Framed Robin P. Nolet

When housing contractor Kay Conroy finds her son's soccer coach dead on his kitchen floor, her well known dislike for the man soon turns into a motive for murder.

Now, anxious to aim the finger of guilt elsewhere, the quick-witted but daydreaming single mom must squeeze her own investigation in between car-pooling her son and overseeing the construction of a home for a local socialite. The evidence she discovers puts her at the top of the suspect list even though she knows she's being framed. Meanwhile, there's an attractive landscaper she'd like to know better and an amorous CEO she'd like to lose.

With the aide of her salty-tongued best friend and the sixth sense of her puppy, Kay digs for dirt. What she finds are broken hearts and bottom lines...not to mention danger!

Framed, the first in the Kay Conroy Mystery Series, is a fun read with entertaining characters, clever humor and an intriguing mystery that will keep you turning the pages!

Robin Nolet has done it again, this time with a murder mystery set in a small town in Colorado. Fun characters, an adorable puppy, and a handsome landscaper all help Kay Conroy, single mom turned amateur detective, try to solve a case when all the evidence points to her. This is a page-turning read told with humor that makes for a perfect summer read! I highly recommend it!

Kay Conroy Mystery

Well written and entertaining story, many good characters and the humor was awesome. I enjoy small town settings, and the storylines that go with them.

I just want to start off by saying that I wasn't expecting to receive any giveaway book since I'm just not the type of person that wins anything. Ever. So you can imagine how surprised I was to actually get this in the mail.

Now, I pretty much entered to win any book that I saw, regardless of whether or not it was a genre I normally read. Whodunits happen to be a type of story that almost never catch my eye, so it was good to broaden my horizons with something different. Change is refreshing.

This book had OK characters. It's hard to think of any of them as particularly good or bad, which worked for the plot at hand. I liked that there was tension between some characters without resorting to petty nastiness. Kay and Camille had a dynamic that worked for me. I didn't really relate to the characters too well, though, and thought that the descriptions of clothing everyone was wearing was a bit excessive. I found myself skipping whole paragraphs of clothing descriptions after awhile. The protagonist had a sense of humor that was amusing here and there, though.

Overall, not bad.
