Necromancing Nim

Katriena Knights

Necromancing Nim Katriena Knights

Wishing for a little excitement in your life? Be careful what you wish for...

Nimuë Taylor thought working for a vampire would be cool. Instead it's just like any other annoying job, complete with a boss, Colin, who drives her crazy. Other than the daily humdrum routine, nothing much exciting happens.

Until the day Sebastian, Colin's old friend (read: ex-lover) comes to town, bearing a magical stone that can make any vampire immortal. Really immortal. He doesn't want to use it, just keep it out of the wrong hands. Trouble is, the wrong hands are getting far too close—and the stone is slowly draining Sebastian's life force.

When Nim unwittingly comes between the stone and its hunter, she's bitten. Not by just any vampire, but by one whose bite turns victims into mindless zombies. Healing her involves a ritual that creates a blood bond that's as passionate as it is dangerous.

For in the fight to keep and destroy the stone of ultimate power, one of them will have to break that bond...and make the ultimate sacrifice.

Warning: This book contains high levels of sarcasm, swaths of swearing, sex with two hot vampires at once, and a dog that likes to eat coffee grounds.

Necromancing Nim Details

Christyn says

This was a really great read, one of my favorites this year. It had humor, romance, mystery, action (a few rather graphic scenes), sex (MF and MMF), and enough twists and turns to keep things going. Not all stories do so great when told in First Person, but in this one - it worked. Nim is an awesome, quirky and relatable heroine, I adored her. Colin and Sebastian were also awesome, they all had strong characters with their own sets of strengths and weaknesses, it was great watching how they interacted together and one-on-one. The story itself revolving around the stone was also quite fascinating, there are however questions that are left unanswered (hopefully due to a sequel). Strong story, great characters and the emotion that came through this story thoroughly ensnared me all the way through. At the end I was left hanging, mind whirring with questions and possibilities leaving me anticipating (and sincerely wishing for and anticipating) a follow up to this.

E_bookpushers says

Interesting. I really don't know. I liked it I think but not all of it. It wasn't bad I just don't know.

E. says

4.5-4.75

What a fun story! Review to follow

Kirsty says

I won this book through Goodreads First Reads. Review to follow.

Diane Dannenfeldt says

OMG if there isn't a sequel I'm going to be royally pissed! I have to know what happens and you can't leave them like that!!!! Very good read really enjoyed this one. Could have had a little more steam ;)

Aerulan says

Excellent! Loved this one. Now if only the second (I assume there *will* be a second) book were out, I really want to know what happens next!

Gwen says

This book was sort surfing under the radar of my excessive "to read" shelf and I was feeling lucky when I chose it and you know for once I did strike it lucky because this was a great read.

I know the cover is a bit rubbish but I highly recommend you give this one a go especially if you are looking for something a bit different in the vampire genre.

I don't like giving too much away of the storyline but who doesn't like the idea of human having to make a living as a repo agent among vampires. I just love the fact that for once our leading lady was just an average josephine with no great super powers (except an overwhelming need to be sarcastic), and not the only one who can save the world, but rather just someone who has been swept up by events caused by the people around her.

There was great use of humour in the book but be warned this is a menage, but for once I like the fact that this was a bit more discreetly done without the out and out porn that usually hogs the whole book, a real attempt at a story was made here.

I know it's not perfect but I really enjoyed it, which is rare for me, and have just bought the next one. So what are you waiting for give it a go :)

Lizzie Newell says

Vampires in suburban Denver what a kick. They go into debt buying HDTVs and drop in on fang bars which are squeezed between the Starbucks and the marijuana dispensaries. Despite the fun this book left me flat. It reads almost as a sanitized version of Interview with a Vampire. Colin=Lestat, Sebastian=Louis, and Nim=Claudia. Angst, guilt, and repulsion have been removed. Instead the plot is driven by a rock and a bad guy. Oh yes, the old McGuffin plot which was already worn out in the 1950s. I wish the suburban Denver aspect of the story had actually played a part in a plot. This story was weaknesses in believability of the characters. Sebastian and Colin supposedly are hundreds of years old bu they use the language of modern teenagers complete with overuse of the F word. I wished they'd drop in a "god damn" Or "bloody" every once in awhile.

The story is quite violent and shows little compassion for those who are suffering and dying. The heroine shoots corrosive liquid in the eyes of vampires and seems to think this is funny. Sure it's holy water but the effect is worse than sulfuric acid.

I do think many readers will enjoy the story as a light and humorous, but I wanted more from it.

Karina says

These days it's almost expected that sequels come out and most books are written with this in mind, this isn't

the case here. Whilst the author has opened up the storyline for a sequel, this hasn't taken away from a satisfying and complete story.

Snarky, caring characters always push my buttons and adding in sexy vampires makes it all the more perfect.

Li says

A fast-paced UF - found the world slightly reminiscent of Charlaine Harris's Sookie Stackhouse series in how vampires were integrated into society. Definitely more sexy though. The ending sets everything up nicely for a sequel, which I'm totally up for.
