I think it is a good idea to buy a travel guide before going on a city break regardless of how much you actually use it when you are there.. It makes a statement to yourself that you will be prepared and want to maximise your few days. I think it also helps lead to other research online and means you can pay more attention to some of the details when you are actually there.

Overall I liked Top 10. It gave me a good feel for where I had to visit and of the layout of the city. The advice on public transport was spot on and verified by the owner of the apartment we stayed in.

On the flip side I do find guides can never be quite as good as you'd love them to be and this was no exception. Prague has a no loud music at street level policy that makes the center a place for everyone even late at night which is great but there was no mention of this in the guide and it made lively pubs difficult to find in the old town.

Splitting the city by area was a good idea but the distances between their suggestions could be quite a walk meaning you were back to pot luck.

Brilliant travel guide!!

A useful and informative guidebook. As I've said before I personally find the "Eyewitness Travel" series of guidebooks compact, easy to carry and easy to read. The Prague guide has an excellent map (in a separate pocket so that you can carry it in your bag with or without the guidebook), wonderful walking tour suggestions, great history sections and lovely illustrations. A must for anyone planning a trip to Prague.

It could have been organized a bit better; the redundancies are irritating.

Util, sper.

Depasit, pe alocuri, inexact in unele aspecte care nu depind de timp - trist.

I absolutley love the DK Eyewitness travel guides. Especially the new smaller "Top Ten" series. This was packed full of info, in a smaller size than the usual guide book. It gave me all the info I need for my upcoming trip to Prague!
