## **Mystic** Robert R. Perkinson

Trevor Howard, the sheriff of Teton County Wyoming, is contemplating an explosion of cocaine addiction, four structure fires and the murder of a six-year-old boy in his jurisdiction. The boy had a wooden cross penetrating his heart indicating a possible religious connection. Trevor has the idea of hiring a young woman deputy with experience in undercover narcotics investigation. Simultaneously, Doctor Abe Anderson, Trevor's best friend, meets Heather Cutler, acting in a play as the red headed demon of seduction. Abe falls in love with her and even more with his first experience with cocaine. Trevor is usually a confident police officer but these crimes, coming all at once, leave him feeling deeply troubled. Before it's done his whole life, friendships and family will show him how terribly he has underestimated his greatest fears.

## **From Reader Review Mystic for online ebook**

### **David says**

**Beware: Good! Damned good Bleakly Hopeful! Outrageously dark. majestic setting twisted Faith of irredeemable madmen get rough justice**

But it is a bitter winter of despair we see stretching into the unknowable future but we must go on...

---

### **Stephanie Foster says**

#### **Needs editing**

This book screams 80s. Seemed like author wants women at home in skirts. And if it was edited, as a dedication noted, they hopefully didn't quit their day job. It was awful. Bare for bear, rap for wrap and it is ferry NOT fairy. Will not read another

### **Greta says**

#### **Too Mystic for me**

This story kept going on and on in circles, stalled. I started skipping sections just to get to the end. It's like there was no main character. Trevor was likable but he settled in for the ride, never really acting like the sheriff he was. Proofreading was also absent, simple words misspelled and punctuation marks used incorrectly. Very frustrating when the book was off the tracks already. Wish I had passed on this one.

### **Julie Smith says**

Trevor Howard, the sheriff of Teton County Wyoming, is contemplating an explosion of cocaine addiction, four structure fires and the murder of a six-year-old boy in his jurisdiction. The boy had a wooden cross penetrating his heart indicating a possible religious connection. Trevor has the idea of hiring a young woman deputy with experience in undercover narcotics investigation. Simultaneously, Doctor Abe Anderson, Trevor's best friend, meets Heather Cutler, acting in a play as the red headed demon of seduction. Abe falls in love with her and even more with his first experience with cocaine. Trevor is usually a confident police officer but these crimes, coming all at once, leave him feeling deeply troubled. Before it's done his whole life, friendships and family will show him how terribly he has underestimated his greatest fears.

Robert R Perkinson is a new author to me. I read the blurb, and thought this will be a good book. Unfortunately I was wrong. I really struggled with this book. It took me over a week to read it. I didn't like the characters, and wasn't gripped by the writing. I don't like to write bad reviews, but unfortunately this book wasn't for me. 2.5\*

### **Black Butterfly says**

1 1/2 \*stars REALLY

THIS JUMPED AROUND FROM ONE PERSONS POV TO ANOTHER, I HAD A HARD TIME TRYING TO GET A READING RHYTHM, TOO MANY DIFFERENT STORIES GOING ON. THE WRITING STYLE WAS VERY CONFUSING TO ME, LIKE A ROOM FULL OF PEOPLE ALL THINKING AND TALKING AT THE SAME TIME. IT HAD TOO MUCH DETAILED INFORMATION ON JUST ABOUT EVERYTHING, FOUND IT HARD TO CONNECT WITH ANY OF THE CHARACTERS.:[

---

### **Marsha Patterson says**

**Someone needs to edit this book. There were many misspelled words and words that were used incorrectly. The book was ok but I wouldn't recommend it. The reviews were misleading.**

The reviews I read were misleading. I would not recommend this book. The misspelling of many words and the improper use of words was distracting. The book drug along.

---

### **Maggies Daisy says**

Spectacular drama in the high country mountains of the Teton's as a avalanche of inter-twined individuals seek out the evil amongst themselves. Who amongst them has become so delusional that they wish to hurry along Armageddon in this small town? How many more will die before Sheriff Trevor can solve crimes?

---

### **Joanna says**

First of all, the editor of this book needs a new job. There were so many spelling mistakes and use of wrong words it interrupted the flow.

Second, the subject is quite violent and graphic in places that people may find really distressing. There were so many different characters with little space between them that it felt like they were all talking at once and made it very hard to understand what was happening. I didn't really like how the female characters were written - the author seems to imply that all women should be kept in the kitchen, there were no real strong female leads apart from Holly; but I struggled to believe her storyline. The view I get from this book is that the author believes that women are only after money from men and aren't interested in real relationships. It's a very chauvinistic view in my opinion.

And Abe made a miraculous recovery at the end from his cocaine addiction...hmmmm not sure I can believe that its as easy as how the author has written it.

I'm afraid this is not a book I will be recommending to people.

---

**Bonnye Reed says**

Cannot get into this novel. A frantic swirl of sex, violence and self indulgence.

**Jessie McKissick says****Deeply detailed psychosis**

Set in such a beautiful and sometimes spiritual environment, the killers justified everything they did in a sick, perverse rendition of Revelation's scriptures. Psychosis due to drugs or chemical unbalance is so scary. It could be anyone. A well written thought out plot.

---

**Araldia says****Great premise, spoiled by bad proof reading.**

Although the story is a little too religious for me, the webs of interconnected characters are well plotted. The author has clearly put a lot of time into research and planning, but the litany of problems with words and spelling break the flow too often.

---

**vic basaldua says**

I got a little confused with all the characters i still enjoyed it!

---

**Pat Welte says**

I had a hard time getting interested in this book. It had several main characters and they weren't always easy to keep track of. I cared about most of the characters but not all. The storyline was interesting but didn't come together until the very end. There were elements that were a mystery and some horror elements.

---

**Jeanine says**

I received this book to read and give an honest review.. While the story was quite good, it was full of

misspellings and could really use a good editor
