Omg of course you get 5 stars...

You deserve nothing less. Your books are the cats pajamas, the bees knees and everything in between. Keep 'em coming, babe.

Roslyn Donohoe says

A wonderful series.

I knew I had read the first of this series but didn't remember if I'd read anymore. When I saw the whole bundle on Kindle Unlimited I grabbed it and read the whole series in order. Best way to read a series I think. I loved it. Celia Kyle is a fantastic author. And I loved Maya's snarky comments at the beginning of each chapter. A great author with a great series.

Renee Rearden says

Ridgeville Shifters...yes, please!

Shifters are my reading crack. Every once in awhile an author comes along and gives me (all right, everyone) a new world filled with hot Hot HOT alpha men and beautifully strong, snarky, all-too-human women. Makes me want to move to Ridgeville just to hang with my new friends where we can all cry, laugh and love each other the way real family is supposed to.

Funny and Yummy

3.5 stars

Celia Kyle jumps starts her Ridgeville series with lots of steam and action and the momentum continues through the series. It's a fun romp through the woods with lots of hunky shifters and their sassy Mates, as in "one and only". Steamy, entertaining and funny.

Bookish says

So this was an ok read for me. I will stipulate that this is directly related to the fact the first books /h Maya annoyed me to no end. I found her presence throughout the series to be off putting and a reason it required reading breaks while finishing this book. If you like her character you will probably enjoy this series. Plenty of smutty were animal shenanigans.

I have read many books by the author however this was the first paranormal read.

Awesome series

I enjoyed every single book in this series. There were times that the characters' antics would leave laughing. Other times I was in tears. There was never a dull moment. I recommend this series of books all readers that believe in heroes and above all people that can overcome even the worst life can throw at them and still find and accept love.

OMG - all 10 books in one long wonderful book! YES!!!

I have read all of these books individually and for them to be put into 1 book is a wonderful thing. This way you don't have to put it down and wait for the next wonderful story to be published.

Amazing

If you like your books with spice, this one is for you! If you love snarky humor, this series has you covered! OMG! I can't even choose which couple I liked best. I have a new favorite author. It was seriously good from beginning to end. If you like Evanovich, Celia Kyle has you covered in the shifter world. Amazing!

Miranda Whore says

Let the fur fly..

This series is great if you like growly, snarly weres and their equally fierce mates.

It's hard to review a boxed set and give every book its due, so I'm just going to generalize. Overall, the books are really good. The ongoing storyline of Freedom is interesting, definitely keeps you rooting for the good guys and snarling for the bad guys blood.

My only complaint is Maya, the Prima, started out hilarious and crazy in a lovable kind of way, but by the end of the series, I was more than annoyed by her. She plays at least a small part in all the books and I found myself wishing she'd just go away.

If you like paranormal books with shifters, this is a great one for you. Tigers, lions, foxes, bunnies, wolves, squirrels, hedgehogs, and bears, oh my!

Four stars and four wet panties.
