True Mates Zena Wynn

Book 1: TRUE MATES

Kiesha Morgan is a plus-sized, bi-racial business woman who lives life on her own terms. Her life is all about control...*her* control. She owns her own business, her own condo, and conducts her relationships the same way she runs her business--by *her* rules. Any man that doesn't like it is welcome to leave.

Alex Wolfe is the town of Refuge's only veterinarian. He's also a shape-shifter, and the Alpha of the Raven Pack. He's been waiting for the woman who can complete him, his one True Mate. Even though the odds of finding her are slim, he refuses to settle for second best. Once he finds her, he'll never let her go.

Their worlds collide when Kiesha is snatched out of her nice, safe world and mysteriously teleported to a clearing in the woods outside of Refuge. She's out of her element and things are out of her control.

Life just got a little bit more interesting...

Book 3: NIKOLAI'S WOLF

A blue moon's coming, and for shape-shifter Shannon McFelan, it's bringing nothing but trouble. Something she's got enough of already. Her body has mysteriously turned on her, going into Heat at the worst possible time. It will take all the cunning in her possession to survive this lunar cycle without finding herself mated.

Vampire Nikolai Taranosky has waited centuries for his Chosen. He doesn't care that Shannon's a werewolf, and he knows exactly what's wrong with her. It's because of him that she's in Heat. By the waning of the blue moon she'll definitely be mated...to him!

Publisher's Note: This book contains explicit sexual content, graphic language, and situations that some readers may find objectionable. Dubious consent, sex while in shifted form, violence.

Tia says

The first book in the 'True Mates' series was good. There wasn't anything too special about it unless you count the author and how she always mixes up the races. Usually black and white being together in a book. I'm not usually into books with mixed races, I tend to stick to the 'white' books. Don't worry, I'm not racist, I hate everyone equally. However we all have our own preferences. The storyline in this one was a bit unreal. Like hello, the heroine just 'happened' to wake up in the woods, tied to a tree and in the mountains. When she only fell asleep a little while ago, back in Florida. Well Florida doesn't have any mountains and vampires teleporting and crap. It's just a little TOO far fetch but still enjoyable!

Lili says

meh!

not the best writing, I couldn't relate to the characters since they didn't make sense most of the time, like Kiesha being ok with a stranger pretty much raping her while she was unconscious... and after that, all the senseless sex just made it worse.

N.L. Riviezzo says

I read this book after reading books 2-4 of the series. I really liked it and it kept nicely in theme with the other books but I wish it was slightly longer. I felt it ended too abruptly.

Sloane says

I've previously read 3 other books from this series before reading this one. With those there were always external conflicts to work through and help the book progress. This one didn't have it, and that didn't work for me. It caused a slower pace and a lot of skimming towards the end. It was really boring waiting for Keisha to "fully accept" Alex as her mate.

Liz says

So I'm almost done with this book. Here is my opinion:

If you're looking for porn aka erotica, then this is for you. Don't get me wrong, I love reading sex scenes in books. I mean jesus, it's why I read romance books. Add that with paranormal and you've got me sold. Yet, despite reading a bunch of reviews on this, I had high hopes it would have maybe a little bit of a plot or storyline going on. It doesn't. You pretty much start off with her tied up in the woods and it just goes immediately into several sex scenes. They are pretty well written, and are very descriptive which I liked if

we're being honest. However, in all honesty there is no plot to this story. Just a little erotica. Very quick read.

I will definitely keep it on my shelf, every now and then it's beneficial to just read some sex, but it won't make it even close to my favorites list. Or must reads list. Or any list other than "I need to read some sex".

SheLove2Read says

This is the first, but also the weakest, in the True Mates series. It basically sets up the characters and world builds. I recommend you keep reading because it does get better.

April says

It has been a little while since I read this book but here is what I recall...

I love the series!! Yummy romance involving shifters. Plenty of steamy action and a touch of humor!

Definitely a series to get into! I started it and didn't stop until I reached the last book that was released! I am always looking for the next book!

If you like steamy shifter romances this is a series to look into!!!!

Alarna Martin says

I did not like this book. The characters reacted strangely and I think the h took things or situations way over the top. It started out not so bad but the more I read the more I disliked the book. Some things seemed to happen out of nowhere and I had to go back to make sure I hadn't missed something. :(

Ashley Gibson says

This book includes True Mates and Nikolai's Wolf. I absolutely loved both stories!

