Daniel finds more than he ever expected while helping a photographer friend with a last minute calendar shoot. When he meets Jamie, every assumption he ever made about himself is busted!

Daniel's straight. His legion of ex-girlfriends would testify to the hunky personal trainer being fiercely hetero, so why does the idea of kissing Jamie feel so absolutely right?

This story was written as a part of the M/M Romance Group's "**Love's Landscapes**" event. Group members were asked to write a story prompt inspired by a photo of their choice. Authors of the group selected a photo and prompt that spoke to them and wrote a short story.

*Dear Author,*

C'mon, he said.

Please? It's not as if it's hard work.

You know I'd always do it for you if you needed my help.

Please? I really need an assistant.

*So now here I am. Trussed up... on display. All those things I said I'd never do. Well, at least what I always told myself I would never do. I just liked looking at this kind of thing. I didn't really want to participate... Did I? Well if that's the case, why am I more turned on than I've ever been in my life? And why do I feel as if I've finally come home? Especially with the way that super-sexy guy is looking at me.*

## **Photo Description:**

A young man, naked from the waist up, is bound by handcuffs and chains. His face is hidden in shadow, but he looks relaxed and passive. Another man stands behind him, one hand on his chest, the other dipping into the waistband of his jeans. The lighting is harsh, against a dark background.

This story may contain sexually explicit content and is **intended for adult readers**. It may contain content that is disagreeable or distressing to some readers. The M/M Romance Group strongly recommends that each reader review the General Information section before each story for story tags as well as for content warnings.

Dan, a mature student and gym instructor, is talked into helping his best friend Nick out at a photoshoot - as both dogsbody and model. There he meets Jamie, who is representing the firm who are sponsoring the shoot. Whilst Dan gets worked up during the modelling session, it's less to do with the two gay guys and the baby oil and more to do with Jamie. Afterwards he tries to go out with a girl, but it does nothing for him. When the pair meet up again sparks fly and Dan decides to take a chance on his first experience with a man. This is a really nice story of a young man experiementing with his sexuality - but I found the jump into bed just a little too fast for someone curious, no matter how horny.

Steamy GFY that's slow and easy.

Doing a stand in, Dan finds out something about himself he never knew.

“Is he hot for you or for me?” He stroked one finger over my zipper, and I shuddered, my cock straining against his touch

Sexy times guaranteed with hot bodies in a photo shoot, a gym and against a wall. Some misunderstandings and a bit of awkwardness provide the the non-angsty conflict for one guy learning a whole lot more than just his university classes.

Favorite quote:

Since we'd first become friends in the schoolyard at the tender age of seven, Nick and I had only ever Obi-Wan'd in times of dire need

Now, as few of my friends here know, I am always one to support little-to-no-sex-scenes or even off-page sex. Simply because after reading so many STORIES (I think the number 2500 has passed long time ago) in the course of 6+ years, I'm not always get excited about it.

BUT, I will have to agree that the lack of the 'de-virginization' of Dan in this cute GFY story makes me a bit disappointed. The thing is, I think Dan and Jamie have great chemistry. The photo-shoot scene itself is HOT and SEXY. I get to smile a lot during the stories. I think Dan discovering his gay-for-you feeling for Jamie is

adorable. So, in that sense, it flows really nicely, and an on-page sex scene will make it better.

I don't know if it's because Ms. Grey's first M/M attempt so she's not ready for on-page sex scenes yet. But yeah, it will be more than welcome by *moi*.

Oh, I also might need a little more time, though, for Dan to completely switch the team before jumping all the way. That part feels a bit rushed. Maybe because of the limitation of the words. I wouldn't mind a lengthier story for this.

If not for the **totally bullshit** fade to black on Dan and Jamie's first time together (not to mention the fact that it was Dan's maiden voyage on HMS Butt Sex!), this would have been a 4 star read for me. I really enjoyed the build-up as Dan slowly came to some very personal realizations, as well as the chemistry between Dan and Jamie. The coming out scene and the epilogue seemed rushed and - dare I suggest?! - unnecessary, but both were sweet in their own ways.

However... A severe lack of on-the-page butt sex makes me one Grumpy Cat.

As always, my thanks to the author for participating in the Love's Landscapes event and for all of the behind-the-scenes work that editors, beta readers, and the MM Group Mods put into making this FREE event a massive success!

