The Sheikh's Rebellious Mistress

Sandra Marton

The Sheikh's Rebellious Mistress Sandra Marton

For Sheikh Salim al Taj, it's strictly business. But one night with his employee Grace Hunter and his focus is changed--now he wants her exclusively!

When Salim ends their passionate affair, he can't believe it when Grace walks out on her job, apparently taking company secrets with her. He resolves to bring his runaway rebellious mistress to heel--slowly, pleasurably and mercilessly....

Becky Black says

This was okay, a bit... meh, nothing standing out. Got sort of bored with it towards the end.

Tia says

I loved the heroine in this book, she was hurt but she had some serious spunk! As a closer book to the series, it was a delightful read. I was happy to see all the "playboy sheikh's" married off finally. This one was a bit romantic and I had a way easier time relating to the emotions than I did the second novel of the series. It's definitely a tie between this one and the first for my favorite out of the series.

Kathy says

I learned absolutely nothing from this book. I just love harequin romance books.

Farah says

I heard about those Sheikh books but I wasn't sure I'd be into them but surprisingly I enjoyed this book .. things were a little unpredictable and I liked that .. **I understand why Salim doubted Grace so I wasn't pissed at him** .. I liked both Salim and Grace and liked the idea of them falling in love all over again , a good read.

Delaney Diamond says

Another great read from Sandra Marton!

Sheikh Salim and his employee, Grace Hunter, had a steamy affair. They couldn't deny the strong attraction between them, no matter how hard they tried. Here's a sample:

"...he'd had her against the wall, her demure skirt pushed up to her hips...claiming her as he had longed to do from the first and to hell with the fact that they were still in the hall outside her apartment and anyone could have come along to see them, to hell with right or wrong, to hell with propriety." Steamy!

Salim tried to keep his emotions out of the relationship--creating excuses for why he stayed the night in her bed when he didn't normally do that--but the truth is, he fell in love with her. That made her alleged betrayal an even more bitter pill to swallow. Grace disappears, and so does millions of dollars. When he tracks her down in Bali and tries to bring her back to the States to face trial, his plane crashes, they end up on an island,

and Grace has lost her memory.

At first I didn't think I'd like the amnesia aspect, but it worked well. Salim softened toward Grace and eventually realized she couldn't have done what he thought. She in turn basically fell in love with him all over again.

The gift he brings her at the end is so sweet, I was hard-pressed not to go "Aww." I *really* liked this one. It's a keeper!

Janice says

Last book in the Sheikh Tycoons series. I really enjoyed this series by Sandra Marton. This series is a keeper for me.

Tanya Mayes says

This is a really good read. I enjoyed the story line and the hero/heroine Sheikh Salim and Grace was super passionate .

Amy says

Wow, that was exciting! Being sexually harassed and physically assaulted by the new boss, getting caught in a plane crash in the middle of a thunderstorm and then being stranded on a deserted island with a really cute guy. (But he has some attitude problems towards women).

Danielle The Book Huntress (Back to the Books) says

Maybe I was in a bad mood when I read this book, because it just annoyed me. Sandra Marton is a good writer, but something about her couple dynamic can grate on me. The hard hero who is a bully towards the sexually and emotionally susceptible heroine. It's a particular issue in this book. First of all, I think I'm bored with the rich, sexy billionaire who has countless beautiful women at his disposal. If I hear the term mistress again, I might stroke out.

I didn't like Salim, even though he finally got a clue. It took a little too long for him to turn around. If you believe someone you cared about and loved, and respected (Even if your small brain is too sexist to admit you like and respect a woman. Even if you're too scared to admit it) could embezzle money from you, then I feel sorry for you. His arrogance, and sense of ownership and entitlement really bugged me. It didn't get him off the hook with me to know he had been in dire straits while his father was fighting to win back his throne. That should have made him more sensitive, but strangely it did not. This is one of those books where I wonder why the heroine was attracted to and fell in love with the hero. Sure he's a sexy billionaire who's good in bed. But he's a sexist jerk. Not really an attractive trait to me.

Although Grace was supposed to be strong and independent, she seemed like a complete pushover who was a slave to her hormones when it came to Salim. Boy, that makes me roll my eyes. She did not come off as strong or capable. She barely could deal with her sleazy boss who was trying to get her into bed. Yes, he would have several broken metacarpals, and I am not the fighting type, if I was her. Her emotional vulnerability made me want to slap her. Crying, crying, crying. Always crying.

I know, this may seem like somewhat standard Harlequin Presents fare, but there are some really good, emotional, well-written books in this line. Unfortunately, this one did not work for me.

Maybe I wasn't in the mood for this book, and I should have waited until I was in a more tolerant frame of mind. I hope this review doesn't sound mean. Nevertheless, I wouldn't recommend this as a sheikh romance. I still like Sandra Marton, but I might take a break from her for a while.

Overall rating: **2.5 out of 5.0 stars**

RomLibrary says

They were lovers. Steamy scenes's like:

"...he'd had her against the wall, her demure skirt pushed up to her hips...claiming her as he had longed to do from the first and to hell with the fact that they were still in the hall outside her apartment and anyone could have come along to see them, to hell with right or wrong, to hell with propriety."

For Sheikh Salim al Taj, it's strictly business. But one night with his employee Grace Hunter and his focus is changed-- now he wants her exclusively!When Salim ends their passionate affair, he can't believe it when Grace walks out on her job, apparently taking company secrets with her. He resolves to bring his runaway rebellious mistress to heel--slowly, pleasurably and mercilessly.

Isha says

power packed with suspense,and romance.

Isla Books says

Un final esperado para una serie que me ha entretenido. Adoro a los jeques de ojos azules que son tan tozudos como para no creer que en el mundo hay algo más que sexo y pasión

Arianne Devereux says

Perfect love story. <3 <3 <3 <3 <3
