Hope Pedersen says

This volume shows just how much a person you believed you knew about could change. We see how much a bad influence can be on one of the characters. Once again Naruto has beautiful art and action scenes.

Naruto, Vol. 39: On the Move (Naruto #39), Masashi Kishimoto

Bradley says

Sasuke's team has been assembled, and now two opposing forces are hunting for Itachi. Of course, things never go to plan.

I think Sasuke's fight with Deidara, while it's reasons for being feeling a bit forced, was actually rather exciting. Kabuto's transformation was a rather interesting development, too. Other than that, this volume felt a bit disjointed and slap-dash.

Just because the fight scene is cool, doesn't mean it actually serves the story. It's a shame.

Tim says

This one was better. The hunt is on and different characters are finding each other. But, who will get to whom first? This volume is very significant and a very better storyline can build up from this. The terrifying identity of Kabuto seems like a key moment and it may not be the last of Orochimaru.

Not sure why everyone dislikes the Akatsuki arc. Yeah, it can't beat the first Naruto season (1-27) but this is about them GROWING UP. And the consequences of letting a boy like Naruto live. And why protecting your life is something you should always strive for-as well as your best friend's.

Un peu moins fan de ce tome. Faut dire qu'on se concentre sur Sasuke, que je n'aime pas beaucoup, et Deidara, dont je me suis lassée. Tobi est un peu chelou ?

Diana Lynn says

Good volume, but slow paced to set up what's to come. The Hebi is now formed and Jugo has decided to join as well. Personally, I think Sasuke's team is awesome. I love how Jugo has a soft side to him and Suigetsu is so sassy. Karin is meh, but I'll deal with her. The best part of this volume was the ending which is the beginning of Sasuke's AWESOME fight with Deidara. I fucking LOVEEEE Deidara. He is one of my favorites for sure so this fight was everything in the anime, and I cant wait for the remainder of it to come in the next volume.

Allison Chan says

Yeah!!! Naruto awesomeness!!!

Still reading the manga just to see what Kishi's art is like. It's not bad, but some parts are...difficult to distinguish. Like this part where Sasuke is fighting and he uses Chidori, but I didn't realize that until I saw it a few frames later, and by then he was about to retract it.

Nonetheless, quite an epic part, this volume. It's about trying to hunt down Itachi---both Konoha and The Hebi. (I pity Itachi D:). I don't think Akatsuki's leader specifically asked for them to do this, but Deidara and Tobi head off to...get revenge! Why? Well, cuz Deidara is a vengeful guy. Tobi...well, all Tobi wants are a nice handful of yummy dangos (and other things which I won't spoil), but he's Deidara's new partner, so of course he has to tag along. Anyway, Deidara wants revenge on:

- Naruto, cuz he beat the hell out of Deidara
- Kakashi, cuz he warped away his right arm
- Sasuke, cuz he killed Orochimaru, and Deidara wanted to do that...

So yeah, what a list. Just three shinobi, but some of the most powerful ones. Fortunately for Mr. Art is a Blast, all three are aiming for that one same motive: getting to Itachi. Maybe he should just drop a bomb on all of them. Lol no, that's lame, they're like miles and miles apart.

Yup, that's that. It's very exciting :)

1) Lo sharingan ha rotto il c***o

Era partito come un'abilità innata "sobria", che se la giocava addirittura con il byakugan.

Adesso invece basta averlo e sei forte in automatico

Merda pura!

2) Trovo imbarazzante che il villaggio invii addirittura due team per cercare di recuperare un traditore che, chiaramente, non ha intenzione di tornare.

Danzo, in questo, aveva ragione.

3) I personaggi secondari non servono più a niente!

Otro tomito más y el ritmo no decae! Creo que conseguiré acabarme los 72 tomos en el tiempo que me había marcado (y vosotros lo váis a sufrir XD).

Éste tomo 39 sigue adelante con lo de ir moviendo fichas, dejando claro que tenemos a tres facciones (Akatsuki, Villa de la Hija y Sasuke) que se están buscando mutuamente por dinstitos motivos, pero básicamente para matarse.

Y en dejarnos claro ésto el tomo invierte casi todo su espacio, especialmente en el caso de Sasuke y su grupo, al que siguen presentando e intentando hacerlos molones (sin ningún tipo de éxito).

Entonces, es todo colocar piezas? Pues casi, porque al final tenemos un enfrentamiento Akatsuki vs Sasuke bastante apañado pero que parece limitarse a un tipo tirando bombas y el otro intenando cortarle cn su técnica. No se, esperaba más.

Con todo, queda un tomo bastante entretenido, con mucho texto (lo que lo hace más largo de leer) y necesario para no saltar de una acción a la siguiente.

Travis says

Sasuke has now formed the ninja cell known as The Hebi. Their goal is to track down and destroy Itachi. Konoha and the leaf Ninja are thinking the same thing and form a ninja cell to track down Itachi as well in hopes of finding Sasuke. However as both cells set out on their goals, each are confronted by different adversaries. Sasuke starts a fight with Deidara who is not at all pleased that he did not get to kill Orochimaru. Naruto on the other hand comes face to face with Kabuto who has taken on a new appearance.

Rolando Marono says

Este volumen sigue con el equipo de Sasuke y su encuentro con Jugo. Hay algunas dinámicas interesantes entre los miembros del equipo y parece que cada uno tiene habilidades interesantes que los hace unos oponentes muy fuertes.

Ver a Tobi convivir con Deidara es increíble y vemos una pelea bastante intensa con Sasuke.

Kabuto aparece de nuevo y lo que dice es perturbador pero promete para el futuro. El destino de Orochimaru es de cierta manera revelado.

De ahí en fuera no pasa mucho más, este volumen carece del nivel emocional de volúmenes anteriores. Pero la batalla que presenta comienza de manera muy buena.

Gabriela says

This was more on the Akatsuki and Sasuke than anything else, but it was still really good.

Vittorio Rainone says

Sasuke è affrontato da Deidara del gruppo Alba, e il suo avversario, che combatte producendo sculture esplosive, è molto più duro da battere di quanto non sia apparso finora (il che ci porta qualche dubbio sulla reale forza di Orochimaru). Intanto Kabuto ha deciso di trapiantarsi un braccio di Orochimaru, mossa che ha avviato un processo inarrestabile di corruzione del suo corpo, di cui vedremo gli sviluppi. Kabuto affronta Naruto e i compagni di squadra del villaggio della foglia, spediti alla ricerca di Sasuke. Sebbene continui il curioso processo di innalzamento delle abilità, Naruto mantiene un ottimo ritmo narrativo.
