**Stripped** C.A. Harms

**\*\*Mature Content Warning\*\*** Recommended for ages 17+ due to language and sexual content.

**At twenty years old Kylie finds herself in a situation she never could've imagined...**

She was abandoned by her husband with their five month old baby and a mountain of debt.

She's forced to look for a job, but as a high school drop-out her choices are limited.

**Kylie had no choice but to become a stripper...**

While working one night, Kylie feels a connection with a handsome stranger.

When she runs into him the next day, he asks to take her out, but she knows she doesn't belong in his perfect world.

The problem is, Evan can't seem to get the sexy stripper out of his mind.

He knows she doesn't belong there and something about her makes him feel alive. But when her past comes knocking, his trust issues cause him to run.

**Will Kylies past continue to sabotage her? Or will she be able to break free once and for all?**

## **From Reader Review Stripped for online ebook**

### **Janice says**

Wow. I was given a copy of this book for an honest review, so here we go...!

I couldn't put this book down! I've never read anything from this author before, so I had no idea what to expect. She had me thoroughly invested in this book from the first page. This story was so gripping and addicting... I couldn't get enough! The characters are so real and believable it actually takes you apart.

Kylie had my sympathy in the beginning, and with every turn of the page, my respect and love for her just kept growing. I absolutely put Evan up on a shiny pedestal. What an amazing (and sexy) man! I loved this story from very beginning to very end.

Congratulations to C. A. Harms for writing such a fantastic read! 6 stars!

---

### **Renee says**

3.5 stars- this was a quick read for me. I really liked how strong Kylie's character was. Evan was just hot and sexy. The story had it all- sexy scenes, drama and humor. What else could you ask for?

I look forward to reading more from this author.

---

### **A Novel Love says**

I enjoyed this book, and it was a pretty easy read. I think that Kylie did what she felt she had to do when she started stripping. I liked that when she and Brad got pregnant that they got married. Her parents did not approve of her choices, and as such she felt she could not turn to them when the going got tough. So she did what she felt she could to support her daughter and herself. I hated that Brad left and did not just walk away, and that she did not at some point just file for abandonment of their marriage, but I also feel like she was young and without any guidance in her life she may not have known that might have been available to her. She meets Evan one night while stripping. He is good looking, rich, and as they start dating is good to her daughter, which are all pluses in my book. I hated that she was not honest from the beginning about where she was at in her marriage. Evan and Kylie have some great chemistry and there are some hot scenes in the book. I liked where they were going until they started to fight about things. Every couple has misunderstandings and they fight. What drove me nuts about Kylie and Evan was that they would walk out on each other, and not resolve their issues. I had to remind myself several times that she is young, but Evan was a bit older. It stands to reason that she had a good home life as a child and probably did not witness all this push and pull, so I just did not understand it. There are plenty of other detractors for this couple - His family, Brad coming back, her marriage, that I felt them never being a strong united front was more damaging at times to their relationship.

Overall I like this book, and think that you will as well. I was given a copy to review, but also purchased it.

---

### **Red Cheeks Reads says**

Aww! I thought this book was so good! Kylie was a single mom when her husband Brad just up and left and

left her with no explanation, no money and a pile of bills. She had 98 dollars to her name and a baby. She knew that the only way to improve her situation was to find a job and find one fast. So she decided to be a Stripper. She met HAWT ass Evan one night while stripping and her world began to change although she tried to fight it. This was a easy read and a new author for me. I really enjoyed this book. I loved the relationship between Evan and Kylie although sometimes I wanted to smack Kylie because she was so worried about what others thought about her and her job that she kept running away from the one person that truly loved her so much.. Evan. This is a HEA and is a stand alone book. This book is for mature readers and has some hot love scenes = )

5 smooches!

Tricia

---

### **Tbird London says**

I really enjoyed this book. It was rather original for me, as I couldn't really think of any other book I had read that reminded me of this story plot. Kylie gave up her whole future as a teenager for a man. She thought she knew what love was and she quit high school and got pregnant and married him. She lost her parents in this decision as she felt she knew what was better for her than they did. Later she finds herself alone with just her infant daughter. Brad had taken off with no explanation, left no money for her and Kylie ended up having to lose everything.

The only way to keep a roof over her head and food to feed her daughter was to work at a cafe by day and become a stripper by night. She was humiliated that her life had come to this but what was a young mother with no education suppose to do. One night while dancing on stage the shame was so heavy she focused on a man in the front row. She shut the world out and danced for only him. Never assuming she would ever see him again she was shocked to learn he paid big money for a lap dance from only her.

