The Filly

Kate Sherwood

The Filly Kate Sherwood

A girl's first-ever date is nerve-wracking enough. Tat really doesn't need the added pressure of THREE overprotective father-figures, and she REALLY doesn't know why the date has to be on Valentine's Day. She hopes she can count on Dan, and maybe Jeff, but Evan... Evan's going to be a problem.

Just a little bit of fluff. Set after all the other stories, but before Of Dark and Bright, the next novel in the series, due out soon from Dreamspinner Press.

Cassie Richards says

A bit too short really.

Eva says

Sweet **Valentine day** special for my favourite **Dark Horse** boys.

And a very **important day** for Tat.

Sweet read.

Christy says

'The Filly' is a very short read that focuses, primarily, on Tatiana's first date on Valentine's Day, and her "brother's" reactions. Tat is an integral part of this series because it's through her that it becomes more understandable why Evan can be such an overprotective man with all the people he loves. Evan was twenty-two when their parents were killed, and Tat was nine. Losing his parents so suddenly made him more determined than ever to always protect Tat and make sure no harm befalls her. Well, that's easier said than done when dealing with a child. Luckily for Tat, she has Jeff and Dan to run interference while Evan is completely freaking out.

My heart really went out to this freaking adorable young man, Brian, who works part-time at the barn as a groom. When Evan, Jeff, and Dan start grilling him on "what if" scenarios, I couldn't stop giggling. It brought back some memories of my own younger days with four older siblings. Luckily, Brian holds up under the pressure, and all is well, leaving the rest of the night for the men to celebrate their own Valentine's while waiting for Tat to make her curfew.

Very sweet and cute short story.

Bev says

Another little snippet from Dark Horse. How is Tat going to cope on a date with three very protective 'dads' on the scene?? With a lot of patience and great difficulty is the answer. 4 stars

Marion says

3.75 Stars!! Awe! Tat's first date! And Evan is being Evan, so, hilarious!

Anke says

Yes, it was short, cute but short. I enjoyed watching all three men becoming big brothers:) to their little sister. Poor girl - won't be fun in the future.

Gina says

While i enjoyed this very short addition to this series, it was way to short and didn't satisfy my cravings for these guys! It was cute though, Tat's first date and of course Evan is being the overprotective big-brother and Jeff and Dan are trying to support him. It was cute and sweet, but way too short! (I know I said that already). Need more! LOL...

An awesome series!

Anna says

4.5 stars for the length! I would have liked to see more of this from Tat's perspective since this is supposed to be her story!

Christina says

2.5 Stars

Cute story but not much content. It was nice to see Jeff and Dan supporting Evan while still keeping him at bay.

There was a mention of Chris and Robyn being together which was a bit confusing since they were all ready broken up at this point.

Other than that not much happened.

Isabel says

Valentine's Day! Sweet and hot! But I felt sorry for Brian, though... won't be easy to be Tat's date, when she is surrounded by three over protective men!

Marlobo says

3,5 stars

Katharina says

3.5

Nice and short! To be honest, Tat isn't my favourite character in these books (although I don't know why, she really is perfectly likeable) and this is pretty much focused on her (if still written in Dan's perspective), so it wasn't my favourite story. But it's light, easy, and it's fun seeing the three of them so protective and all parent-like.

Arch Bala says

This was just a shortie with Tatiana going for a dance and Evan's overprotective mode was going on high alert. Dan's still obnoxious and Jeff's still old. Reading this series is fast becoming one of my quick guilty pleasures. LOL They're so indulgent that I'm almost enjoying them – but nah – the series still sucks or I'm being a biased dick.

Jewel says

Very short. No steam. And had one thing that contradicted the last short, Into the Light. As of that book, Chris and Robyn had broken up and Chris was exploring his bi-curiosity. But in this one, they are out on a date for Valentines Day? Did they get back together when we weren't looking? Nothing against Robyn, but I hope not!

Mandy*reads obsessively* says

This is definitely the 'lightest' and easiest of the series.

Tat has a date and Evan is, as usual being over protective and overbearing. It's cute and a nice little fluffy snack in an otherwise pretty heavy and emotional series.
