Kiss Me C.C. Wood

Six years ago Jake Coulter dumped Kaylie Masters. Though she refused to show it, Kaylie was devastated and never got over him. To make matters worse, Jake is friends with her older brother, Kevin.

Now, Kevin is engaged and Jake is his best man. There's no way Kaylie can avoid her ex. Strangely, Jake seems to be going out of his way to see her and ,after one kiss, they both discover the spark between them never died.

Lauren at Live Read and Breathe Reviews says

In the past I have said that C.C. Wood is a little bit of a genius when it comes to her novellas she has such a gift of giving us the story and making it feel complete without it feeling rushed because it was a shorter story.

In the second installment in the Kiss series she hit another home run. You first meet Kaylie in A Kiss for Christmas but you get to know what makes her tick and standoffish in this book. As soon as you meet Jake you automatically feel the pain and connection between the two.

It's so crazy what lack of communication can do to a relationship and thank goodness that their love was strong enough to survive the time apart and the forgiveness of miscommunicating.

As soon as Jake realizes he has a chance nothing is going to stop him from getting what he has always wanted which is Kaylie back at his side.

This was sweet tale of hope and love.

Desiree Gorman - A Love Affair With Books says

After spending the last few days reading and reviewing C.C. Wood's three previously released novellas, I was so excited to get my ARC copy of Kiss Me! I knew of course there would be steam, there would definitely be sex, and hopefully a great love story to tie it all together. Kiss Me did not dissappoint!

Figlet says

Completely and totally fell in love with this novella. Kaylie's feisty nature and Jake's implacable one made their chemistry jump off the page (or screen in my case). I'm always a sucker for the thwarted-lovers-from-

the-past story, and this delivered because it wasn't so much a third party coming between them as it was missed signals, misconceptions, and youth.

Anyway, loved it, highly recommend it, and buying ALL the rest of Ms Wood's titles.

Christine says

I really enjoy the books by c.c. wood. they are short stories but they still manage to give you a connection to the characters and a really decent storyline. They are fun reads and sometimes it nice to just read a quick story for a change in pace

Tiffany Best says

Short sweet and precious story.

Ricki says

loved Kaylie in CC's book A Kiss for Christmas, and was so excited when she decided this spunky girl needed her own story and hot guy!

Six years ago Jake broke Kaylie's heart, but she refused to let him know how much he'd truly hurt her. Now that her brother (and his best friend) is marrying her best friend and the two of them are the Maid of Honor and Best Man, there is no way she can avoid being around him. Can she keep from getting her heart shattered again and can his shins survive her famous kicks to them???

Darci Laffin says

This was a great read! It was sweet and short, and a perfect book to follow up all of the heavy books I've been reading lately. I can't wait to read other books by CC Wood. She's a great writer, and even for the shortness of this book, you still get to know the characters, and can easily get into the story.

Angie says

There should be a "There's No Crying in CC Wood's Books" disclaimer. As with her other novellas I've read, Kiss Me is a perfect distraction from the heavy, emotional, heart-wrenching books that populate romance bookshelves. Kiss Me could have easily been a longer book, made into a drawn-out Will they? Won't they? story, but as it is as a short novella, it's a great quickie read.

Maggie Lane says

What a wonderful short read. Love books where old flames are rekindled. Kaylie never got over her broken heart. Jake is a major problem for her. I enjoyed reading as Jake did he best to drive her insane and win back her trust. This is a wonderful short read you will not be disappointed!

Noura says

Simple and straightforward story of two people who broke up years before when they were younger and are still holding on to their feelings even after all those years.

Kaylie is still in love with Jake but she thought he doesn't want her because he was the one who dumped her years before. Jake is also still in love with Kaylie but thought she has moved on since then. So when they got together for her brother, Jake's friend, and her bestie's engagement party, they realized that they have a lot of unfinished business with each other.

I guess the story is a good reminder of why open and honest communication is good and why we shouldn't make decisions based on assumptions, even if the intention is good. At the same time it is a story of 2 people who found love in each other again after time has given them room to bloom and mature (they were very young when they were first together). It's a story of love that's meant to be.

What i felt disappointing is that Kaylie did not even give Jake a hard time at all after he has decided that he'd pursue her again. It's as though she just rolled over and surrendered herself to him the moment she knew he's still in love with her. Come on....he was the one who made the bad assumption and made a very serious decision based on it. It would have been better to make him sweat for it first. Or maybe i've been reading too many badass heroine romances that i find this one wimpy.

And the title.. "Kiss Me"... It is too generic and almost irrelevant for such a simple sweet story. Yet another good story that's undermined by a careless title.

All in all, a super quick read that's like a yummy snack in between two heavy novels.

Scandal (Scandalicious Book Reviews) says

This is a short and sweet, sexy, sassy novella...and the headboard scene...what is it with a man telling the woman to hold on and not let go? Geez!

?Jamie? says

Geez, I'm hooked (in a baaaad way) on C.C. Wood and her writing. Good Lord, if she had more to read, my whole life would be ignored. Lol. Kiss Me was just as amazing as all her other works!

