Midnight Star

Catherine Coulter

Midnight Star Catherine Coulter

She fought brazenly against his manly strength and power...but when her lips touched his in a stormy, rapturous kiss, the fire of her desire could no longer be denied... Young British heiress Chauncey FitzHugh held out her arms to the man she had come to San Francisco to ruin... as he had financially ruined her father back in 1850. Chauncey vowed to destroy Delaney in the cruellest way a beautiful woman could. Making him love her would be the best revenge. She flirted with him, aroused him, enticed him to marry her.

But now Delaney demanded a husband's rights. His lips softly covered hers, his hands explored her satiny-smooth body, finding it moist, warm, inviting. Chauncey had plotted to reject his fiery advances, but even as her mind commanded resistance, her desire exploded. With fingers curled into his hair, she pulled him to her... tenderly whispering the name of this man she had sworn to hate... praying she'd have enough strength to betray this handsome rogue tomorrow....

Nancy says

An hour into this and not feeling it yet. Might go back . Went back, 60% in and giving up. Male lead had terrible voice from narrator. This might be why I don't like him, or it could be that he is still visiting his Mistress. Just making me irritated.

Mandy Crane says

Loved this book it took me to another place and I thought I was the character.

Dawn says

She fought brazenly against his manly strength and power...but when her lips touched his in a stormy, rapturous kiss, the fire of her desire could no longer be denied... Young British heiress Chauncey FitzHugh held out her arms to the man she had come to San Francisco to ruin... as he had financially ruined her father back in 1850.

Luckngrace says

I have collected most of Catherine Coulter's books because she is my very favorite romance writer. Her stories are deeper and more imaginative than most and don't drown the reader in excessive sex scenes.

Brittany says

I really like it. (: It is vert interesting.

Diane Wachter says

Midnight Star, Star Series Bk 2, Catherine Coulter, HB-B @ 1986, 5/02. English Heiress Chauncy Fitzhugh travels to San Fran to take revenge on Delaney Saston, the man she believes is responsible for her fathers death. Same old, same old.

Diana says

Chauncey finds herself penniless after her father kills himself, unable to deal with the financial ruin caused by a swindling Delaney Saxton. After a turn in fortune, she vows to completely and utterly ruin Delaney--even if she has to marry him to do it.

For a book based upon the premise of revenge, this is quite boring. Chauncey basically simpers for the whole book and never does ANYTHING in revenge--not even a tiny "too much salt in a dinner" type of vengeance. For someone who swore to bring retribution upon Delaney's head, she is utterly inept at the whole vengeance business. Delaney just obliviously sails through, overcome by lust. When the whole scheme is unveiled, he overreacts and turns ice cold, only to later see the light (driven of course, by a well-timed kidnapping). It sounds like I had a really negative reaction to this book, but it wasn't that bad. It just didn't live up to the premise and seemed very tepid plot-wise.

? BookAddict ↗ La Crimson Femme says

I read this book first in the Star Series. This is an enjoyable mind candy book. Chauncey (which I thought was a male name) is out for revenge on Delaney (which is a female name to me). This was fun read as Chauncey's plans to destroy Delaney go awry and she ends up falling for him.

This book is easily read in one sitting. Ms. Coulter delivers another enjoyable HEA read.

Annette Meier says

Another history lesson and a glimpse st another exciting locale! I am really enjoying this series.

Katy says

A young English heiress sets out to destroy the man who caused her father to commit suicide, but things change.

What confuses me: Whenever you have lied about something that goes beyond trust, even inadvertently, how do you expect someone to forget it?

Sarah says

Finally got the story of how Saint became Saint, as well as his actual name. It was a good story!! Loved it!

Eymol says

I really enjoyed this book and though I never was at the edge of my seat, It was the style of the writing really got me hooked. I loved how the turning point events seemed sort of glossed over and didn't go into too much dramatization. The focus was more on the individuals and their relationships, rather than what they did exactly.

Nancy says

Very good easy reading book - rather explicit in the sexual part but the story of the book was very good.

Sarah says

An heiress from England comes to San Francisco to ruin the man she thinks destroyed her father—only to wind up in his care and in his bed.

The actual synopsis from Amazon.com.

I agree. Suits it completely.

SO love this book.

I had a much longer, well-thought-out, planned review, but Goodreads has the plotlines for the books all messed up, and out of order. Like seriously bad. :O

So, this is all there is.
