## **Tequila Sunrise: Breaking the Rules Terry Poca**

Becca Sanders hasn't dated since her ex-fiancée dumped her the night before their wedding. In fact, she's spent an entire year ignoring her libido quite nicely. When her three best friends challenge her to indulge in a one-night stand, Becca goes for it. But she regrets following the one-night stand rules when she can't forget the hot sizzling night she spent with the handsome, sweet stranger.

Until the day she comes face to face with the biggest dare of her life ...

Marcus Blake spent the last ten years as a New York advertising executive and is ready for a change of pace. After a memorable evening with an enchanting blonde, he awakens alone with only her first name to track her down.

Feisty best friends, an advertising executive's dream account, and the quest for true love, all collide to fashion a sassy, roller-coaster romance.

## **From Reader Review Tequila Sunrise: Breaking the Rules for online ebook**

### **Meda says**

This was a fun love story that caught me from the beginning. The character development of the hero and heroine was such that I could imagine them being real people. I was rooting for them the whole way through. It was a tense ride but worth it in the end.

### **Maria McMahon says**

#### **Enjoyable read**

I found myself liking the characters as the book went on...so much so that after I finished reading the teaser for the "Trudi" story I wanted to go buy it but then this review popped up. Granted, I found myself speed reading through a few sections, but I generally enjoyed the read. I found myself laughing out loud at certain points. I'm ready for my next installment of the "Tequila Series".

---

### **Noelle Pierce says**

This is a great debut from Terry Poca, and I look forward to reading the rest of the series! The friendship between the four women was reminiscent of the friendships I had in college, and the mentality of having "rules" about one-night stands made it seem like the author had been in my circle years ago. The characterizations were great, and I really liked the twists the author put in at Becca's job. The sexual tension between Becca and Marcus was palpable.

Move over, Sex and the City. The Tequila series is bringing you Southern sass and all it's heat!

---

### **Jennifer says**

This was the first book that I have read by this author. Very easy reading, and didn't want to put it down. Lovable characters that you can relate to from the start. Looking forward to reading the remainder of the series.

---

### **Elisha Snell says**

I loved it, refreshing like the drink can't wait to read the next book!

---

### **Judy says**

Fun story if not very believable. The female lead is incredibly insecure but you still want to root for her.

---

### **Audrey says**

It's very SATC and I love that about their friendship.

It started great and promising though later on its more dragging and ended up with heroine too wishy washy and always on the run. I enjoyed the story but I feel like its lack of characters depth and build up.

Their connection is great. She's too naive as someone so smart and that's a slight eye roller moment for me. But I feel like I know more about their friendship and their project than her as a heroine or him as the hero.

It's a nice light read but that's about it. Enjoyable though. I really enjoy that.

---

### **Pernette says**

Light entertaining chick-lit. When Becca's love life becomes non-existent her friends encourage her to do something brash that she has never done before. However, this has lasting consequences and affects not only her personal life but her professional life as well. Enjoyed this book and will probably read the rest of the Tequila series.

### **Kelly Willcoxbrackeen says**

#### **Three and a half stars**

Cute book that I enjoyed reading. The two main characters had some silly misunderstandings, but what a sexy relationship. There are some hot scenes in this book where there isn't sex happening or not described word for word. Sometimes I find those scenes sexier. I didn't care for the female character that much. Frankly, her lack of confidence, selfishness, and constant assumptions are irritating. The male character is perfect though. Yummy. The editing needs help. I still would recommend this book to others that enjoy a cute, one-night-stand turned office romance. Keep on enjoying the reading my fellow bookworms.

### **Traci says**

Too predictable...

The storyline could have been good, but there were a lot of sub-points that I saw a mile away. Also, Becca got real old, real fast with her insecurities. How many times does the man have to tell you he's not with his ex for you to believe him? Oh, well 90% of the way through the book, you get the idea. And, she just HAPPENS to be the model for the lingerie shoot and she just HAPPENS to be exactly what the designer is looking for... eh. Also, I thought the friends, Trudy, Celeste, and Patrice, were jerks during some parts of the book - chewing out Becca because she broke a rule or didn't answer a text, or didn't tell them every. single. detail of her life.

Eh. Glad it was free.

### **Breelynne says**

Do yourself a favor, if you really feel the need to read this book, stop by page 42 & save the other 3 hours of your life for something more important. The rest is just words on paper (or screen). Seriously, if I had this in paper form, I'd use it as toilet paper. The best part of this book for me was page 450, where at least you get the recipe for the drink of which this book was named after. So that's what I'm taking away from this experience, TP & a drink recipe...