Summary:

Six years ago, Jake broke Kaylie's heart. She never let on to how much he crushed her, believing it was better for everyone if she just moved on as best she could. With the engagement of her best friend, Blair, to her older brother, Kevin, Jake has crashed back into her life and is determined to stay. See, during their relationship six years ago, Jake and Kevin became best friends, so, with wedding planning under way, he's going to be around a lot. Kay resigns herself to putting on a happy face for everyone concerned, but that isn't good enough for Jake. He wants to conduct a postmortem on the relationship they had, and move forward with a new and improved one. Kaylie is doubtful she can forget the past and says as much to Jake, but he's relentless and wears her down. They agree to take it slow, and give it three months and see where they stand with each other after that. Kaylie has to learn to trust Jake again after the heartbreak he created before, and Jake has to earn her trust and love again. Can they push through the pain of their past, and find the beautiful life that awaits them together or will old hurts be too much on the fragile relationship they have started?

I love the emotions the author evokes in her stories. I get so caught up, I don't realize that the story is so short. Truly a wonderful job in respect to the storyline. It wasn't rushed or lacking. Definitely recommend to others. <3

Aarann says

This was a sweet second-chance read about Kaylie and Jake. They got together when they were 18 and what was supposed to be a "hook up" for a few weeks, turned into four years, after which, out of the blue, Jake dumped Kaylie and apparently gave her no explanation for ending a four year relationship.

If you read my reviews regularly, you might have figured out that I am a total sucker for a second chance romance. This was cute, but in the end it was too short to get any real traction. I think it could have done with a few more chapters because as it was, Jake was a dick, dumping Kaylie after four years and not explaining why because he *assumed* she wasn't ready to settle down. You don't do that after six months, let alone four years. I would have been okay seeing Kaylie be a bitch for a while longer before giving in because that was a dick move on Jake's part.

Otherwise, the story wasn't bad, there just wasn't enough to it to really sick my brain-teeth into. I wouldn't buy it, but I might check out some of the author's other stuff.

Tiffany says

All though this book was a short read, I thought it was sweet. You never do get over your first love. Kaylie had her heart broke by Jake 6 years ago but it seems as though Jake never got over Kaylie. I love it when two people belong together finally find their way back.

Kiss Me by CC Wood has all of the things I look for in a novel. An alpha guy, a feisty, fun heroine I love, some good sexy times, some giggling moments and lots of "aaawwwws". But it didn't have one thing I wanted....MORE!!!

Though Kiss Me can be a stand-alone novella, I highly recommend you read A Kiss For Christmas first (this story is good any time of year-see my review here.) In A Kiss for Christmas, we meet Kevin and Blair. Blair's BFF is Kevin's younger sister, Kaylie. During that book, I must say, Kaylie was a stand-out character, and a few of us begged CC for her story, and it totally lived up to expectations!

Jake Coulter dumped Kaylie six years earlier. But she never quite got over him. She kind of hates him for dumping her, but those old feelings are still there, simmering under the surface. But now, Kaylie is Maid of Honor and Jake is Best Man at her brother's wedding, so she will be seeing Jake quite a lot.

Jake starts flirting with Kaylie...she doesn't get it and it's pissing her off. How dare he play with her heart? HE dumped HER, and now he is getting all flirty. She tries to pull it off like he doesn't affect her, but his familiarity with all of her weaknesses, his gentlemanly behavior that so many guys lack, and his persistence start to wear her down. Kaylie is feisty. She'll kick you in the shin and throw a little tantrum, and that's one of the things Jake always loved about her.

"If you leave this room, I will chase you down and carry you back up here over my shoulder if I have to."

When he starts wearing her down (This is a short novella, I don't want to give away too much here), let's just say, Jake's dominant, ex-military, now police officer background comes out to play.

He responded by grabbing her wrists and pulling his body so that she now straddled his hips. Kaylie gasped as he put her hands on the headboard above him, forcing her to grip the top.

'Don't let go,' he stated.

Kaylie shivered. Usually if a man bossed her around, bedroom or not, she would kick him in the nuts. However, it appeared that a bossy Jake really did turn her on..."

Telling a full story in about 60 pages is not easy to do. How much can you really do in 60 pages? But CC did a great job of getting the reader right into the story and not letting go till the happy ending. It was a short, sweet, happy fun book that is perfect to read when you want a little treat. Like its cover, it's like a sweet candy, that is gone way too fast.

I am not going to list likes and dislikes for such a short title. I will say this, my only dislike is I wanted more!!! MORE!!! Yes I'm greedy like that. Part of me wants to take off half a star because of how short it is, but then I want to add it back because she gave a damn full story in such a small amount of pages. It's just hard to compare this to her other novellas that run around 100 pages to this one. But I'm going to judge it for the shorter story it is and give it 5 stars because it made me happy.

Rating: 5 stars (for a short novella) 4.5 Heat

Go ahead. For less than a buck you'll have an hour or two of happy, sexy entertainment, and it feels like you got a whole juicy story. I giggled, got horny, and even teared up. What the hell else can you expect from a novella? Nothing! This had it all.
