**White Nights: A Vampires of Manhattan Novel** *Melissa de la Cruz*

THIS IS AN UNEDITED FIRST DRAFT RELEASED BY THE AUTHOR DUE TO FAN REQUESTS.  
THE PUBLISHER CANCELED THE SERIES, NOT THE AUTHOR.

In this next installment from beloved author, *Melissa de la Cruz*, the *Vampires of Manhattan* series continues on at a breathless pace.

Oliver Hazard-Perry, once leader of the Coven, is now a broken man and enlists the help of his friends Jack Force and Schuyler Van Alen to redeem himself and search for his lost love, Finn Chase, who has disappeared into the sophisticated streets of Stockholm. Meanwhile, back in the city, venators Ara Scott and Edon Marrok's investigation into a surge of Nephlim (those dangerous half-human, half demons) activity has come to a dead end. As quickly as they arrived, the Nephilim have all mysteriously disappeared from New York. Where did they go? And does the answer lie in the hidden caverns and remote glaciers of the Scandinavian peninsula?

As the sun stretches summer days into white nights, the loyal crew encounters its most devastating trial yet, one that brings everything they believe into question and everything they love into danger.

## **From Reader Review White Nights: A Vampires of Manhattan Novel for online ebook**

### **Tamarra Lynch says**

To have waited so long for this book to come out, well I can say it was so well worth the wait! Brilliant read, was disappointed with the ending though, could have done better, great storyline, same beloved characters, mature in their roles as adults. Hope to see more from Melissa de la Cruz in this series!

---

### **Zaquia says**

I loved the Blue Bloods series and this sequel is a little lacking. After waiting for it for so long it just wasn't up to par with the others. That said I'm curious to see if there's going to be another installment.

---

### **CARISSA E says**

WHAT THE HELL KIND OF ENDING WAS THAT! It was like the end of The Soprano's, it just stops. Would it have killed her to write just one more chapter! Though I did enjoy this book after waiting for it to come out for what felt like forever, I was VERY disappointed by the ending. Though Kingsley was mentioned many times, we never got to hear from him. I had hoped for a little closure on Edon and Ara, some chapters in Kingsley's point of view, a better ending, and I had also hoped for a little bit of Bliss and Lawson.

---

### **Tracy Rice says**

Had me guessing up until the end. The end was abrupt and doesn't tell you what happens to the characters. Will there be another book?

---

### **Charlotte Hodrick says**

incredible story but the characters need their endings of the future

---

### **Mandy says**

I wasn't sure how to rate this book because I have been such a fan of the series. It feels like I have been waiting forever for the book to be released, and I must admit I was a bit disappointed. I had noticed reviews on Amazon mentioned the issue with grammar/spelling along with some other minor problems and I agree, there were a lot of issues in this area. It was almost as if the book was rushed to be completed as an after

thought. I thought the storyline was good, but I was also a little disappointed with how it ended because it left me with unanswered questions and after the long wait for this book, I highly doubt if there will be a third book. I just wanted and expected more. I have been a fan of this series from the start and was so happy when the first Vampires in Manhattan novel was released. It is still worth reading despite everything I mentioned.

---

### **Danielle Bouchard says**

#### **I tried to love it like I loved the others...**

I understand the situation, the Publisher cancelled the book so it did not have its full essence like the previous collection. I was very happy to see the characters in action again and so grateful that the author along with her fans pushed to get it published. It was just so sad how it turned out. Spoiler, the ending wasn't fitting. It was so abrupt I feel pain down the back of my throat as I grieve for the rest. What happens to Ara and Edon, and Finns fate in the vampire world? Where does the coven go from there? How does it really end?

I wish it didn't have to end like this.

---

### **Melissa says**

Worst book I have ever read! The end was BEYOND rushed and very stupid!!!! do not wast your time on this book series.

---

### **V Valencia says**

#### **NOTE TO THE AUTHOR:**

I really liked this series. I was really upset that Melissa de la Cruz decided to scrap it or whatever she decided to do. If this really is the last book in the series, she really needed to end it by summing up what happened to everyone. Jack and Schuyler, Edon and Ara, Kingsley and Mimi, and Oliver and Finn. It just seems to me that the author had no heart in this project anymore. And apparently this is not the only series she's decided to scrap. If your readers are what's important to you, you should think about them following your stories instead of pissing them off by doing things like this. Because of this I have taken this author off of my to read lists. To think that you are waiting for the next book to come out only to find out that it's not coming out. It's disheartening to say the least. I understand that she has other series and projects to contend with, but please keep your readers in mind. These are the people that keep you going. Without followers you're just someone writing books.

---

### **Diana says**

How can you leave me with an ending like that?!

I loved it.

---

### **Andy Kornyllo says**

See full review for White Nights at: <https://toomanybooksnotenoughshelves....>

I've been waiting on this book for the last four years and let me tell you what a harrowing wait it was. I mean, there were delays in publication, then there was the announcement that due to low sales of VoM the publisher wasn't going to publish it. And then I caught de la Cruz's Goodreads update that she was publishing the first draft on Amazon where all proceeds went to YALLWEST. Let me tell you when I found that out I was online within a few hours and purchasing it. I've been wanting to know what happens next to our characters and...

Look. It's hard to review a first draft. I can tell things were rushed through, that the ending was just to give us a happy ending for these characters. That being said...I was disappointed that Mimi and Kingsley weren't in this novel all that much.

---

### **Nasty Lady MJ says**

Would be imprudent to read at this point, see review for first one. The characters no longer resemble their original self and the plot has gotten OTT ridiculous. Plus, I don't like characters who enjoy the smell of BO.

Update: So apparently this is never going to be published. Well, all of it isn't. The author is releasing part of the book for a small fee (for a good cause, but still) per her blog. Honestly, I'm sort of disgusted this is like the fourth series de la Cruz has dropped and it's really sort of crappy for fans. But whatever. Just wanted to post this update for any fan who was anxiously awaiting this book that will not really come to being.

---

### **Tierra says**

#### **Best Kept Secret**

This is the best kept unedited sequel ever. I hope there is another draft. Going back to my favorite characters as adults and parents in the Blue Blood world has been amazing. I hope Melissa does another one.
