A must read for all the Bangladeshis. The book summarizes and analyzes the diplomatic steps taken by the government of Bangladesh during the liberation war. It portrays the nature and conjuring of the relationship with India and India's role in the war. The readers will get a clear picture of what the government did and why they did so. Despite the combined efforts of US and China on Pakistan's side, the way Tajuddin Ahmed led the war stricken country to independence - is something to be proud of. The book isn't an easy read. But every minute spent reading the book is very much worth it.

First thing first, this book is easily one of the most enjoyable and enlightening books I've read on the 1971's Bangaldesh. The writer Moydul Hasan was one of the close associates of Tajuddin Ahmed during his struggle to keep afloat this tiny nation during the war. From his position he was able to explain various kinds of interaction about both the international factions and internal parties. And if anything else during the last 3 months of the war, the level of geo-politics involved in this small country's war would surely put you at the edge of the seat.

The writer covers incidents he was personally involved in from 25th March, 1971 to 10th January, 1972. The level of reference(not just links but actual documents) provided at the end of book helps to establish the credibility. Due to his approach of narrating only the incidents he was personally involved, the pacing was smooth, but two aspects of the war left pretty much unattended: the struggle of civilians during the war, the oppression of Pakistani army on them and the tale of freedom fighters across the country. But there are other book for them. This one feels like the best book one can pick up to read about the fight Bangladesh had to do in the hostile political and diplomatic landscape during 1971.
