I really enjoyed the story line of Kiyo inheriting her grandmother's estate and that with it came two vampire lodgers that her Grandmother took care of. I really loved Kuroboshi as a character, he's mysterious but ever so sweet towards Kiyo, and his servant Alshu just cracks me up. Alshu is a real funny character, he's very eccentric!

Kiyo works very hard to try and pay her way in life, she wants to be a lawyer so she can help get her father out of whatever trouble it is he seems to have gotten himself tangled up in, and she also wants to be able to provide for herself and her vamps. Kiyo has to be careful though not to burn herself out between school, working and running her house. I somehow feel everything will work out though as Kuroboshi seems to be keeping a watchful eye out for her.

I'm hoping in the next volume we will also learn a bit more about Kiyo's father.

At the end of "Bloody Kiss" is a short story called "Angel love song" which was very sweet. I think it's a great story for young girls to read who are starting to date. Has a sweet message about seeing what's right in front of you instead of trying to attain something that you thought you wanted that doesn't end up being all it's cracked up to be. What's that saying "The grass isn't always greener on the other side" :0)

When you want to drop a story before you're even finished with the first chapter, you just KNOW that the story is shitty.

I at least tried to finish chap 1, but that's all I could manage to do. This is just **so** bad and so clichéd and so uninspired...

Even if it's a short story, I can't bring myself to waste any more time trying to read it.

The young protagonist Kiyo finds herself inheriting an old estate where two vampires reside, from a grandmother she had never met. Kuroboshi a half vampire\human and his servant Alsh (vampire) have been chased off to this mansion and resided there way before Kiyo had even existed.

Okay so here we go, so that was just a little info on the manga vol. As the title suggest it's a romance type manga although no kissing ... yet, although there is some biting. The reason why I would give this volume 3 stars is because I like the artistry, the plot is lacking, but it's has a good concept. Knowing this type of manga odds are instead of elaborating on the vampiric aspect they'll just, make it an evolving romance. No that that's bad, just lacking. But I'm getting ahead of myself.

I love the fact that vampires are only aloud to take from one person in their existence. The blood from that person will make the vampire mature into an adult, the blood give is called a "Bride". There's something that confuses me though "A vampire can only take blood from one human. We call that person a Bride." as said in ch 1. I'm not sure if that's to "absorb" the "power" of that person with the blood they drink or what. Because is the last chapter of this volume, Alsh drink the blood of a male and says "Even thought I don't like sucking a male's blood." Obviously he's drank before, so I'm guessing that they drink blood to survive (although you see them eating food?), but can only pick one person to be their bride. This is one of those "would you please elaborate?".

The characters, you've got a physically strong main female character, the needy guy always wanting to be with the protagonist, and the perv. This choice in character types, is okay just okay.

Love this manga the characters were funny and the story line is brilliant

A silly sort of story line. A vampire who wants to make the girl his bride but she resists. He likes her spunk and so on. Cute but not too enthralling.

Bloody Kiss is (sadly) the first of two volumes revolving around our heroine Kiyo who inherits her grandmother's allegedly haunted house. The story gets interesting when Kiyo finds out she not only inherits the house, but the two vampires living in it! Hilarity and lots of sexy scenes show up when both vampires show a little interest in Kiyo herself, and maybe a little more for her blood.

I really really liked Bloody Kiss. The plot was predictable and pure shojo fun, but it was good and absolutely hilarious. I loved the characters, their personalities nearly ripping off the page, and I enjoyed the comic moments throughout this 'bundle of fun.' The only thing that saddens me is the fact the series ends at volume two. I wish the story and the characters could go on having their fun, but oh well.

The art was sexy and lovely, and I particularly enjoyed the vampiric moments :) I will definitely be getting the second one. 4/5

I actually read the complete two-volume set. It was a little light for my taste. I would have preferred something with more bite, or more humor. It was cute at best with likable characters.

Short and sweet. Funny in parts as well.

Not really new story however I liked the way main characters exchange their past without overwhelmed us. Quite funny, good to read to kill time.

[The rating and review refer to the whole series.]

Bloody kiss is a manga from my days of reading anything and everything that had something to do with vampires. Soon enough, however, I realised that I liked the real, a la Alucard vampires, and the "deranged fangbangers" not so much. This could've been a good manga because the premise was very interesting, but it turned out to be way too cheesy for my taste. So much cheese...

This is the first manga I have ever read! I'd always wanted to try to read manga, but I didn't know where to start. I mean, there's a lot out there. Then I discovered there's an entire genre of manga which is basically geared towards teenage girls. Now that sounded like something I'd be interested in. And I love vampires, so *Bloody Kiss* seemed intriguing to me.

It's a short read, but a fun one nonetheless. The 192 pages include *Bloody Kiss*, as well as a short story manga called *Angel Lovesong* and a small sort of manga autobiography about the author.

But the main story is about a girl named Kiyo Katsuragi, still in high school, who inherits her grandmother's house. When she moves in, she realizes she's not alone. There are two vampires living there as well! Kuroboshi and his servant Alshu are alright with Kiyo living there. But Kuroboshi wants to make Kiyo his bride, meaning that she will be the only human he sucks blood from. Only problem is, Kiyo gets really embarrassed when Kuroboshi sucks her blood.

I really liked this manga. It was fun and easy to read. Kiyo is a smart and independent young woman, very goal-oriented. Kuroboshi is sensitive and romantic...even if a little possessive. And Alshu is just hilarious. He makes the funniest, most sarcastic comments. The ending was beautiful. I can't wait for the next volume.

And while it was a little confusing to try to read from right to left, I got used to it pretty quickly. This was a fun read!

Gave the series a try, but dropped it.

Maike Haruka says

Eine gute Idee allerdings ging mir das ganze am Anfang etwas zu langsam und am ende zu Schnell, hop hop aus.

Prinzipiell eine gute Idee,aber leider nicht so super umgesetzt.

Aleixie says

Ahhhhhh! It's so cheesy. And I though it would be scary. I am not feeling normal. *sigh*
