Helping out Gilbert, a friend who's suffering from late-night visitations, psychic investigator Mason is confronted with aliens on the roof, and soon finds himself caught in a whirlwind of paranormal events. Liminal beings contract him to stop a very real land development project in Los Angeles, pitting him against ruthless and powerful forces. With help from his boyfriend, Ned, and their roommate, Peggy, Mason manages to con his way into obtaining documents that might upset the whole project, but is it worth his own safety? A threatening visit from a shadowy figure and an alien abduction therapist from Texas have Mason questioning his career, his motivations, and the very nature of reality.

I would like to thank Goodreads, Dagmar Miura, Kindle and Mr. Church for the opportunity to rread this novel. This book was fun to read and a great little story. It has paranormal aspect but it would it does not overpower the story . Thank for a goodread on a cold and gray northeast winter day

I would like to thank Goodreads, Kindle, and Mr Church for a great little read. I found the characters to be interseting and the story moved along. It was a great read for a snowy winter day esp since it was set where it is always warm. Thanks

I won this book from Goodreads and I was asked to give this book a review. The book is well-written, but it was too slowly paced for my taste, and I didn't feel a connection with the characters. But that's probably me, not the author's fault.

Won this from Goodreads and wondered 'why did I sign up for this book?' My usual psychic or paranormal choices are more in the cozy section. This is not in that category.

It was well written, interesting and a stand alone, although I wouldn't mind another with these characters. No witches, familiars, vampires or ghosts. Just a psychic, his friends and some unexplained phenomena. I liked this story and I will read the other Christopher Church books.
