### **This Book is Freaking GREAT!!!**

I am smiling so big right now! The first part of the book is a little dry, describing how FICO scores work ect. I almost put it down never to pick it up again (which may be why I need to read this in the first place but luckily I did pick it up again because once I got to the actual steps, I was like omg I LOVE THIS GUY (the author) Just reading the sample letters meant to be sent to collection agency and credit reporting agencies made me feel FANTASTIC, he knocks it out of the park. It made me feel so empowered. He really gives them the business and it rules! In the beginning through all the description of Fico ect I thought it was going to be...well different, it ended up being exactly what I was looking for and more.

WAIT! I just realized that the author is perhaps a lady so my apologies for calling you a Dude either way I just love you for writing this awesome empowering book

#### **Quick, and extremely useful read!**

This book was all meat and potatoes. I plan on using the process this year to remove items from my credit report. It basically revolves around sending a dispute letter which might work on its own but if it doesn't you follow up with a method of verification letter. Since the verification system is automated and hard to prove, they will most likely remove the negative item. Lastly, if both of those methods fail, you send a notice to file an investigation with the FTC.

#### **Simple read, good stuff though**

I like books that get straight to the point as this does. A little fluff, but only to paint the picture as needed.

### **Adam says**

#### **Trust the process**

The knowledge gained about how the credit bureaus and collections act unethical and illegal, plus the laws set in place for us to combat and win against them, from this book seems simple for the average American to apply. I will definitely do so because I plan on owning my first home by the end of 2018 and start utilizing and leveraging credit for my benefit nd business. Also will help when I begin real estate. Thank you very much!

#### **Better than the others**

This book was more informative than all three others I read on the same subject. Great advice- can't wait to

give it a try!

---

### **Diane M. Woods says**

#### **Great information**

When you are faced with bad credit and working hard to fix it the last thing you need is something hard and complicated that is supposed to be helping you. This book is very easy to understand and follow.

---

### **Briana says**

#### **Good info**

This book has some good information on how to repair your credit! The author was thorough.. I can't wait to put what I learned to use!

---

### **James Lott says**

#### **This book makes credit repair sound easy**

This short read (literally 15 minutes) is good for anyone looking to learn the basics of what to actually do to get items removed from their credit score

---

### **Shanda says**

#### **Good information**

Although I haven't had a chance to utilize the information in the book yet, the steps are easy to follow. Looking forward to repairing my credit.

### **Sherry Brooks says**

#### **Awesome Book!**

I gave this book 5 stars because it gave me step by step detailed instructions on how to deal with the credit bureaus and collection agencies. The correct wording and legal terms will make all the difference. This book has empowered me and I greatly appreciate it. Thank you Mr. Roash for generously sharing this information.
