**Hide Your Fear** Kevin O'Brien

## **THE ONLY WAY**

A home provides more than comfort and shelter. It stores memories . . . and hides secrets. Divorcee Caitlin Stoller and her children recently moved into a charming old Tudor-style house in the coastal town of Echo, Washington. The place was a bargain, but as weeks pass, Caitlin starts receiving messages first friendly, then unsettling, hinting at the property's dark past . . .

## **YOU'LL STAY ALIVE**

Caitlin's teenage daughter, Lindsay, isn't fitting in at school. To make matters worse, there are stories about local high school students who've disappeared without a trace all star athletes, like Lindsay. Then there are the rumors that their new home is cursed. Caitlin doesn't want to believe the whispers, but something strange is going on. Personal items go missing, and there are too many accidents . . .

## **IS IF HE NEVER FINDS YOU**

The Watcher knows how to get inside the Stollers' home and inside their heads. The rumors are true . . . but the full horror is even worse. There's no escaping the nightmare that started here long ago, and no place to hide from a killer who knows exactly how this story will end.

# From Reader Review Hide Your Fear for online ebook

## Gillian Odom says

Wow! How have I never heard of this author before? Crazy. Absolutely loved it. Wish I could have just stayed home to read! I will be reading the rest of his books From here forward! Loved the two twists and the ending! Great characters!

---

## Paul says

This is the 5th book by this author I have read, and while all of them have been good, this one really stepped up the creepiness factor. The way the story develops is completely believable and very unsettling because it is so plausible.

Take one haunted house, add in a number of missing teens, and add in a serial killer, and you have Hide Your Fear. I found myself feeling my skin crawl more than a couple of times, that's how scary good this book is.

---

## Sue says

A special thank you to Kensington for my copy of Hide Your Fear by Kevin O'Brien in exchange for an honest review. I will read Hide Your Fear and give a review after I have finished reading my current book.

---

## Xaleah says

I really enjoyed this book, lots of twists and turns for the suspense genre. This was my first time reading this author and now I have to look for his other books. If you are into mystery and suspense this is a great novel.

---

## Stoney O'Hanlon says

Stayed up til 2am to finish. 'Nuff said.

---

## Michelle says

Some parts cheesy suspense but most of the book was solid and kept me on the edge of my seat. Enjoyed it!

---

## Vicki G says

I honestly don't understand this. I can't put some books down. Others that I like take 6 months to read bc I can't get through them. This book wasn't one of the slow ones. Now I wanna read everything he's written. I can't believe I've never heard of him but he's a NYT's bestseller.

---

## Gypsi says

Divorcée Caitlin Stoller and her two children move into a beautiful home to start a new life. Unfortunately, the house comes with a threatening stalker.

Meanwhile, in another part of the county, high school swimmers are being abducted. One has been found dead, while the others are still missing. Aaron has just joined the missing.

*Hide Your Fear* is a creepy, unsettling domestic thriller. It weighs in at 544 pages, and I read it in three gulps. O'Brien's writing is average, but as his storytelling ability is excellent, sparkling prose isn't missed. He expertly weaves the two plots together and keeps the reader in suspense even after revealing nearly everything. I highly recommend this as an un-put-down-able read.

---

## Jordan Anderson says

Even after 14 or so books of pretty much the exact same tropes, plot elements and similar ideas, somehow, Kevin O'Brien *still* manages to pen yet another fantastic thriller that kept me absolutely hooked.

*Hide Your Fear* is easily the most addictive novel I've read in up this point this year (August, 2017). I mean, I read something like 320 pages in one sitting because I couldn't put the damn thing down. That's, quite simply, because, even though O'Brien isn't the best author out there, the guy can spin one hell of a story, complete with the requisite cliff hangers, red herrings, and moments of plot twists that are an essential part of a book in this genre.

Ever since I read *Unspeakable*, I've always wanted O'Brien to try something different, try to branch out from his same step-by-step, fill in the blank plots of every single novel. *Hide Your Fear* didn't do a whole lot to change the usual strong female lead and teenage male protagonist, but thankfully, O'Brien changed up the way in which these characters work, interact, and eventually work together to bring about a really great conclusion. Finally, after 13 previous novels, doing something just slightly different was exactly what I've been waiting for and easily proves the original thoughts I had regarding his skills.

A few weird moments aside (Swim meets in October? A kind of lame and convenient motivation for the antagonists), *Hide Your Fear* is definitely one of O'Brien's best, and easily takes a spot in his top 3 (which is saying a lot since his last, what? 6 novels? have been 5-stars in my opinion).

---

## **Troy Lindeman-Wyner says**

Not as enjoyable as others.

---

## **Amy-K says**

This was a really great book. I didn't want to put it down and finished it quicker then most books that are over 500 pages that I have read. I like the fact the author didn't repeat himself in the book as far as the mystery or how the characters were feeling. The book kept you engaged with its relatable characters and the order of the storyline.

---

## **Judy says**

### **Another exciting story by Kevin O'Brien...**

I discovered KO after his first book and have read every one, and can't wait till the next one...Hope He never stops.

He is a master novelist! If you haven't read his novels yet you are LUCKY?

---

## **Judy Odom says**

Wow. How have I never read Kevin O' Brien before.

Hide your Fear was an excellent read. So many twists and turns, some characters you love and some you love to hate. It's a fair size book but you will find yourself turning the pages as quick as you are able.

I will be thinking about Caitlan, Lindsay, Gabe ,Aaron , Monica along with many others in this very good story.

I am sure to buy more of Kevin O'Brien as soon as i can.

DON'T MISS THIS ONE

---

## **Katie says**

The house was supposed to be a new beginning for the recently divorced Caitlin and her two kids. Little did she know, however, that the house came with a stalker. Was it just a little innocuous flirting from the creepy, yet harmless, guy who frequented the library where Caitlin worked? Or was it something more sinister? Furthermore, several high school students had been going missing. The only thing these students had in

common was that they were all swimmers on their high school teams. Caitlin's daughter, Lindsay, was also a swimmer. Were the stalker and the missing teens connected somehow?

Normally books take a while to become interesting, but this book was captivating from literally page one. It's a pretty big book (550 pages), but it's a page turner. Although I did, at a certain point, figure out who-dunnit, it was still really good. I'm looking forward to reading more stories by this author.

---

## **Rick says**

Entertaining thriller.