Evan, a successful business man who works with his father has never been allowed to make his own choices in life. His parents have picked out the woman he was to marry, the career he was to have and every decision he made had to be approved by his parents. That was until he saw something in Kylie that made him stop and rethink the direction his life was going. He felt for Kylie and saw past the stripper routine, he knew she didn't belong on that stage.

They get to know each other and he falls for her little girl and of course we can't have the ex husband stay out of things. It begins the roller coaster ride. Parents not willing to accept Kylie and Evan together, parents dying. Old lovers who want what they think is theirs, past hurts that keep getting reopened at every turn.

I loved how the author kept this story based in a realistic way, events that we could actually see happening, some of which have happen to a lot of readers. It broke my heart at times to see them suffering, made me laugh at some of the crazy things Evan did to try to get Kylie to just give him a chance. I adored Kylie for always putting the needs of her daughter first, even when her body was screaming for Evan's touch and for love.

The book was hard to put down, just when they would overcome one obstacle another person would decide that they should control the lives of others. In the last half of the book when the shocker moment came, I was so giddy because Karma had finally been served and the truth had been exposed. Evan's parents made me so

angry when they didn't support their son when he told them of a fact that shattered his heart and left him feeling empty for years. Evan and Kylie proved what true love and trust could accomplish in a world of selfishness and jealousy. I am looking forward to reading more from this author

---

### **Samaris Creech says**

Kylie has no idea what to do. Her husband has abandoned her and their little girl and left a mountain of debt in his wake. How will she provide for them? With no other choices left to her she takes a job stripping and hates every minute of it and the way it makes her feel but as long as she can take care of her daughter that is all she cares about. One night she is dancing and sees the most gorgeous set of blue eyes looking at her from the crowd. Instantly she starts to feel things she thought were long dead and buried within her.

Evan knows the minute he lays eyes on Kylie that she is going to change his life. He just has no idea how much. Being with Kylie makes him realize all that he has been missing out on in life by burying himself in work. He only wants to make her happy and take care of her and Emma they bring him so much joy. Too bad he keeps messing it up. His parents do not approve of Kylie and keep trying to push his ex on him. When he finally stands up to them let's just say WOW.

This story is by no means full of just happy times. It has some pretty rough scenes and some great ones as well. The things that Kylie and Evan have to work through in order to finally have their happily ever after will keep you on a roller coaster ride of emotions.

---

### **Toni says**

Best book written by C A Harms yet. The story follows Kylie who has been abandoned by her husband, leaving her to fend for herself and her young daughter. She struggles to make ends meet and takes a job dancing in a strip club. This is where she meets successful and sexy businessman Evan. He can't get Kylie out of his mind and he soon starts to build a relationship with Kylie and her daughter, Kylie being independent doesn't want handouts though. Evan then realises there is more to life than work and his feelings for "his girls" grows. The couple have a to deal with jealousy, their pasts and other people interfering, will they survive, what emotional rollercoaster will they ride together ? A must read.

### **Gia says**

Eurghh... am I a party pooper or am I a party pooper. I am neither, I'm here to share my personal honest review. Woohoo....

Too much tears. Too much fucking tears.. aaarghhh I cannot handle it. She must've cried an ocean. Every fucking thing this woman had tears.. Kylie the f\*ck. She cried at every thing.

I did not connect with the characters at all..it didn't leave me hot and bothered either. Just too much tears..eurghh not from me..from Kylie. Too much tears Kylie.. surprised you ain't drowning in it. On the plus side I did love that she put her daughter above all else. For that I salute her. As for the rest...pffft.. it's the tears..too much tears Kylie. I don't mine the drama. But darn the tears..forever the tears.

How old were these characters. It's like teenage love..break up..make up..one second later..break up..make up.They were constantly walking away from each other.Bitches get your acts together and grow some golden balls.Eurghh..super irritating. They forever say "I love you..forever..I'll never leave you..don't give up on us..bla bla de bla bla"...one second later one of them walks away...gahhh madness. Really, I just couldn't understand this nonsense.. too much nonsense. And neither runs after the other, non really make the effort.

That's it!

Thank you... ha!

---

## **Angela Deforge says**

What would you do if your husband ran off with everything, leaving you with no education, no job and a baby to support and bring up on your own?? That's what happened to 20 year old Kylie and to top it all of her husband hasn't been paying anything for the last 3 months. Faced with losing everything and being evicted, she pulled herself together and did what she had to do to survive....strip.

