Vinton Bayne says

That was the best issue of this whole run! It feels like a wonderful start to a new arc, but no, it's the final issue to a cancelled title... *pouts*

Brandon St Mark says

An amazing finale. I am really sad to see this title go, especially with how this issue ended. Marvel needs to, in the great words of TS Madison, step their pussy's up and quit cancelling all of the good books just to replace them with shitty cross overs.

Nicky says

I'm really going to miss this superb run.

Kait says

I love this cover! I felt like I missed something at the beginning of the story, but that was cleared up quickly. I like the new side character and the changes in Jen's personal life. It ends on a note of hope and growth.

Cristy Rey says

It's so bittersweet that this run has ended. But it ends on a high, really relevant, really special note: There IS a high road, but that road isn't without its total ass-kicking possibilities.
