Miami Hush Club: Episode 4 Michelle Warren

I always believed that girls like me didn't find happily-ever-afters.
But despite my sordid past and personal demons,
the Miami Hush Club promised to make my every fantasy a reality.

With a membership,
they could gift me my dream job,
dream car, dream house,
and the perfect life for me and my little family.
They easily sucked me into the madness and twisted me inside out,
caging me until I didn't know right from wrong.

The steep price of entry?

My darkest secret.

There's only one problem.
Some secrets destroy.
Some crush.
Some fragment.
Some even endanger the ones I love,
and the one man I never imagined I would.
Because some secrets, when shared, give power.
And power is a dangerous thing.
Especially when the one pulling my strings, playing god,
has the terrifying means to destroy me.

And worst of all, after I've given my secret away,
I find the only thing that's left is my wrecked and tortured soul.
But guess what?
Nothing's safe.
The club can take that too.

5 Stars!

I will tell you now that this review will contain no spoilers and will contain no information from the plot. This book is so intense and mind-bending you need to go in with no prior information. I promise you it will make this book series experience totally worth it.

What a ride! This is a HOT new series that is full of mind-bending twists and turns with enough steam to light your kindle on fire. I have never read a book or series that this one. It's originality along with its suspenseful plot will have you begging for more until the very end.

This is it for Nic and Vega. ALL of your questions will be answered. All of the secrets will be revealed. Miami Hush Club and some of its members will be laid bare. Can you handle it?

This book needs awards for best plot twist ever. I promise you can guess until you are BLUE in the face but you will never get the answers to the secrets until you are allowed. This series was crazy, crazy good! I loved Vega! I loved Nic!

I am excited for the next part of this series with other characters... should be interesting.

I highly recommend this series!

I did not expect that. I got all my questions answered from the other books. This is a very interesting story, I just feel like there could be more. It's hard to explain without spoilers. Otherwise it was good and different.

Shelley (Bella) says

Whoa! Whoa! Whoa! Mind. Effing. BLOWN. I did not in any way see what was coming. And I'm one of those that usually knows where the story is gonna go. Nope, not even. Just when I thought I had it all figured out... BAM! Another turn, another twist, and another potential threat. The more Nic discovered, plotted, and planned, the more dangerous her world became. And as she dreamed of love, a HEA, and the safety of her family, there was always something to turn those dreams into another nightmare.

This is an emotionally and morally difficult story, but it is so well told. Michelle didn't shy away from the darker path her characters took her down. Instead, she dug deeper let them reveal themselves as some of the most wickedly entralling, dangerously charming, corrupt, and downright disturbing characters I've had the pleasure of devouring in quite some time. And devour, I did. I was all in. No matter how twisted Nic's world

became, like her, I couldn't help but be drawn to Vega and all the cloak and dagger secrecy of the club. And yet as I consumed every word, dissected every scene, questioned every character, the outcome was completely unexpected. And absolutely brilliant.

Without giving anything away, this finale blew my mind and made me want to read it all over again. There was a bit of a soap opera feel to it and all of the dramatics kind of detracted from it at times. It's really out there at times!

Rachel says

Wow, loved this conclusion! The twist was so unexpected to me, and I love when that happens. I was intrigued and loved the layers to Casper, Alex and Nic. They are complex, tortured, flawed, and strong. I was intrigued by them, especially Nic. I am so glad to have read this series. I was enthralled from series 1 to the very beginning.

Shannon says

The last and final part was the best! Right from the get go it was exciting and revealed a part of the mystery of the club. We got to have all the secrets laid out and finally got to find out who was behind the Miami Hush Club and let me tell you it was not easy to guess. I probably guessed it like a page before it happened. For the longest time I was convinced it was a certain person but the previous part dismissed that. And when all the secrets were being revealed I had so many thoughts running through my head trying to figure it out before it was spelled out. I don't know why I tried because I was blown away. Michelle did such a great job of giving you just enough throughout the whole series to keep you guessing but not enough to make it obvious and I loved that. I like to think I'm pretty good at figuring out twists in stories but this one was totally unexpected for me. I do wonder if I had figured it out earlier if I still would have enjoyed it as much and I think I still would have because there was so much that was going on that some of the biggest reveals were just a portion of the overall picture. The one thing I do wish was slightly different was the ending. I was kind of hoping for something a little different. The ending given was good but I was hoping for it to focus on a different part of the overall story. With that said, I still loved this part and how everything came together. I

love me a good suspense and mystery and this one definitely lived up to it. It was definitely a great read and I am so glad I got to read it back to back. I think I would have died having to wait to read each part haha.

Colleen Oppenheim says

Miami Hush Club exceeded every expectation that I had for it. Actually, it blew me away. From the blurb, there is not much to know about the book, but the covers completely drew me in. They are beautiful, artistic, and a little bit naughty, much like the books.

Michelle has done an amazing job with the story of sisters Nic and Alex. Nic is the nice girl with a naughty side, who took a ride with the devil and lost her way. She has paid her penance and is now looking for a better life for herself and her son. Alex is a queen bitch who does almost anything to undermine her sister. Bitter and ruthless, Alex is so easy to hate.

Miami Hush Club is original, sexy, and will leave you breathless. Each book in the serial is better than the next. There are major twists and turns that will keep you on the edge of your seat. If I could give it more than 5 stars, I would.