Kylie hated every moment of it, she felt dirty and cheap but to look after her daughter she would walk through hell and back again. Never did she think that one night when she went on stage as "Kitty" that her eyes would meet a man that sparked feelings that she hadn't allowed nor wanted for a man in over a year. Evan was out with some coworkers at a local club and couldn't believe the beauty that he saw grace the stage that night. Needing to find out about her he buys a private dance but Kylie takes what he says wrong and ends the dance before he could find out her name, but fate had other ideas when he went out for lunch and found her working at the diner he went to. He learned her name that day and was determined to get to know her no matter what.

"I'll wait until you're ready to let me in again, and when you do you won't remember what it felt like to be heartbroken. I will make you happy; that's a promise."

Even though they come from very different world they come together but their love and relationship is tested time and time again. When Kylie's ex and daughters father comes back declaring his love and wanting to be a family again, Kylie's and Evan's happily ever after is in jeopardy.

"So much has happened over the last two years of my life, and when I met you I allowed myself to believe in happy endings. That was wrong of me, because happy endings don't exist for girls like me."

I loved this book; it's got everything I love! It's sexy, gritty and keeps you guessing who's happily ever after is really going to happen. I loved Kylie as a strong woman who refuses to put her and her daughter's happiness and future in the hands of any man. She pulled herself up from rock bottom and did it all on her own never once asking for help.

And Evan....(sorry swooned a lil thinking about him.) He is a man after my own heart. He knows what he wants in life and will move heaven and earth to get it. Yes he is a stubborn ass at times and can be a hot head but all is forgiven by me because well that man can be pretty persuasive with his words and actions.

"Hell, I'll admit it: I miss you insanely. I think I missed you before I even met you. If that seems crazy than I apologize, but it's true."

Who wouldn't want a man to be that crazy in love with you??

Miss.Harms has made a new fan with this book and I can't wait to read more of her work. So in the end if you're looking for a strong female who can give as good and she can take and one hell of a sweet talking , sexy man then this is defiantly a must read for you!!

---

## **Laura says**

This book had be hooked the whole time! I really loved it. It's about a young girl named Kylie who's husband just abandoned her & their five month old baby girl Emma, & the worst part? He left her with debt and she finds herself with no choice but to become a stripper After about a year of no news from brad she meets a guy, Evan, at the club and there's an instant connection. He sees that she doesn't belong there. Things progress between them but then other things happen you guys have to read! Really liked this book it was so cute especially with Emma. Some parts were cliché & corny but I love that kind of stuff lol so 5 stars for this one :)

---

## **Anny hernandez says**

I was provided a copy of the book by the Author for an honest review.

WOW I just finish reading this book, and I love it, love the characters, and love how the book turn out to be, I have to say that this book had me angry, crying, and laughing, and I love every single minute of it, their where so much drama going, I am gone keep this short since I don't want to give anything away.

The story begging with Kylie, she is twenty years old, she has a five month baby, and married, but their is one problem, her husband left her and the five month baby, he disappear she don't have no idea where he at, she don't have a high school diploma, and no work experience, that's why she end up looking for a job as a stripper, every night she gets onstage she do it thinking about her daughter Emma, she do it knowing that she needs to keep food and a roof over their heads, in the morning she works as waitress.

On one of her night shift she it was her turn to dance, the place was fill with business man, locals, and mans that needs to relax after a day of work, that's when she saw him seating with a group of business man, that was in town on a convention, when she started dancing she focus on him, she couldn't believe what she was feeling for the stranger, after her dance was over her boss when to her to tell her that she was chosen for a private dance, and she don't do private dance when they told her how much she decided to do it, but what she was not expecting was for the client to be him, that night she couldn't get him out of her head, the next morning while she was at the café, she was surprise to see him their, that's when she knew that his name was Evans and that their life was about to change.

I really love and enjoy reading this book, I love the chemistry that Kylie and Evan have with each other, I love the way how Evan treat her, love the way how he got attach to baby Emma, and how he call them his girls, I just love him even though sometime he got me mad, I love how Kylie is with him and how she start to trust in love again and love her attitude.

I just love this book, Author C.A. Harm THANK YOU for introducing me to this awesome characters and this amazing book love it.

