Maine Heather White

This 11,000 word story contains explicit sexual content and is intended for mature audiences only.

Corey and Christine lead an average life on the outside. Christine is a stay-at-home wife, and Corey works as a divorce lawyer in Maine. In their home, though, life is anything but average with wild, hot, kinky sex, driven by the insatiable lustful desires of Christine.

Then, one day, Corey walks into work and his life takes a complete twist. What had been a normal, middle-class lifestyle for Corey will soon turn into something much kinkier—so kinky, in fact, it takes place all over the United States!

In this short story, part of the larger “State of Sin” series, Corey and Christine will have rough sex, vengeful sex and begin their 50-state journey exploring their country and each other!

From Reader Review Maine for online ebook

Ray says

It was well written. It had believable characters and the story line was fine. There just wasn't any heat. The state was dormant, not Maine. I didn't feel the intensity or the passion. I have adjusted expectations for things, but this wasn't reaching those either.

Hunter Willis says

Eh

It didn't suck but it wasn't great. Probably wouldn't read it again though. It really should have been a boxed set with every book in the series.

Meleka Taylor says

The first state was not appealing

This book was supposed to be a filler book to read for an hour or so and I got so bored I read other longer books. This book took me over a week to get back to.

I did not like any of the main characters. Corey is a divorce lawyer. He is 48. He is 18 years older than his wife. He is not exciting sexually. You know there is a problem when the man is not exciting in the bed. He is always trying to keep up with his vibrant wife. He is always thinking about divorce. He believes he will become a statistic. That thought of him being part of the 50% of marriages that won't survive is always at the back of his mind. That type of thinking puts a strain on a marriage. He wants to become more assertive in the bedroom. When he first met his wife he found that assertive part of her attractive, but since they have been together that part of her has dwarfed him and he feels like he doesn't contribute any excitement to the marriage. He just brings a job, house, money, and a car to the relationship; the unexcited part of it.

Christine seems like a lazy woman who has no ambition to get a real job. She wants to start an erotic book blog, but every time she starts it she gets distracted. It seems she is not serious about it. All she wants to do is have sex.

It comes to a point where Christine wants to have sex and try new things in the bedroom all the time and Corey not having the heart to tell her no. These things interfere with Corey's abilities at work. He gets fired. He is such a weak man that he blames this event happening to him because she wanted to have sex every morning. It makes him late so he can't prepare himself to take a shower and make sure his mind is in the right place. He is a wussy with a P. Christine did not force or control into him not cleaning himself to where he went to work smelling like sex and have the client notice he was not on his A game. He could have been a man and told her no. He is weak!!!! And again the word is WEAK.

While Corey is getting fired, Christine was thinking of ways to liberate Corey sexually. Sometimes he was a little boring in the bedroom. While reading about a friend and her husband going on a nationwide trip. She thought about taking Corey on a trip to all fifty states. She thought about a sex-filled cross country trip.

After getting fired Corey comes home in a rage and decides to "punish" his wife sexually. He is determined to control her and make her do what he wants. The sex would be for him and not for her in any way. While she resists him in his commands she is controlling him every part of the way in her "punishment". After the deed they discuss their options and they agree to go on this trip. They will travel the United States in a year.

If this book was an appetizer then I am not looking forward to any of the main course. This wasn't anything exciting or interesting. What adventure are they going to have in these fifty states that haven't been done before? The couple agreed to do something different sexually and more exciting than what they did in the previous state. That seems impossible to me and I don't have an inkling of desire to see if the author comes up with anything. It's not worth the reading time.

State Of Sin

This book was ok, there's not much to it. It was not all that is hoped it would be. It's a quick read and good for someone on a lunch break.

Mason Hawk says

Review based off a free copy. As an opening to a series I thought it could have used more hook. Was getting bored with too much job info that basically could have been shorter and got the same point across. As erotica it was alright but could have used less work info and more character backstory and maybe a hint at something to be resolved as they begin their journey into book 2

Lisa says

Latonya . says

Great great read...

This was a very good read.. From beginning to the end..wish I could just go on a long road trip.

Angela says

If it was so ray

A nice little story to live a fantasy life one. Would be nice to try such an endeavor as to go to all 50 states

Jamie says

Nice quick read. Nothing to crazy though. Hopefully the next book will get a little more kinky;)
