Ultimate X-Men: Ultimate Vol. 4 Brian Michael Bendis , David Finch (Artist)

This deluxe hardcover collects Ultimate X-Men Volume 7: Blockbuster and Ultimate X-Men Volume 8: New Mutants, plus a hefty helping of DVD-style extras. In Blockbuster, Wolverine returns to New York after a short time away from the X-Men - with a strange strike force armed with sophisticated military technology on his tail. To survive, he's forced to rely on the Big Apple's own Spider-Man and Daredevil - not to mention a little help from his fellow X-Men! In New Mutants, the President of the United States decides in the face of growing racism and paranoia between man and mutant that Professor X - with his mysterious psychic powers and shrouded background - might be the bigger problem. The President's solution: get the U.S. Government involved in the mutant-training business. With the help of Emma Frost, the President handpicks a class of "New Mutants" to serve his political agenda - including Dazzler, Karma, Havok, and Polaris. But who is this mysterious Emma Frost and what is her connection to Xavier?

Justin says

Marvel struck gold when they launched the Ultimate X-Men series. By unshackling the popular characters from four decades of convoluted continuity and starting fresh, they were able to let new fans and old in on the X-Men from ground zero. I've been following this series through these deluxe hardcover collections, which contain roughly a year's worth of individual issues and at least two full story arcs.

The fourth Ultimate X-Men hardcover collection includes the following issues:

Blockbuster - You'd think the X-Men would get a chance to catch their breaths after their recent cataclysmic confrontation with Magneto. Instead, Wolverine spends this entire arc being hunted by rogue Weapon X agents who want him dead. Spider-Man and Daredevil are Wolverine's backup support in this arc, written by Ultimate Spider-Man scribe Brian Michael Bendis and illustrated by David Finch. I find the Ultimate Spider-Man character extremely annoying, and the Ultimate Daredevil has none of the personality Bendis gave the "real" Daredevil in his legendary run on that title. Still, this was a fun team-up story, and the artwork was just gorgeous.

New Mutants - Bendis and Finch continue their run with this story arc, which finds one time Xavier student Emma Frost leading a new government sponsored mutant team, which includes some very familiar faces. Unfortunately the team's debut is interrupted by an assassination attempt and Sentinel mayhem. Oh, and an X-Man dies at the end.

If anyone was capable of following Mark Millar on this title, it's Bendis (or maybe Warren Ellis). Bendis has a great understanding of what makes the Ultimate Marvel Universe work so well, and he's not afraid to shake things up. The fact that he's paired with an artist of Finch's caliber is the icing on the cake.

I highly recommend Ultimate X-Men, not only to new X-fans who might be bewildered by the continuity of the older series, but to old school X-Men fans like me. If you keep an open mind, you should find this series quite enjoyable.

Nicolas says

On retrouve à nouveau les X-Men dans leurs aventures d'une complexité inégalable.

Je trouve que, dans la première partie, qui donne sa couverture à ce recueil, Spiderman est juste bouffon. A part, ça, comme d'habitude, Wolverine est clairement mon idole.

Josephine (biblioseph) says

Complete review forthcoming.

Anna says

normally, I'm all about Wolverine.. but this story-arc was lame

Holden Attradies says

A solid read. Perhaps not one of the strongest in the ultimate X-men line, but faaaaaar from the worst.

Just about all of the story lines with Wolverine and Peter Parker had some awesome comedic moments, and the story line in here with Parker didn't disappoint.

I'm not sure how I felt about Ultimate Emma Frost. I liked that she ideologically opposed to Xavier without being an out right villain, and I liked how her ideology was shown not to work in the real world. I guess I just wish that aspect of that particular story would have been flushed out more. Perhaps it is later on?

Kaye says

The interactions between SpiderMan and Wolverine cracked me up.