---

## **Carol (StarAngel's Reviews) Allen says**

*Book provided by author in exchange for an honest review*

**\*\*\*\*4 HOT Stars!\*\*\*\***

This book was a light and quick read. I enjoyed the storyline and the HOT STEAMY man, **EVAN!!**

Oh yeah...Evan in this book was one sexy, romantic man (who still had a few flaws) but how he devoted his life to Kylie and Emma were just off the charts.

Kylie's husband, Brad, left her at age 19 with an infant. She had no idea where he was or when he may return. She had nothing and was forced to take a job as a stripper. About a year passes and one night during the show, she caught the eye of a beautiful stranger named Evan. Evan was immediately hooked and used his money and power to find her.

They go through so many obstacles in their romance, including, Evan finding out that Kylie is still married; Brad showing up and wanting to continue their marriage; Evan's old flame, Alexis, being a bitch; Evan's parents disapproving of their relationship; etc.

This book kept my attention throughout and didn't deter me from a few grammatical errors.

---

### **Carrie White says**

I was graciously given a copy to review.

This was a great, fast paced read for me!

Getting married to her high school sweat heart Brad and being a stay at home mother, young Kylie thought she had everything they both wanted. To become a family.

Until one morning everything changed in the blink of an eye.

Now being a jobless, single parent with no supporting family, Kylie's lost it all.

Decisions have to be made. Being forced to support her daughter and herself, to become the money maker, she works two jobs, one she's not proud of but where she meets Evan. He's a sexy wealthy stud with a heart of gold who'd give Kylie the world if she'd let him and he also treats her daughter as his own!! They start off slow to serious rather quickly but they make an adorable couple.

They both have insecurities, it's a boat load full of drama- from meeting a super jealous, obsessive ex to having a spouse return unexpectedly after a long absence. Meeting the parents- what fun, remember those days?

A sudden tragedy occurs, and so so much more.

This roller coaster is full of twists and turns.

It's definitely a must read!!

---

### **Shannie's ??Lookin' 4 My Next BBF?? says**

WOWZA!! This story had me hooked pretty much from the start!

Kylie is a young single mother who is doing whatever it takes to keep her & her daughter, Emma, with the basic necessities of life after Brad, Emma's father, disappeared from both of their lives. Kylie is a very proud independent woman determined to make it on her own even when she has to resort to going against her

morals.

Evan is a very sexy man who also happens to have money. He gets extremely captivated by Kylie while she's working her night job. Evan can't get her out of his mind & runs into her a few more times before convincing Kylie to have dinner with him.

Just when Kylie & Evan are starting to heat things up, people from their pasts pull strings to try and keep them apart. You'll have to read *Stripped* to find out what happens! You will not be disappointed. This book has everything you want: great story, captivating characters, steamy sex, & no cliffhanger!! You won't be disappointed with the ending because Ms. Harms wraps up the story beautifully. Now go buy it & start reading.

Thanks Ms. Harms for giving me a copy of this wonderful book in exchange for an honest review.

---

### **Sassy Lit Chic Reviews says**

Young love isn't always all that it's cracked up to be. Abandoned by her husband, left to care for her baby with no money and not even completed high school has left her in a difficult spot. Her daughter is her top priority. She is determined to not only survive but also thrive; she is willing to do whatever it takes to care for her daughter. Even if it means stripping.

As the story unfolds you are made aware that she does not enjoy this job at all, she is only doing it as a means to an end – providing for her daughter. She is doing well and has people who have become her family. She normally avoids eye contact with any of the patrons, but in this particular night she cannot stop staring at a devastatingly gorgeous businessman. His eyes remain on her as well. By chance they meet again. The pull to each other is very strong.

His has focused his life on his career and family business. His parents have “guided” many areas of his life. He has never felt this way before. He thinks about her all the time and soon finds his priorities are changing.

They both will face conflicts and pasts. Will their connection and draw to each other be strong enough?

You cannot help but to fall in love with these two characters. Kylie faces dire circumstances and refuses to let it ruin her; she fights. She fights for her daughter. She is a strong woman, but she is cautious because she has been burned by her husband and family. She feels the attraction to Evan, but tries to deny it and brush him off. But he won't give up. He surprises her even more when he is not only accepting of her daughter, but also starts to grow a special bond with the little one.

I highly recommend this book to anyone who enjoys contemporary romance with a bit of angst, sexual tension and bit steamy! I couldn't put *Stripped* down and read it in one sitting. You will LOVE the story and the characters.

---
