Ernie says

Fascinating criticism of *Paradise Lost*.

Richard Epstein says

One of the best books ever on Milton. Perhaps *the* best book on Christianity.

Jennifer says

This is hands down the best work of literary criticism I have come across, it's insightful and interesting the whole way through!

Mark says

Empson was an excellent hater.

Jamey says

Exquisitely states just what is so depraved about the God of *Paradise Lost*, who closely resembles the Incredible Hulk of Monotheism over whom there is currently quite a bit of fuss in the world.

Johnny says

suppose i should read milton first..

Jonathan says

god hates his babies

Jen Well-Steered says

If you're one of the three people who fits in the vector of 'read *Paradise Lost*' and 'enjoys theological

discussion from an atheist / secular perspective,' this is the book for you. The other 10 billion of you can probably safely give it a miss.

And yes, as one of the few people who HAS read Paradise Lost but isn't a member of a Literature department, you can safely skip it. Pilgrim's Progress? No, you have to read that because it's really good. Faust? Also fantastic. Paradise is just a slog by comparison.
