## **UNDER GRAND HOTEL ??????????? Mika Sadahiro , ????**

After killing the husband of his lover, Sen is sent to a prison nicknamed the "Under Grand Hotel", which houses some of the most violent and corrupt offenders. Good-looking and rather soft for prison, Sen is forced to seek protection from Swordfish, the proclaimed leader of the prison. But when their relationship turns from one of convenience to one that may be more involved, can they protect each other in a place where the law has no bearing?

This sums pretty much the tenor of the manga:

I didn't completely like it but didn't even hate it.

There simply wasn't a plot, just an infinite show of rapes, violence and sex. Tons of it.

I'd have appreciated a bit more of "feelings" and of the other inmates characterization, but maybe it was still early.

Both Sword and Sen seemed to be more comfortable in having sex than talking about their past.

I'm not sure if I'll read the next volume, there were too things that left me disappointed.

Okay I will start of with I love Mika Sadahiro. This book had me from the start, I don't really do prison stories. But Sen was so intriguing. his reason for being there, and his attitude about it. I ranked him like a modern day samurai. Then there was Swordfish. I really loved hating him. he was like the very epitome of a hood rat that made it big...In prison. The situations the MCs found themselves were a lot different than I expect and that was a plus.

I have yet to read a Mika Sadahiro story that I didn't like and this is no exception.

I just love 'em boys! Is it weird that I'd classified this one as a feel-good story as well because I went all giddy after the first volume and couldn't wait to start with the second one, and then the third...

I just find it a bit odd how young Swordfish was and already claimed the “shutcall” post in UGH. That’s a rather odd acronym yeah? Like, ugh. Lol. Anyways, rambling again. About Sen, he’s such a stubborn shit yeah?

I really enjoyed this one immensely and find it quite inspiring because I suddenly had the urge to rewatch my Prison Break DVDs( I wished I have known the TV show Oz back then but I was still a snotty highschooler when it was shown so Prison Break it is ^^)

I read this last year before joining goodreads so I'm going to do a quick review for all three volumes here. This is the only Yaoi that I've read so I'm not too familiar with this genre but I loved this one. Just a warning, it's extremely dark with non-con sex, violence, prison rapes, etc.

I loved both main characters.....Owari and Swordfish. Owari is a young Japanese man who finds himself locked up in a maximum security prison nicknamed the Under Grand Hotel aka UGH. In this prison Owari meets Swordfish and all sorts of craziness ensues. This is a romance but it's an ugly romance, nothing sweet or pretty about it lol.

Sen and Swordfish are like a match made in ... kinky heaven.

Mika Sadahiro really had a soft spot for the HBO series OZ, and the fact that the series also got me started on slash and M/M romance really made me place this yaoi manga among my favorites.

But, this is not all. The story is well written, the characters are well fleshed out (for a manga, where everything must be said short and fast), and I absolutely loved the two main MCs interactions.

In the first volume, we just get to meet these two hot guys ... and it is all downhill from there. Sen is aloof and a bit catatonic in the beginning, but that changes when he understands what life in prison is all about, including male on male sex.

Swordfish is such a badass, but the fact that he develops quite an attraction for Sen from the very start, makes him endearing (as endearing as a prison 'shutcall' can be).

But this is not a soft, nice story. Swordfish schemes and lies just to get his way, and he is far from playing nice. Sen struggles to survive and lets Swordfish to do what he pleases, so he can have protection. The sweetest part, nonetheless, is that their feelings grow despite this being nothing but an arrangement.

If you like prison love stories, this story is a 5 star recommendation. Mika Sadahiro did everything right with this one, and if you do not mind violence, rape, and other bad stuff happening in such a setup, you will definitely love it.

### **Sadie Forsythe says**

While I generally like Mika Sadahiro's work, liked the storyline of this manga, and have no qualms with yaoi it was just way too graphic for me. I guess I found my limit. I'm not claiming it isn't a good manga, just not for me I'm afraid.

### **Teetee says**

I was excited to read this series but when I actually got to it...it was a lot harder read than expected and I found it to be uncomfortable. I know its a popular series so i'm aware its just me but if you are reading a yaoi about prison be prepared for some hard story lines. I just wanted some sexy times-if you're looking for that, maybe look elsewhere than this series.

### **Aiko says**

Gritty, brutal, violent, sexy, hopeless and hopeful. Loved this one.

This review is for all 3 volumes

After reading this, I honestly wasn't sure how I could even rate it. I knew I didn't like it, but it was such a bizarre read that I wasn't sure the 5-star rating could properly describe it. In the end, I decided to rate it based on two things: the story, characters etc, and the sex/relationship.

#### **The Plot:**

Well, I mean, there really wasn't one. It was about how one "straight" guy in jail meets another "straight" guy in jail and how many times they have sex. It didn't bother itself with complicated questions or character development. It focused more on displaying endless streams of increasingly graphic and gratuitous sex scenes.

#### **The Relationship:**

Um...yeah. If you're going to say that straight guys in jails, upon looking around and finding no females, turn to other men for sex, then fine. But this manga stated that Sword and Sen were in love without ever justifying that statement. Undoubtedly they had a poisonous, unhealthy relationship, but at no point did I get

the impression that they loved each other. It just seemed like a case of Stockholm syndrome on Sen's part and whatthefuckery on Sword's part.

As for the sex...it's pretty graphic. And that's the consensual sex that doesn't result in one partner almost dying (really) or the seemingly endless rape scenes. I really wish I had kept a tally of how many times someone was raped in this series. While some of the sex scenes were fine (in that am I a fucking pervert for liking this way), a lot of it was genuinely disturbing. How likely is it that a straight guy would be so gung-ho about having sex with his tormentor when he's been raped by/with

- a) The Warden
- b) His lover's husband
- c) His current lover
- d) A broom handle
- e) Seemingly all the inmates at the prison

Aside from the lack of realism, there was **NOTHING** about the characters or the relationship that made you want to root for them in any way. It really just felt like I was reading an extended rape fantasy. I would recommend people skip this one, there really isn't much substance to it.

### **Leanne Crabtree says**

I actually kinda liked this once it got going, probably about the third/fourth chapter where the relationship was evolving properly.

I'm really interested to see what will happen in future chapters and will start volume 2 in the morning.

### **Ami says**

I read this one basically because I was looking for some prison love and this came as one being recommended. i must tell you, it's **REALLY GOOD!!** I love complicated relationship; and man, prison love is one basic ground for complication, right? There are some funny moments, tender moments, and definitely **HOT SEXY** moments. IT IS love in prison and it is probably one of the brutal places for men, right? So you definitely get the beating and the rape scenes. BUT, I can't help to get sucked into the story of Sen and Sword -- what a captivating prison love this is. And you can just feel how deep their relationship becomes in the end. Secondary love between Walter and Norman is interesting too :)

**Fanelli says**

Holy shit.... those are the words that basically went through my mind when I got through the first 20 pages or so. I found some of the things in here so... repulsive and yet very HOT! And I especially loved the interracial relationship that Sword and Sen have. Although at times their actions confused me. I wondered often if they loved each other so much why do they constantly hurt each other?? In the end I loved it and its hotness and its complicated love stuff.