True Mates (5 stars)

This is the story of Kiesha Morgan and Alex Wolfe. Kiesha is kidnapped and hung on a tree naked by a friend who believed in werewolves. She wakes up and is suddenly surrounded by a pack of wolves. One of them shifts into a man (Alex - the alpha) and claims she is his true mate. He has been awaiting the arrival of his true mate for twenty years and now that he has found her, he is determined to keep her.

I love the story of Alex and Kiesha!

Nikolai's Wolf (5 stars)

This is the story of Shannon McFelan (an alpha werewolf) and Nikolai Taranosky (a vampire). Nikolai finds Shannon wounded on the property of the raven pack and takes her to the alpha (alex who was the male lead

in "True Mates"). Alex is a doctor and veterinarian and fixes Shannon's wounds. A romance between a werewolf and vampire is forbidden but neither Shannon or Nikolai can deny the attraction blazing between them. Shannon loves Nikolai but fears being with him because of the animosity between vampires and werewolves and also because her wolf does not like Nikolai. She finally comes up with a possible solution to the problem with advice from her brother (the alpha of the sparrowhawks). She needs to fight with Nikolai for him to become the mate of not only her human half but her wolf half. Will he win the heart of his beloved wolf? Read to find out.

I love the story between Shannon and Nikolai! They are a wonderful pair who have a lot of obstacles between them!

Theodora Taylor says

Description: A bi-racial woman who works too hard and plays too little is unexpectedly transported to a meadow, where she is literally left hanging for her true mate werewolf. He finds her — oh, does he find her. But will her need for control kill their newfound relationship?

The Good: Well, the sex comes fast and hot. But at the same time I completely believed that these two passionate people would hook up from the jump off. Ms. Wynn does a great job setting up the story in that regard. And it's a great situation, in that they have sex first things first, then spend the rest of the story getting to know each other. The heroine is big-boned, and I really liked the gentle-but-alpha hero.

The Bad: The story falls into the same trap that many "fated" love stories fall into. It's hard to believe that their relationship is ever really under threat, and so the story as a whole lacks conflict. It's kind of like watching a newly domestic couple, who you know will definitely be getting married, setting up house and having lots of fantastic sex, and talking their way through any emotional landmines that come up. It's not boring, but it's not a page turner either. The set-up of the next book in the series (NIKOLAI'S WOLF), which involves a forbidden vampire-werewolf pairing is also problematic. On one hand it's very intriguing, in that the next story will certainly have plenty of conflict, a big bad, and both emotional and tangible obstacles for the couple to surmount. On the other it takes up a considerable chunk of this story, which is supposed to be about another couple all together. More focus on the main couple, with a smaller set up for the next book would have been preferable. Also, for whatever reason this isn't available as an ebook on Amazon, just iBooks and other sites.

The Naughty: Erotic. Lots of sex. Dubious consent.

Editing issues: Minor typos

Publisher: Loose Id

Length: 138 pages

Final Grade: B-

Happy Reading,
Theodora from irbookreviews.com

Genney Blass says

4 stars. This book was interesting, even though it felt like I was in a History class when the moment the teacher decides to talk about the Myths of Werewolves and Vampires. Now it doesn't mean that I didn't like it, it meant that it was more like the french says "Como Si, Como Sa". The characters hmm, the plot, hmm. Yeah that much says it all.

Cora says

There is a fine line between an alpha and an asshole and this guy is the latter. He's not trying to be, but he keeps neglecting to tell the girl things that are vitally important (among other douche moves) and she's just cool with it.

It could have been a lot better if the female lead was a stronger character, but she was weak and annoying.
Boo

Camylle says

This series seem cool, I liked Keisha. Carol and Mark were a bit overbearing but hey they are wolves.

Camille says

So ... this was mostly porn. More than halfway through the book the porn settles down and you get some sort of a plot. I like the idea of soulmates but this came nowhere near to be satisfying in that regard. Literally, this book was sex and a hint at a plot. No time for conflict, apparently. Normally I don't LIKE conflict. Normally I'm yelling at the characters to get over themselves and just give in to loving the other character. This time I was like, REALLY? You're just going to accept this with no question? I actually wanted the woman to run away from the guy. Not because he was a bad guy but because it was too damn ridiculous not to.

Moral of the story: When a Nookbook is 3.99, there's a reason for it.

Erosa Knowles says

excellent, excellent, exceilent beginning of series.
