## Secret Meeting Jean Ure

Megan and Annie are bright 12-year-old girls, who are desperate to meet their favorite author, Harriet Chance. When Annie makes contact with Harriet's daughter via an Internet chat room, the girls are ecstatic. Lori helps them to arrange a secret meeting with Harriet, and the girls congratulate themselves on being so clever. But when they meet the author she's a bit strange. Why does Megan seem to know more about the author than she does herself? Why does Harriet seem so edgy? Is this really their favorite author, or are the girls in real trouble?

### Sumayyah says

This book was very funny. i rate it 2 because it wasn't really my type except for the comedy. Megan and Annie are two best friends who are dying to meet the favorite author. Harriet chance. but they are not allowed to go on chat rooms. one day they break their promise and go on the chat room to talk to their author. but as they decide to meet each other they realize something odd about her. she looks so different. is this her? or is it not? (they realize that this is not her it is another person acting like Harriet chance)

it was funny when they realized they got tricked by the fake Harriet chance.
