Can we please talk about how absolutely mouth-watering Trace is. Perfect name to go with this uber hot polar shifter.

And he drives a motorcycle and is buff to the gods. :sighs: Amazing!

I loved the fact that Candace was curvy and smart. My absolute favorite part was when Candace was at home pajamas on and glasses perched on her nose. And then Trace shows up.

And the hottest most nuclear scene was in the private room with the pole.

So HOT! NUCLEAR!

Vedrana says

For a shifter I am your mate and I will kill if somebody touches you kind of book it's great. There are no plots or some surprises...sadly not so much sex but at least they dirty talk.

This is smut and easily forgotten.

Ok. he is a polar bear shifter...cool ha...

T00zday says

Jenika Snow books always do this. They start off SO good & steamy. The hero always talking so dirty you figure the sex scenes will melt your Kindle.

.....Theeeeeen not so much.

Sorry but my 'mate' asking me to strip for him in his personal stripper den using a pole all the strippers did before me - on our second date? Not endearing.

HEA, Erotica.

Recommended? (Shrug)

Krystle says

This was one dirty, smutty read with enough plot to make it intriguing. Loved it.

The BookChick says

I loved Trace and Candace. They were polar *hahaha* opposites but they connected very well in an elemental level. I really appreciated how Trace, the big strong male was the besotted one...well, as besotted as an alpha could be. But, he never hid his need or desire for Candace. He pursued her and helped her overcome her resistance for him in a most delicious manner. That scene in the kitchen was HAWT. I wonder who is next: Liam, Maverick, or Melissa. I'm gonna love to see the man that will tame her. It should be a fun read.

Puna says

Trace was a huge arrogant, bossy, crude alpha-hole and the sweet ending didn't make up for him. 3/4 of the way through I was just trying to finish the book and had lost all desire to read the next two in the series. The ending did make me rethink deleting the rest of the series without reading them though. But I think I'll wait until I've forgotten how much I disliked Trace to start the next one.

A fantastic sexy little shifter book, with a bossy ,dominant as hell polar bear finding his sexy little wolf mate. I have been looking for a book like this for a while. Very enjoyable.

Cheryl (Gwyneiira's Book Blog) says

Trace is a very. very. very. dominant and demanding male...short of dragging Candace off and hiding her from the world like a caveman. He is crude and a dirty talker. More animal than human. I love it when he growls and get all possessive. To top it off, he rides a bike and is helluva hunk. It was cute when he tried to give Candace space to think things through. Apparently, it was 3 days too much.

Candace is quite likable though. She is a feisty wolf, curvy and smart at that. She tries her best to resist Trace despite being so so so attracted and in lust with him ;)

An incredibly Intense, explicit and dirty read ;)

HOT!

Trace Dakota is a polar bear shifter he owns and runs a bar in Sweetwater. Trace had been married to a human but after her betrayal he just beds random woman, nothing but a long list of one night stands, he doesn't want or need a mate. He's a large male, muscular and aggressive.

Candace Jace is a wolf shifter but as opposite in ways to Trace as you can get. When her friend Melissa persuades her to go on a night out together they end up at Trace's bar. The minute he's see Candace all bets are off she's his mate and there's no way he's letting her get away.

I loved Trace he's big sexy and all dirty talk. Candace should be offended but she's turned on despite the fact she knows that Trace might be too much for her. But there's no escape Trace always gets what he wants

Emily says

He's big, he's bad, and he's dirty, which is exactly opposite of what wolf shifter Candace Jace wants in a mate. Candace is borderline OCD and the victim of a cheating ex, she now has her life in a some sort of order and everything about bear shifter Trace Dakota off sets her carefully controlled world.

Owner of a bar, Trace had not expected to meet his mate at this point. A bad marriage and left Trace with strict rules when it came to women, one night stands and that is it. He knows his mate is Candace and even though it is difficult for his bear, he is taking his time to woo her as much as a Harley riding bad boy can.

Very fun read, I liked that they are polar opposites and Trace is pure alpha. You can easily understand Candace's reluctance as Trace is very vocal about his wants and needs. Look forward to more in this series.

Alpha Possessive Heroes says

Omo.. I was looking for some quick read with possessive hero and fuck me. I got it!

“You know who I am and what I’m doing. I’m your mate, and the only fucking male that will ever touch you again”.

Trace is a forty-five years old grumpy polar bear who owns a successful bar and grille. He's sexy, huge,

lewd, cocky and is known for his hard fucking. Trace is a man-whore who likes to fuck and living the life the way he wanted.

Trace is a **VERY** dominant male. When he talk, thinks and moves had me on a verge of bookgasm! The way he growls and how he was all over Candace makes me want to hump his leg and eat him up! He's stubborn, demanding, rough and just a total hottie bear! Every time he talks dirty on our heroine- I just want to crawl inside the book and tell him to take me instead! lol! Trace is dominant but it was cute that he was patient and gave her a little time to get use to him.

“Baby, you ain’t a random female. You’re my female.”

Candace *a red head with big tits and big ass. She live a comfortable, perfect but boring straight life.*

I thought Candace was going to be this typical annoying weak heroine but I was damn wrong. Yes she was reluctant and a little weak but she also has some inner strength that made these two perfect for each other. She was burned once so I could understand why she didn't want to get involved with Trace aka bear-whore!

The moment Trace saw Candace? Well.. it was pretty intense. The sexual tension was all over the book that at one point it made me feel uncomfortable. LOL! Seriously, it was bloody hot.

Overall this one is ***dirty , explicit and arousing !***

Make damn sure you read this ALONE because you're gonna end up creaming yourself!

I'm hoping Liam will get his own book! <3

4 dirty talker stars

I love dirty talkers. If you do too then definitely add this! The rest of the plot doesn't matter. Just the dirty talk alone is worth the read.

I had been waiting for this book for such a long time!! Yummy smexy dirty talkin bear!!!! This book has hands down the hottest mate meeting I have read in a long time!! I mean, damn girl, you will get naughty shivers!!

Trace is scrumptious, he is possessive, lewd and wickedly delightful! Once he scent his mate he is all in, even though he had a trust issues due to his past. Yup, I am totally in lust!

Candace is a great girl, she isn't meek or a pushover. She could have used a touch more sass, but is easily loveable.

The steam factor is off the charts!!! I lived Trace's naughty mouth, heck I would have loved even more!! I am a sucker for a dirty talker!! There is some serious smexy action in the kitchen and a little stripper pole fun. Oh la, this is a book to read while in the cold shower!!

The story here is mostly all about the couple, not much of an outside plotline. Not a complaint just an observation. Sometimes ya don't need extras, the romance is enough to carry you through.

The mixed narrative really helps you understand where each character is coming from. It is really easy to see the change in POV and never gets confusing.

The other great thing about this series is getting to catch up with old friends from the Wylde Bears series. This time we catch up with Ary and Charlie, they are so cute!!

I am loving this series and can not wait for more. Maverick, Liam and Melissa are all still single!!
