## **Plausibility** Jettie Woodruff

If something is plausible, it's reasonable or believable.

Giving a deceptive impression of truth and reliability at such an early age is certain to cause you to believe what isn't real.

Aquilla Chavez was raised by a loving father and a brother who may have loved her a little too much.

Aquilla was spoiled and adored, bringing cheer when disaster threatened a family. She was exposed to a life of crime, all while lovingly being sheltered and protected from it.

Will she ever reclaim the one man who she believes to be the love of her life? She didn't want to be where she was forced to be. She wanted nothing to do with the person she was involuntary turned into. Aquilla had one goal - one goal that would save her from the catastrophic life she was suddenly thrown into. She had to find him. She had to try, or was this the plausibility of a life she was meant to have? Was the life she was torn from the disastrous life? Could this be where she was meant to be? How would she ever know? What if he found her? What if she never saw him again? What if.... she didn't want to?

**If you are into lovey dovey, sappy romance, you should probably move on. This book contains explicit sex, drugs, and adult language. Not your typical every day romance.**

## Mistress says

I **LOVED** this book! I didn't know what to think starting this one, but was soon pleasantly surprised. The relationship between Quill and Julius melts my heart. He raised her as a father would... as a brother would. He was everything to Quill and even though their love was taboo, it was so right. The scenes of when they were young are some of the sweetest I have ever read.

*"He reminded her about their make believe wedding when she was seven... Every stuffed animal she had attending their wedding. "They were all witnesses, Quill. So that makes it real. That makes you mine, always and forever. Mr. Frog said so.""*

The scenes of them as they got older are some of the hottest I have ever read.

I also loved the relationship between Quill and Seri.

It was a friendship that I never saw coming, but one of the deepest I have experienced in a book.

*"You and me- A single soul dwelling in two bodies."*

Plausibility has a Sempre and Artist Trilogy feel to it, IMO. There was mystery, excitement, taboo sexiness, heartbreak, and a whole lot of love. I devoured every word of this book. I was sad to see it end because I loved it so much, but the ending was absolutely perfect. This is not your everyday cookie-cutter book and for that I'm thankful. Plausibility wasn't predictable at all, which was so refreshing to me. This is the first book I have read from Jettie Woodruff, but she has won me over. I now plan to read everything she writes. I would highly recommend this one!

## Vishous says

### 3.5

This is one of those books you like, but not sure why. I had a hard time dealing with the writing style from the beginning. It gave me such a headache, that I even thought about not finishing it. I hate a feeling like somebody is retelling me a story while I read the book, but without retelling. I really tried to ignore it, because I simply loved the story. Jumping to different POV's, literally every paragraph, was annoying. If

there was somebody new in the scene, the next paragraph will be his/hers, then next back to first person, and like that all the time. POV's were bouncing around like crazy and it annoyed the shit out of me. Especially if there were more than 3 characters in the scene.

The story got me hooked from the beginning! Lots of times I had a feeling like I am reading some weird version of SEMPRE and DUSTY mix.

I didn't feel chemistry between main characters so much, probably because of a retelling feeling I felt a bit detached, but when sex scenes were on, it was HOT! Usually, MFF books/scenes are not my thing. I don't mind them, I just don't feel them. But in this book it was HOT AS HELL! I guess you just have to stumble upon THE one that you will like.

After 30% book kinda slows down... a lot... The story goes completely in a different way. I didn't mind it at all. Even though I found it completely unrealistic, I actually had fun reading that part when it becomes more like some family drama. I did miss the main hero in that part (30-85%), so when he actually reappeared again, I didn't feel him anymore, because so much time has passed.

The thing is that I could write now how many things bugged me through the whole book (and believe me it would be a LOT of stuff), and what I felt was missing..... But that wouldn't change the fact that, for some reason I don't know, I actually loved the story.

*BUDDY READ WITH MY BOOK SISTAH SHELLY!*

---

**edzkie♥\$\*.\*\$♥ says**

I love this book! And its hard to explain why because at some point I have miss julius and doubted if he will came back. But i love the chemistry of quill and julius. The care and love when they were "sibling", the the intense attraction when the grew older. They are both quite endearing even if they are both tough, stubborn and domineering. I also love the ending. Perfect HEA.

I commend the writing. The reason i want to go on when i'm pissed and missing julius. The slow development of relationship of quill real family was perfect. I recommend this book to everyone.

**Beatrix says**

[Okay, I'm no stranger to reading incest books, AND this one is NOT even that, because they're not brother

---

**Amy Nease says**

I was asked to review Plausibility by Jettie for an honest review. I honestly don't know what to say. I didn't think she would be able to top Underestimated. I was wrong. This book was like watching a movie, chewing your nails, laughing, and with just enough tug to pull on your heart strings. I'm not even sure what to say without giving anything away. Hot?? Hell yeah. It had me questioning some of my own sexuality. Intense?? Yup, that too. There were a few parts that had me holding my breath and screaming at Ms. Quill to do what she should be doing. Funny?? Absolutely. My husband thought I had lost my marbles a couple times when I burst out laughing beside him in bed. Heart breaking?? Yes, undeniably. You couldn't help but feel bad for

the heroine at times, although this girl was far from being weak. I'm afraid of her. I hate to say it, No. No. I can't. Yes I can. I think I loved this one more than Underestimated. There. I said it. If you haven't already, this one definitely needs to go on your reading list. I cannot wait to see what Jettie comes up with next. Kudos....Great Job. I would give it more than 5 if I was permitted.

