## **Big Deck** Remy Rose

He has all the right tools...and the skill to use them.

Need a carpenter who has all the right tools and the skill to use them? Look no further than me, Jackson Decker...otherwise known as Big Deck. I'll let you guess how I may have inherited that nickname. Spoiler alert: it's not just because I'm 6'5".

I take care of my female clients in many ways. I've got tools, and I've got rules: three seconds, tops, for hugs. No going on dates. No staying overnight. And absolutely no letting anyone mess with my heart.

I'm yours for the duration of the project. And then, it's over. Most women find it difficult to say goodbye, and sometimes it's hard for me, too—literally. See what I just did there? But that's the way it has to be, and I've always been able to handle it.

Until Madeline Callaway.

\*\*\*\*

I was only looking to get a big bathroom, not a big man, since I've sworn off relationships after being cheated on. But when Jack Decker showed up at my door with his jaw-dropping sex appeal and huge...um, workboots, I found myself wanting his hands on more than just my bathroom fixtures. I wasn't prepared for how he'd make me laugh, blush, swoon...ache.

Will I be able to follow our agreement of insanely hot, no-strings sex, keep my emotions in check and let Jack go once he's done the renovation? Or will I need him to return and repair the hole in my heart?

## From Reader Review Big Deck for online ebook

### Marishka says

DNF 3%

So manwhore's don't really bother me if they're in the past and I don't have to read about so I'd decided this book looked like fun after the very dark book I just finished. But damn In the prologue you read about him banging a client in detail and it's not the heroine. I tried to keep on trucking but I just can't. Nope I'm out 🤦?

---

### Chantel says

#### One of the best books I read in 2017.

OMG....where to begin. Madeline and Jack's story will take you on a epic adventure of true love. I laughed, got mad, felt said, cried a little and was totally happy with the ending. This is definitely a book that I will read again in the near future because it is awesome.

---

### Anne says

One of my KU new authors. Story was a bit blah, but I liked the writing. I would try this author again.

---

### Lynnette Riddell says

#### Sweet heart warming & hot carpenter

First time reader of this author. I thourly enjoy this book. Of its cocky hot "BIG Deck" aka Jack ? Madeline is sweet, lovely woman. They both have their past that have left dent in their armour. The story is hot, frustrating in good way, it even had teary eyed few times. It was Amazeballs..... I would love to know happen next. I see there next book about her BFF and I will for sure be getting.

---

### Kristin J says

I thought this book was good. It follows along with the typical manwhore, commitmentphobe, afraid to get hurt format of a lot of other books. There's nothing super original about it. Jack and Madaline are decent characters and believable chemistry.

My main issue with the book is that their "breakup" occurs 67% of the way through the book and then it just drags from there. There's one hook up after, but other than that it's just him pushing her away and denying any feelings while being miserable on repeat.

I'm also not thrilled that to get the epilogue, you have to sign up for the author's mailing list. So the book ends abruptly with a happy for now.

---

### **Robin Stone says**

I just finished reading Big Deck by Remy Rose... A sexy handyman falls in love with his beautiful client, Madeline. (Obviously I love this storyline.) Lots of hot sex, great writing.

Also: there was an actual romance that concentrated on the hero and heroine. A few side characters, but it was super focused on the main couple, which I loved! I've put down books where the cast of characters overshadowed any romance, so this was perfect for me. The couple was together flirting, sexing it up, and falling in love on nearly every page.

Set on the coast of Maine, for those who like New England coastal settings. At the end of the book, you can email the author to get an epilogue. Recommended! It's \$2.99 right now, and also available on KU.

---

### **Michelle Damron says**

Could not get over the hero! Didn't really like him. I know we like to read stories where the hero totally changes when the female lead comes in but it's also nice to read a male hero that actually has some type of morals.

---

### **Megsy says**

#### **Fantastic Book.**

Loved every minute of this book. I couldn't put it down. Looking forward to reading the other books by Remy Rose. Do yourself a favour and 1clixk this now.you won't be disappointed for sure.  
You rock Remy!!!!

### **Sheri Matthews says**

#### **Swoooon!**

Oh, how I wanted to hate Jack. Big ego, bigger player and only out for himself. Conquests numbered in the 100s and he was proud of every one of them. The definition of "love em and leave em" was his photo. I really, REALLY wanted to hate him. Then he meets Madeline. I saw a side of him that was sweet, fun, caring, even loving at times. So my hate waned and then turned to mild dislike then finally, love. They are so cute together. They play well off each other, humor-wise and "wink-wink" otherwise.

Great storyline. Lovable characters. Many moments of humor, passion and angst. Roller coaster romance that tugged at my heartstrings.