*These books were given to me for a fair and honest review

ARC Review: Miami Hush Club by Michelle Warren

Michelle Warren is very dear and nice young author on the rise. She already has several titles behind her but this is her first book that I had the opportunity to read. I noticed her in the mid of last year when I launched the blog because I only then began to actively follow other bloggers. Then she published her fourth book in the world; He + She. So far I have not read it even though I have to admit that I have ebook. Michelle attracted me one hundred percent with her mysterious Miami Hush Club. It is needless to mention that it threw me to my knees when I saw that gorgeous covers and you all know how I suffer for stunning covers and that I'm especially weak on such books. And we all know that a beautiful cover does not always mean a good book, but in this case, I take my hat off and bow down. Michelle has done a great job.

As you can see, the books have not yet come out all the way but I had the honor to receive ARCs of it from the author and I devoured them in four days. I was reading almost every spare minute I had. I couldn't write a decent review for any of them because I had to move on to next because anticipation would kill me xD

Here is a brief description of the book:

I always believed that girls like me didn't find happily-ever-afters.
But despite my sordid past and personal demons,
the Miami Hush Club promised to make my every fantasy a reality.

With a membership,
they could gift me my dream job,
dream car, dream house,
and the perfect life for me and my little family.
They easily sucked me into the madness and twisted me inside out,
caging me until I didn't know right from wrong.

The steep price of entry?
My darkest secret.

There's only one problem.
Some secrets destroy.
Some crush.
Some fragment.
Some even endanger the ones I love,
and the one man I never imagined I would.
Because some secrets, when shared, give power.
And power is a dangerous thing.
Especially when the one pulling my strings, playing god,
has the terrifying means to destroy me.

And worst of all, after I've given my secret away,
I find the only thing that's left is my wrecked and tortured soul.
But guess what?
Nothing's safe.

The club can take that too.

Are you interested now? Even though it was not too revealing, this mysterious description immediately attracts and you know that you must read this book. I'm very lucky, I got a book to review, and so went on another adventure that books provide us :)

Nic is female character who is great characterized from the beginning to the very end of the book. She struggles with her past and her personal demons. She is determined and clever, and her priority is her family. She never dreamed that in her life she could find someone special, although this is not a romance novel on which we've all accustomed, there is romance and sex in the book. So this is not a book for everyone as the author herself emphasized at the beginning of the story.

The plot revolves around her past and what consequences it has in the present and how our past interferes with each core of our existence. Of course, the past is what ultimately defined us and created the person we are today.

Although I would like to discover more, this review must remain spoiler free so I will not reveal what happens. The characters are well characterized, and the story itself is so interesting that it drew you from the first words. Admittedly, I was encased before I stepped into the story as the author tells us: "Before I started,

I knew the plot points of this story, but I didn't know what the souls of these characters would be composed of. Good or bad, I let them tell me who they were as I wrote. And what I discovered was that with their imperfect lives, they preferred to be dark and twisted." She won me immediately. Although the author is the one that controls the characters he writes about, only few of them embark on the adventure and let the characters speak for themselves and they are not modeled as characters but author treats them as real live persons.

I hope that I interested you in these books. One thing is certain and that is that I one hundred percent enjoyed every word I read and that I highly recommend these titles! From me, this is a five stars review. :)

Along the way, you can throw a look on the book blitz giveaway to celebrate the release of Miami Hush Club here on my blog :)

Whoa!! That ending was NOT what I was expecting!! But, that is what is so great about a book. You think it is gonna go one way and then BAM! You're completely blindsided and I loved that! Glad Michelle went back to the story she originally wrote. Looking forward to what's next with the awesome sneak peek at the end of the book....

Miami Hush Club Volume 4

4.5 Stars

WOW!!! I don't even know where to start. I had to take a day to write my review because this volume blew my mind and I had to collect my thoughts. We learn EVERYTHING, even things you will not expect. HOLY CRAZY PLOT TWIST!! Secrets get revealed and how the Miami Hush Club was created become known. When they are my thoughts were, What the fudge (censored) just happened and holy sh*t did that just happen? I had to re-read the paragraph twice to make sure I was reading it correctly. The secret that was revealed changed the whole story it was crazy and unexpected. Whatever ideas or guesses as to what was going on you had, they won't be correct. I thought for sure I knew what was going on, but I was so wrong.

This is such a good story and I loved that it was in Serial format. You get bits and pieces and just enough to keep you coming back for more. The story is not left unopened BUT there could definitely be more added. If you love a book that's a little dark with hot sex, a touch of taboo, and that keeps you guessing until the very end then you need to visit the Miami Hush Club, it's an experience you won't forget!!

Sandra Stroh says

Nic is completely in kick ass mode, focused on her mission, no one is getting in her way, or if you do she will stop at nothing to take you down. Revenge is sweet. Nic needs to secure her family's safety, her son's health and that his medicine will continue, and she wants her company back.

Casper has proved he loves her, is willing to do anything to have her, he's made sure she came back to Miami, had the internship at Z news, the membership to the club, a new car, fancy clothes. He's been keeping the son he thinks is his healthy, all under his control, at his price. He wants the company they shared back by knocking the Grand Master out of his or her seat with their secret, to have everyone's secrets, to run the Miami Hush Club, and have Nic right by his side.

Everyone's secrets are revealed... Everything I suspected from episode one till now, I never would of guessed the outcome.

What a great ending to the final episode of the MHC... I loved this series; I read each episode as fast as possible when they all came out... Did you catch that teaser at the end looks like we will be seeing more of Nicolette and Alexandra and I just can't wait <3

Felicia says

Well... I definitely did NOT see that coming! All the secrets were revealed and I'm still not exactly sure how I feel about it.

On one hand:

But on the other I feel like Michelle Warren deserves:

Overall, I really enjoyed the series and can't wait to read more from the author!

What a delicious mind fuck!
