Under Her Hood Aria Cole

Sadie McGuire took the mechanic job at Fox Motors because there were no other options available, and working on cars is the only thing she knows how to do. But a bossy, growly, alpha-asshole of a boss isn't something she bargained for. Neither is the way he makes her panties damp with one stolen glance. Now it's just a matter of getting through the days without spontaneously combusting under his hard gaze.

Jackson Fox hired sweet little Sadie for one reason: she was sexier than hell when she begged him for the job in those skin-tight blue jeans. The fact that she's talented under the hood of a car is just icing on the cake. But now he can't get the sexy, smart-ass blonde out of his head. Or his garage. There's only one option left—to scratch the sexy little itch that's been plaguing his fantasies, or risk losing his head--and his business.

Warning: Under her Hood is a forbidden romp in the backseat of a classic muscle car—sensual curves, hard edges, and steamed up windows! When Jackson and Sadie come together sparks fly--rev up the engine because this is one wild ride with a sexy mechanic you won't forget!

I saw some good reviews for this one so I decided to give it a try, but sadly it just didn't work for me. The story started off really abruptly and it almost felt like we were dropped right in the middle of it without any beginning. The heroine apparently works for the hero and thinks he's an ass, but by the end of the first Chapter they were sexing it up in the back of his mechanic shop??? I really just didn't understand the start to this and it ruined the whole book for me. We never got anything more than sex between the characters, there was no development to speak of and honestly I don't even think there was a description more than the Hero was "fuck-hot" and the heroine wasn't a girly-girl (I began to heavily skim so I could be wrong about this part)

Either way, this just wasn't my type of story but if you're looking for a pure-smut kind of story than this may be the one for you.

Sadie and Jacksons grease- filled love story was cute.

Let me say I LOVE the cover- and I adore when authors match them to characters they write.

That being said, this was an overall sweet story. Short, insta lust, breeding, HEA, wonderful epilogue.

Extra half star for the ending and front page

Safe read

3.5/5

Sweet, sexy and so very hot! I loved this instalove story!

-hot sexy alpha hero

-great heroine

-no cheating

-no OW/OM drama

-no pushing away

-fantastic epilogue - 1 year, then 3 years later

Why do I keep reading this author??

This one wasn't very good. Seriously, the heroine's friend drops her off at work and mentions that her boss is HOT. To which the heroine replies "Ya, but he is an asshole" Literally 5 minutes later her boss is saying "you are working privately with me today" they go off to work and within minutes are GETTING IT ON.

Honestly, I thought I was missing a few chapters the escalation in the relationship gave me whiplash. *lol*

4 BLUE DEVIL STARS

"I'm bringing you home with me tonight and every night after."

So this book was well short but it was HOT AS F*CK!

Please excuse the bad language in my review but Aria Cole has successfully channeled my inner badass! (I didn't even know she was there!)

Sadie is one f*ckingly awesome badass chick and she is not afraid to own it! She may start off being a little hesitant, due to her inexperience, but she catches up fairly fast.

She is the only woman mechanic in an all-male garage. A garage owned by the hero Jackson Fox.

Just by this fact alone, you will either hate her or love her! What I mean to say is some may think this makes her less feminine and therefore find it hard to relate to her.

For me this wasn't the case!

Personally, I FREAKING LOVED HER!

She was doing what she loved and made no excuses for herself. She had short hair, (which I don't like on me personally as I have a long neck and it makes me look like a giraffe), but it suited her sassy personality.

Everything about her, I found endearing.

I honestly ADORED EVERYTHING ABOUT HER!

The hero, Jackson was pretty amazing too. He was so passionate in his responses to her and everything he did was visceral and intense. For example:

*“Watching you bent over a car every day for the last six weeks has been f*cking hell,”*

*“That wasn’t a dirty look, baby. That was pain. You make my c*ck so f*cking hard I could pound nails.”*

*“I’ve been dreaming of this pretty p*ssy since the second you walked into my garage.”*

*“Jesus, you f*cking wreck me.”*

*“You f*cking wreck me a little more every day.”*

Now do you see what I mean!?

There was nothing TAME ABOUT THIS ALPHA!

He was all man and he was completely consumed with lust-love for his naughty Sadie!

If you want to know how it all plays out, you'll have to read this book and get aroused for yourself...I mean discover its pleasure...I mean....AH HELL! I mean get f*cking turned on!

For me it's worth a read and a reread. So I will keep this one as well. Honestly, I don't know why I even bother to use KU. I should just one click it and forget it.

Btw, the reason why I didn't give it 5 full stars was because I had a hard time believing a strong sassy woman was a complete virgin.

Sorry!

Don't get me wrong, I loved the fact that she was one but I just found it a little odd given her assertive nature. Also, I would have liked a little bit more of them together and more about the cars.

If you're looking for something short, hot and insta-love, *Under Her Hood* is the book for you!

Sadie works in an auto shop. It's not a common job for a female, but growing up working with her dad in his garage, she knows what she's doing. Her boss, Jackson, is kind of an ass. But a good looking ass. One day, Sadie comes to work and Jackson asks her to work with him that day. From there, we see that Jackson has it bad for Sadie.... lots of steamy scenes ahead!

This one only took me about 30 minutes to read. If you're looking for a quick and steamy one, I'd pick it up!

3.5 stars. This was a cute read.

Jackson and Sadie. It's very short and very boring. I skimmed the last 1/3 and it is only 60 pages. The first page was promising but then it was just sex, sex, more sex, sex again. It wasn't especially hot sex either. I

often got lost as to how they got from one position to another in their gymnastics. I've read porn with more story and emotion (and hotter sex). Basically, she works at his garage, they leave the room and have sex, etc, hea.