## **Jackie (Jackie's Book World) says**

**\*\*\*Review can also be found at Jackie's Book World. :)\*\*\***

This is my first time reading anything from Remy Rose and it didn't disappoint at all. From the sexy cover to the intriguing synopsis, *Big Deck* had me reading nonstop from beginning to end. Not only was this story about second changes, but it was also sweet and entertaining.

At the very beginning we are introduced to Jackson Decker of Decker Renovations. As a twenty-eight year old, he has no trouble attracting the opposite sex and he is all too happy to hook up with his single clients. Jackson is all about self-preservation and nothing too serious. But that soon changes when he meets one of his newest clients, Madeline Callaway. He was supposed to renovate her new bathroom, but the minute he laid eyes on her he was attracted to her and he couldn't stop thinking about her ever since. Yet, no matter how close they get during his time working for her he knows that he can't pursue anything further without getting hurt. He has been through so much in his life and he doesn't trust as easily as he might like. Madeline is there for him right from the very beginning, but when she starts to get attached to him he has to make a choice of whether being in a relationship with her is worth pursuing or not.

Madeline Callaway never expected to meet Jack Decker. He is her total opposite, yet she is completely attracted to him from the minute he walked into her house. His playfulness and charm is what she likes the most about him. Yet even though there is obvious chemistry between them, he has made it clear time and time again that he doesn't do relationships and she doesn't know if she'll get out of their arrangement intact or completely heartbroken. Nevertheless, Madeline is set on enjoying her time with him until her past starts to catch up with her and she starts to receive text messages from her ex wanting her back. After what she went through in her previous relationship she is scared of getting hurt again, but the more time she spends with Jack the more she wants to explore the possibility of a forever with him if only he gives her that chance.

I was pleasantly surprised with how well thought out the story was and how we get to see the characters develop from beginning to end. It's evident that both of the characters have their own pasts to overcome, but the more time they spend with each other the more they help each other move on. I enjoyed reading Jack's interaction with one of his older clients, he became some sort of father figure to him and helped Jack see how short life can be and we have to enjoy it to the fullest. There was a lot of sexy moments between the characters as well as sweet and romantic ones as well. I loved reading the ending, it had a true meaning for Jack and Madeline and it ended really well. Overall, *Big Deck* was an enjoyable read and I would highly recommend picking it up as well. :)

## **Di says**

First I will say, I am not typically a fan of romantic comedy. This Author pulls you in, with the fun and witty characters. I found myself laughing at some of the ways the characters spoke to the other. Not all authors can consistently write in first person, this Author did it really well. So much that every chapter is written that way, with the chapter heading noting the character name.

With that said this was a fun read. I would definitely recommend it.

There are life lessons as well. Do you have a busy and hectic life? Who doesn't. It's not just the stop and smell the roses in this book, it's remember the butterflies and take time to place a cairn. To find out more about Madeline and Jack's story you have to read it.

I very much enjoyed this book, and hope you will too.

---

### ★ Belle The Bibliophile ★ says

He sleeps with ALL his clients and it is G R O S S. The heroine is nothing special, just a notch on his post. Also the Hero advertising his expertise on women is obnoxious. K sure boy, you've slept with everything that walks but who died and made you an expert? Ew.

---

### Erika Rhys says

If you like Lauren Blakely's sexy romantic comedies, you'll love Big Deck!

Jack is a sexy, cocky contractor with trust issues. When he finishes a job, he moves on—to the next job and the next woman. He's set on his pattern of serial monogamy that protects him from getting hurt again.

Madeleine is an independent woman trying to get rid of her ex and renovate her master bath. Enter Jack as her contractor.

From the first page, the interplay between Jack and Madeleine's POVs is hilarious and well-balanced. When their respective sense of pride and independence wars with intense attraction, their reactions prove them to be a match made in romantic comedy heaven.

While Jack and Madeleine's road to romance contains its share of obstacles and mishaps, the author stays true to the characters. No formulaic content or WTH moments here. Remy Rose writes characters that you'll fall in love with, and up and down moments that will make you root for the hero and heroine to realize the depth of their feelings for each other.

And the sex? Toe-curling. Panty-dissolving.

---

### Katrina says

Omg I need the epilogue !!!

Initially at the start I was unsure - a gigalo carpenter who wooos single women then moved in to the next ?? Meah - but kept reading lol so glad I did ..

That thought certainly changed - loved the humour, sexy trysts, and chemistry .

Jack intrigued me , Madeline's creative flare in the kitchen had me jealous - but the slow build up had me on the edge of my seat wanting more for them both .

A sexy yet sweet humorous romance that will have you giggling, ohhhhing and arggiinng and emailing the author for her epilogue lol

Loved it !!