Ok, normally the picture prompt would have been one I avoid, I am a wuss and don't read the D/s ish books out there, but I like to use these events to broaden my horizons *a little*.

Turns out, I shouldn't have even worried about it, totally Mandy-safe.

This cute GFY story had a great best friend, an interesting set-up, lots of sexual tension and a dog. I didn't mind the fade to black and off-page sex either. So another LL winner for me.

This short story was worth reading. It didn't have much fuss. Straight, sexy and really hot MC Dan helps his friend with a photo shoot and models in some shots. While shooting he sees Jamie and Bang the attraction is so intense they seek each other out and as they say..... rest is history. I really liked it and wouldn't have mind if it was a bit longer. Sofia Grey please write another book about Jamie and Dan. This one left me wanting for more.

There really isn't much to say about this one....I think this was my first Love's Landscape read. Most MM readers are probably familiar with the concept.

I liked the overall premise of this one. Daniel helps his photographer friend with a gay photo shoot and meets Jamie in the process.

Daniel and Jamie were attracted to each other, Jamie being gay and Daniel being straight..or so he thought. I am a sucker for GFY.

The sexual tension between Daniel and Jamie was definitely hot. But I would have to agree with all of the other reviews regarding the fade to black "cherry popping".

Still, this one was an easy, entertaining read. I would definitely consider reading more from this author.

Great story. I loved the characters and I loved the plot line. It's always a sign of a good read when you get to the end and are disappointed there's not any more. Always a sign of good characterisation when you are left needing to know more about them: what happens next? How did they get to the point in the epilogue? Throughout the story I never felt I was bombarded with information about the characters yet I know a great deal about them. Clever story telling.

I really liked this one.

This left me with the warm fuzzies. Although, I did feel the epilogue was completely unnecessary. **Tricksy little epilogueses**, always ruining shit. I'm just going to ignore its very short existence (just like I'm ignoring

that *fade to black* trickery), and this is definitely going into the rereads pile.

I thought it was short, sweet, and pretty damn hot (although, it *could* have been hotter).

This was well on it's way to being a 5 star read. It had everything I love in a story, hot chemistry, likable characters, it was well written. Well, it had ALMOST everything I love in a story, but after lots of sexual tension and one really hot blow job, the scene cut to the morning after, and skipped ALL the gay for you first time sex stuff.

First time bottoming, first time giving a blow job, frotting, all that was totally skipped with just a vague recollection the next morning. So yeah, I regrettably had to bump this totally 5 star read down to 4, just because of my disappointment.

But it was a really good story! Thanks to the author for sharing her time and words, and I will be reading more!

#### Anke says

Nice read, I had a few minor problems with the GFY in the middle of the story, but the very nice HEA made easily up for that.

I was cruising along enjoying this fluffy GFY. The sexual tension was all kinds of yummy as womanizer Daniel got hot and bothered for a man for the first time.

Dan is sure Jamie is straight too, and is embarrassed by the naughty thoughts he's having about cocks. That damn photo shoot, featuring Dan slicked and chained with two model twinkies rubbing up against him, sets the whole thing into motion, and now Dan can't get Jamie out of his head.

So, yeah, that was sexy and easy and fun, with a delicious blowjob thrown in. So far, so good.

Then we get this bullshit:

*Going to bed with him was the easiest decision I'd ever made.*

*Memories of the night before rolled through my head. We'd fucked several times. Sure, my ass was a little sore this morning.*

**THE FUCK? NO, SHE DI'INT.**

Oh, yeah, she did.

**Committed the Cardinal Sin of having a gay-sex virgin delve into butt sex for the first time OFF PAGE, FALL OFF THE CLIFF TO BLACK.**

Would have been 4 stars, but Cardinal Sins cannot be forgiven.

Plus, the ending was rushed and abrupt, with Jamie acting like a douche and Dan coming out to his BFF. Yeah, just like that after one date.

The relationship never got off the ground before we got a neat little wrapped-up-in-a-bow epilogue.

A cute and sexy story with minimal angst.

Although I'm not very familiar with the kiwi setting, I loved the chemistry between Jamie and Dan.

The sexual tension was really palpable that it made up for the lack of on-page roll in the hay. Originally 3 stars but I added another one because the author had the brilliance to focus on the MC's insecurities about starting a relationship which made it very relate-able. Great story overall!
