## Grace Audrey Harrison

Grace Johnson does not want to marry a titled gentleman. She is only happy and at peace when spending time in a garden - any garden. When she visits her sister, the Duchess of Sudworth, Grace is disappointed that even her beloved sister is not listening to her. Grace hates matchmaking schemes but seems powerless to stop them. Harry Long is Head Gardener at Sudworth Hall. He is a good and loyal member of staff. The day that Grace walks into his life turns everything upside down. For the first time he is taking risks for the beautiful pixie that has walked into his life but, his actions could cost him everything. An innocent picnic threatens Grace and Harry in ways that neither could have predicted, but their lives and the lives of those around them will never be the same because of it.

## **Marlene says**

Much angst. The Hero Harry was not particularly compelling he was very subdued. Interesting how Grace was able to sneak around the garden unseen with servants eyes everywhere.

## **Donna says**

Good book.

I think this is my favorite of the series so far! The plot did not rely on silly misunderstandings and lack of communication. The author's writing seems to have really improved beyond the earlier books. I am impressed.

I loved our MCs. I mean how cute are Harry and Grace. The only bad thing I have to say about this book is the improbability of a woman of Grace's standing ever marrying a gardener but that can happen in romancelandia.

These books are very good. Definitely recommend.

## **Karen Darling says**

A sweet, cute romance. No sex, just kisses and free on Kindle.

### **Sweet story, but....**

This third book of the series was more a fairy tale than the others. The plot was predictable; an obligatory "crisis" came along near the end, ensuring that all characters would accept one another as equals and all would live happily ever after. The characters were not as well-developed as the previous books', and there's no way that Grace could have realistically ended up with her true love.

**Janell says**

A so-so historical romance with a very simple writing style. Not a lot of depth but I enjoyed the characters more than in book one. :)

**Cass says**

Part of the low-brow rubbish that I read when I was sick and need to read trashy romances.

The third in Harrison's "The Four Sisters" series, I probably liked this one the best. The Regency plot device isn't original -- a love match between two people of different "stations" in life. But the focus on their mutual passion for gardening is quite interesting. Harrison does do characters well, and this book is the least sexually titillating of the four.

**Tammy says**

Probably my least favorite so far, but I still really liked it. I think knowing that a match between a gardener and a well to do young lady was highly unlikely to have occurred dimmed my enjoyment just a tiny bit. With that being said, I really liked Harry and Grace. I also liked seeing a little bit more of the house staff. Mrs. Adams is so fun to read about and I love reading what is happening with Rosalind and Peter from the first book. I can't wait to read Eleanor's story next.

**Lisa says**

It was ok, but not endearing in any way.
