The Perfect Affair Lutishia Lovely
The Shady Sisters Trilogy

In this thrilling new series, acclaimed author Lutishia Lovely dives into the scandalous heart of romantic obsession with a cunning, sexy seductress, and the object of her affections. . .

Freelance writer Jacqueline Tate arrives in Los Angeles and soon meets brilliant, award-winning scientist Randall Atwater, the man she's come to cover at a conference on trends and technology. He is everything she's read about--brainy, witty, handsome, and cool. And after a week spent with the most fascinating man she's ever known, there's no way she can give him up.

There's just one problem: Randall's wife of twenty years. No matter--men like Randall are few and far between. Jacqueline knows that with a few bold moves, she can win the man she loves. But what happens when her love story is not a love story?

"There's drama, laughter, and little bit of naughtiness. . .An exceptional read." --Urban Reviews on All Up In My Business

"The action, dialogue and well-crafted characters are so riveting that they'll make your heart race in anticipation . . ." --RT Book Reviews on Heaven Forbid

Debra says

Lutishia Lovely is known for her Amen moments in her Hallelujah Series and her delicious drama in the Soul Food Series,

BUT

in this first book in her newest Shady Sisters Trilogy, The Lovely one has a new voice to add to her growing arsenal of characters!

Jacqueline Tate is beautiful, brilliant, bold and a predator

Randall Atwater is a brilliant Dr., husband and father.

These two meet on the way to a conference, they are both attending and the games begin. For this Shady Sister, it's lust at first sight. She sets her sights on the sexy Dr. He's enjoying the view and attention but has no idea he has become her fantasy and obsession, and the lengths she'll go through to get what she wants,.

Problem is he's married and she doesn't care, neither does her partners in crime, so she thinks....

I LOVED this book and looking forward to the next book in the series, The Perfect Deception due out at the end of the year. But right now if you want a GREAT read, order Perfect Affair right now, you won't be disappointed 5 Stars for this Shady Sister!

Sheila says

Who's reality is it?

This book was awesome. It elicits many emotions about relationships and right and wrong. It is twisted a punch I did not see coming. What can stand against love and the family, they give you strength in the most adverse and trying situations. It was so believable that you had to ask what reality you were in. I guess it's in the mind of the beholder!

Can not wait for book two.

Bre says

#ISSACRAZYBITCH *laughs*

This story was very good and different. I can't remember if I watched a movie with this kind of plot but I loved this novel. I would recommend it if you like romance/psychological thrillers and MOST IMPORTANTLY CAN TAKE READING A LOT OF GRAPHIC SEXUAL SCENES.

Jacqueline Tate is a freelance writer who happens to meet Randall Atwater. She thinks he has everything she wants in a man after reading about him. They spend a whole week together and realizes she falling for him but here's the thing: HE'S MARRIED. Jacqueline will do any and everything to pursue this man at any cost.

I enjoyed this novel because it had me on the edge of my seat with all the twists and turns. Honestly, I didn't have a favorite character in this book because it makes you hate Randall and Jackie lol. After reading about Jackie's backstory, it makes you feel so so bad for her all because of what she went through in the past. All she wanted was someone to love her but she was doing terrible things to have that. She was very INSANE and OBSESSED with Randall but one thing about her is that she was smart. Her "plans" to steal Randall away from Sherri was so crazy to the point where they couldn't figure out other ideas to know it was her trying to destroy their marriage *face palm*

This book definitely deserved 5 stars and I'm glad I bought it. I plan on reading the 2nd book in this trilogy pretty soon. Lutishia Lovely did an excellent job penning this story and can write some good drama.

India Jones-Tanner says

I love Lutishia Lovely's previous books, this one here, I'm on the fence with my rating.

From all appearances, it looks like Jacquelin Tate has it together. She is a bomb shell beauty with a dream job as a free lance writer for Science Today. She has just accepted a six month position that will afford her to travel to different science conferences. On her first adventure, she comes in contact with Dr. Randall Atwater. Instantly, Jacquelin is smitten with the good doctor. She has dreams of them being together, but Randall is married.

Jacquelin is not deterred by Randall's marital status, because what Jacquelin wants, Jacquelin gets. Not so fast says Randall's wife Sherri. After being together for a decade and more, Sherri isn't letting her husband go without a fight. Let the games begin.

Sounds good right? Well, almost. It took entirely too long for the book to gain steam. The first half of the book was all about Jacquelin and Randall's interactions at several different science conferences. Yawn. Shortly thereafter, the book started to get a little interesting. It wasn't until I was 84% in the book that the fog lifted and I was anticipating what would happen next.

I'm not sure about this series. With the next book, hopefully the "fluff", tedious, non-important details will be omitted. This book could have been 100 pages lighter! The ending is why I gave this book 3 stars, but in reality it is more like 2.5.

African Americans on the Move Book Club says

Jacqueline Tate is a young thirty something freelance writer who is beautiful beyond measure and extremely intelligent she had planned to go to a science conference, cover a story on stem cell research and not think of doing any extracurricular activities that included men – or did she? Her plan quickly develops into something that is so outrageous, only a psycho would believe it. She may be every man's dream but Dr. Atwater may find that she may also be a man's worst nightmare – especially if he and his family get in her way.