### **D.C. Renee says**

I've tried writing reviews before and they always seem so generic, so I gave up, but Jettie - she deserves a review! :) I absolutely LOVED, and I mean LOVED Underestimated, so naturally, I was going to read Plausibility (and I had the pleasure and honor to read it before it comes out - WOO HOO!). It's just as beautifully twisted as Underestimated, but in a completely different way. There is love, heartbreak, intense drama, and hot sex (oh yes, HOT SEX!). You end up feeling for the bad guy(s) and you don't hate them (what?!? how is that possible, you ask...well, because Jettie is just that awesome, duh!). I seriously don't think I hated any character, no matter their flaws. I wanted them all to win and have a hea. Of course, there were some moments where, like a maniac, I was talking to the book and telling my new best friends (yes, fictional characters are real!) to not go there or not do what they were about to do! It kept me on edge at times and completely messed with my mind at other times. And there were times where I was like "what?!?! I so wasn't expecting that!" which, you know, makes for great writing. This book is definitely a keeper! and worth 5 stars!

---

### **Fan29 says**

I really, really loved the book Underestimated by Jettie, so I was beyond excited when I was asked to beta read Plausibility. What can I say, Jettie did it again. She sucked me in. She made me love all the characters and feel their heart ache. I even loved the "bad" guys. You don't even think of them as "bad" (hence the quotes). You just want everything to work out for them too. You really feel for the main character throughout the whole book. Even though that girl can kick anyone's ass and break a couple of bones here and there, her whole world gets turned upside down in a flash and you can feel her struggles. You understand what she's going through even though you've never experienced anything like that yourself. Of course there are times I wanted to strangle her and tell her to stop and think. There were times I felt that she wasn't trying hard enough (it really says something about the writing if you start empathizing with fictional characters), and there were other times I just wanted to hug her and tell her it's okay, that it will all work out and sure enough, it does. We get our hea and I love that this is a stand alone. That alone is a winner in itself. Is it too soon to say that I can't wait for my next Jettie book journey?! :) Can't wait to see what she comes up with next!

---

## It's just me Shelly B says

**Sex, Drugs and Family Drama.....that about sums it up but I guess I could give ya a little more than that.**

*First 35%.....4 stars*

**AMAZING!!! I LOVED it!!!!** Julius was panty dropping **HOT!!!** I enjoyed learning the past and the present of his and Aquilla's relationship. They are brother and sister but not blood related, however the father treats her as she was really his own. Julius and his father run some shady businesses, drugs and sex slaves or as they are known in the book "chattel." Julius trains the chattel to be submissive.....well let me just say that there was a mff scene, yea it's typically not my thing **BUT OMG it was HOT!!!!!!!!!!** After I read that scene I was staring at my iPad with my mouth hanging open....like what what?!?!?

*35% - 80%.....3 stars*

I can't really say what happens here because I would be spoiling but something happens and Aquilla's life is turned **UPSIDE** down!!! Everything that this girl knew, I mean **EVERYTHING**, is completely taken from her and she has no choice but endure it until she can figure out a plan. Now I did enjoy this part just not as much as the first 35%.....I felt like I had stepped into a different book. I loved watching Quill adapt to her new situation and trying to figure out her new place in life and most of the characters were enjoyable.....except Liz she completely annoyed me!! The thing that began to **ROYALLY** piss me off was there was **NO Julius!!!! NONE!!** So I devoured this part because I wanted HIM back!!

*Last 20%.....3 stars*

Finally my Julius is back.....but \*hangs head in shame\* I'm not as excited about it as I should have been because all the other drama has dampened my mood for him. The book wraps up wonderfully and I like it but had this continued with the same intensity as the first 35% it probably would have been a 5 star for me.

### *Overall*

The writing style was kind of funky, the POV's switched constantly I mean like sometimes every paragraph but it didn't bother me enough to not read it. This book was kinda weird for me because there were so many factors going against it but I liked it and was glued to it...I finished 500 pages in a day, maybe a day in half.

I enjoyed it.....I devoured it...but it missed just that little something that could have made it great for me.

**?ι??ισρ?ι?ια {?ιηg???? & ?ø??η fσ??v??} says**

Made me question everything, things in her life, things about me ... really, really loved it.

4.5 stars.

**\*Marsha,Marsha,Marsha\* It's always Marsha says**

I am not sure what I want to write about this book. I need some time to think.

Okay, here goes. **3 stars**

I am in the minority on this one for several reasons. When I see all the 5 stars, I normally skim through to see if there are any 3's just for the comparison. I'm going to be honest and tell it like I read it.

Hot premise with lots of bad things from people and a girl caught up in a life she has no clue about.

