcolm back.

Without giving it all away i can honestly say i never thought i would be 'rooting' for the Devil (Lucius) to win! There a lot of twists and turns that you really don't see coming and had me completely captivated in the story.

There is a lot of humour in this book, a lot of it had me laughing out loud, Barry was brilliantly funny! There was definitely a lot of intense emotions in this too and had me on the edge of my seat a lot!

I can honestly say i loved this book, it was a completely different story to anything i have read before and highly recommend it! Even though it did conclude i would love another book about Evie, Lucius and all the great characters and would love to know what Malcolm's secret was! lol

## **Thecraft says**

Godcorp is the first book in a series about Lucius Devlin and Evie Stone. The story is hard to categorise, in some places it is sad and moving, anyone who has experienced real grief will be able to empathise with Evie and her loss. In other places it is laugh out loud funny, and in others still, it is thought provoking and cheekily philosophical. One thing is for sure, it will take you in directions you never thought you would go before picking it up. Highly recommended!

## **E.F. says**

Absolutely loved this!!! *Godcorp* had me hooked from the very beginning. It's emotional, intense, and undeniably fantastic. The author, Jessica Smith, does a fantastic job with this novel. Her writing is amazing, the story line is a one of a kind, and her characters are unforgettable. I just love Lucius Devlin, one of the main characters, and I look forward to visiting with him more in *Godcorp 2*. I would not only give this more than five stars if I could but I highly recommend this book to everyone!

## **Jacqui Norris says**

Wow! Just Wow! I started out crying with Evie in the book and feeling every emotion with her. Then I got sucked in and loving every minute of her quest to get back the man she loves while falling in love with the

Devil himself. Lucius Devlin is a man who knows what he wants and gets what he wants, no matter what. He wants Evie Stone and will do what he has to to have her. I could not put this book down!! It is well written and gives a whole different perspective of Heaven and Hell! I LOVED it! Plus it helps that the Devil is a hot billionaire!! A must read!