Lutishia Lovely is a veteran in the writing game. This story is something different for her as she steps outside of her proverbial box and crafts a storyline that is sure to intrigue. The flow of the story was very smooth and the pace was lightening fast. The length of the chapters didn't frustrate but expedited the read. The characters were well developed and easy to invest in.

There is a plot twist that will possibly have you scratching your head and it was not predictable. With that being said, there are a few questions that seemed to be unanswered which could be due to a few things, hopefully not hiccups in the plot development. There is a second installment and maybe some things that were left hanging could be answered. Hopefully the answers were not tied into the information that is revealed in the closing. In any regard, this book will have readers flipping pages and talking to themselves trying to unravel the web that Lovely surely wove in this one.

reneeNaDaBomb says

That Jacqueline Tate was a conniving wench with tendencies bordering on cray-cray about her non-relationship with Dr. Randall Atwall, a scientist. Being a freelance reporters she tracked down info on his family and friends to make a list of who she would poison, shoot or kill to get Randall to love her. Jacqueline actually thought she could replace his wife Sherri and children, Albany & Aaron. This was a good book that I would recommend others to read.

Nicole Hughes says

OMG this was a wonderful book. I love this story, all the characters and was intrigued from the first page until the last. Somehow I knew Randall was innocent or at least I wanted to believe in him. Jacqueline was something else and I loved hating her character. This was such a great read I cannot wait to read part two and three.

Maya B says

I really enjoyed this book. It was not at all a typical book about an affair gone wrong. Jacqueline was definitely crazy. a lot of the things that happen I did not see coming. I look forward to reading this series

E.faye Miller says

Great choice!

Love this author anyway! Giving us the right doses of this woman's issues at the right time. I'm glad Randall's tenacity, and love for his family was greater than Jacqueline's desire to destroy them. Can't wait to dive into the next book!

Maria (aquariusismymood) says

2.5-2.75 stars

Wow, this one went off the rails. It was entertaining, I'll give it that, but wow did it make a sharp turn with no warning to buckle up. That took me out of the story and I couldn't get completely back in.

Not sure if I'll keep up with the story, but it's not completely off the table either.

Desiree Watson says

When Jacqueline and Randall meet at a taxi stand and share a cab to the hotel where they are both attending a science symposium, Jacqueline becomes obsessed. She starts believing that there is something between her and Dr. Randall Atwater. When he tells her he is married, she becomes hell bent on getting his wife Sherri out of the way. She becomes conniving and delusional, and murderous as well. She will let nothing stand in the way of her getting the man she loves and believes loves her. Not his children Albany and Aaron, or her mother. She is ruthless in her pursuit. This read was definitely a roller coaster ride. Read: May 2015

Rhea Alexis Banks says

A Perfect Affair by Lutishia was a very enticing and engaging read. I wanted to climb into that book and hurt somebody a few times and shake to mess out of a couple other times. A Perfect Affair is a provocative tale that centers around an award-winning biologist, Randall Atwater and a freelance writer, Jacqueline Tate. They meet at a scientific conference on trends and technology in which she's there to do a feature story on him for Science Today. She is immediately drawn to this handsome, brainy, attentive, and reserved man. During this week long conference, she becomes determined to make him hers.

Jacqueline sets out to woo and get the man she's fancied herself in love with and will pull out all stops to do so. This she does despite him having a wife, Sherri and two children at home. As we experience this tale of love, determination and other elements, we are caught up in an emotional spiral of manipulation, lies, trickery and deception. All to what cost? Ms. Lovely spun a tale that entraps us in a web that keeps us right there awaiting the next turn, act, deed and reaction.

Carmen Blalock says

Generally being in love is a wonderful thing, when two people are involved. There are dreams of life ever after and smiles and giggles. Then reality settles in and you wonder where did all of this come from and you are amazed that your dreams did not look like this. Is it possible to make your dreams turn into reality or are they just that, dreams?

Jacqueline Tate has everything that any woman would want, she is naturally beautiful, has an awesome job that she has dreamed of and is carefree with no worries. While on assignment, Jacqueline meets one of the scientist that she is to interview. In the process, the relationship turns from professional to personal and things start to heat up for Jacqueline, but she is determined to remain professional about him. Through a series of events things go from 0 to 1000 with Jacqueline and no one can tell her to slow down because she knows and understands her love for him and his love for her, or does she? Will this be the beginning of a

lasting relationship or the ending of a career?

The Perfect Affair is the first book in The Shady Sisters Trilogy and it is starting off with a BANG! It gives you drama, romance, suspense, everything that you need in a series titled Shady Sisters! I absolutely love the characters that Lovely has in her novels and this new series is NOT going to disappoint. I can't wait for it to be released nationwide for everyone to enjoy it as much as I have. The Perfect Affair releases nationwide June 2014 so pre-order it now on Amazon.com or BN.com.

Bridget Bray says

This was a good listen!!! I was like, this chick is crazy or something!! can't believe the things she did trying to get her man!!!

Lori says

I really enjoyed the storyline and characters but it felt a bit short on some details about Jacqueline's past. I wish there would of been more on her friend "Kris"

As the book neared the end it felt a bit rushed. I am looking forward to reading more from this author.