Quilla knows she's different from her father. She knows she's different from her brother. And she wonders where she really came from.

She lives a life of utter decadence but extreme protectiveness. And as she grows older and become more self-aware of the "situation" she is in, she and Julius become less "brother and sister" and cross those boundaries. Some things began to happen at this turning point in the book that I was not quite comfortable with. I'm not a prude but the age and situation bothered me.

There is no doubt that the sex scenes are off the chart hot. There is no doubt that this is far from normal. And there is no doubt that Julius wants Quill like an addiction.

It is very difficult to write a great deal without giving away spoilers but here are my reasons for the 3 star:

\*drug use being given to minors by Feds?

\*Feds not acting like Feds

(view spoiler)

The entire last half became less realistic to me as she (view spoiler)

The whole family situation of the 2nd half just bothered me. Perhaps this is one of those "just me" books, but I needed some realism for this type of situation and I just didn't feel like it was there.

So, there ya have it.

## **I ♥ Bookie Nookie ([bookienookiereviews.blogspot.com](http://bookienookiereviews.blogspot.com)) says**

Ok, so now I am kind of depressed because I want to read another Jettie Woodruff book, but I think these are the only two "darkish" books she has written. (Now that I have written the review, I have read yet another wonderful book by Jettie that skirts the edges of the dark side titled, ALL FOR MADDIE, so that makes a trifecta of 5 star reviews from me :- ) 3 out of 3 ain't bad!)

Jettie Woodruff writes a really great story and I do mean really great! Although the story is labeled as dark on some shelves, it's not really dark in my sense of the word, it's mostly emotionally dark.

PLAUSIBILITY is a complex story with adult themes.

Quill, a young adult for most of the story, was kidnapped at a very early age. She grew up in a very sheltered environment with two men she presumed were her father and brother. Although she is protected from it, her "family" is firmly planted in a world of decadence and crime. As I learned more about Quill, I came to view her as the "Princess in the Ivory Tower" - she lives in visual perfection, but she longs to be out in the world experiencing life like other girls her age. In the world in which they live, that kind of freedom is ludicrous to even consider - she is sheltered from the evils of the world, but only if she remains inside the "tower" walls. When her walls of safety crumble, Quill's perfect life is snatched from her in the blink of an eye and life as she once knew it is gone in a flash.

Watching her acclimate to her "new life" was emotionally wrecking and exhausting, but well worth the journey.

PLAUSIBILITY contains a pseudo-incestuous theme. Julius and Quill were raised as siblings and ultimately end up having a relationship, but it's also important to know that they are not blood relatives. I like to bring up potential aspects of the story that may be a hard limit for some readers - if that kind of thing icks you out, then steer clear, but don't cheat yourself! The story is written so that it doesn't seem icky at all.

Ultimately, all you need to know here is that PLAUSIBILITY is a wonderful story. If you like to read romance novels that stray from the traditional sense of the word, then you are going to love author Jettie Woodruff's style - she is truly a fantastic story teller!

## KindleCousins says

I'm sorry if this review is a mixture of rambling , exclamation points and more rambling. #1 read of 2014!!!!!! I started this book and didn't put my kindle down until I finished. My eyes were burning, but I didn't care!!!! I have felt like I couldn't put books down before, but to actually read in one sitting, haven't done that in years.

When I started this book I thought I had it all figured out. Midway through my sample, I was like man this is cheese on wheels. But almost at the end of my kindle sample something connected and I purchased this book and GAWD am I glad. This story was amazing. Quill was a beautifully written character who I identified with in every aspect. When she was pissed, I was pissed, when she was happy, I was happy, when she was scared I was scared. Quill could do no wrong in my eyes, I stood by her side in every decision she made! Sweet Julius, I loved him. He was everything Quill thought he was! Forgiveness, family, love, betrayal, character development to die for, alpha male, and steamy scenes are what make this story so dang on good. But the writing was amazing. Idk how I will ever follow this book. I see another rut in my near future. This author has ruined me and I enjoyed every minute of it!

---

## Cristin says

[ 1. She didn't look like her father and brother..at all. To the point where even she questioned that she couldn't be related to them and 2. She lived a life of seclusion. Yes she w

---

## Georgia Cruz says

**Still taking it all in.. Holy. Freakin. Hotness!**

**HIGHLY RECOMMENDED FOR THOSE WHO LOVED ABDUCTED STORIES AND TABOOS.  
But this one is VERY DIFFERENT.**

It's not just the typical abducted american girl we all knew. It's NOT dark and mind fucking I thought it would be. It has the value of what a FAMILY is and how it is everything we ever wanted. The turning of events and how it was written is very good.

**I FUCKIN LOVED EVERY PAGE OF IT!**

The steam factor was so extreme that makes your panties in a twist! The love makin is raw and intense!

The only thing I'm disappointed is that half of the book does not include Julius' side of the story. It focuses more on Aquilla meeting and living in a new place/world she didn't know exist. It would be great if there are scenes from Julius when he got away from the feds.

Anyway, its still a badass story and it has the HEA I always wanted: a happy family.
