## **The Final Redemption** Michael G. Manning

Mordecai has made the ultimate sacrifice to keep his family safe, and now struggles to understand what he has become. Rejected by all, he must learn to master the darkness within if he is to stop Mal'goroth from destroying humanity. Alone, he battles to control the malevolent magic that has consumed him as he searches for some way to turn his destructive new powers against the Dark Gods themselves. To win, he must somehow transform his own damnation into mankind's salvation.

## **From Reader Review The Final Redemption for online ebook**

### **Phil Crimp says**

SPOILERS... I really enjoyed this series but felt that like so many other series, this last book seemed rushed, lots of threads just seemed to be overlooked, Elaine, her Family, the heartstone diamond ! His lands, although everyone feared him, seemingly they pushed him out of the capital to stop civil war, but no-one actually would have stood against him, particularly disappointing was Dorian's end, and the ending of the close, living together friendship of the wives. Great series but at the end, disappointing...

### **Alex Labounty says**

This book surprised Me. I mean really surprised Me, alot of times sequels aren't as good as the first book. Yet against all odds this book is better than the original. The ending was fabulous and it didn't end the way I thought it would which is almost always a good thing, and in this situation it was amazing. Thank you for this book, one of the best books I've read in years.

### **Rev. Craig A. Lantz says**

#### **The end feels sort of unsatisfying**

I have enjoyed this series very much. I can't explain why, but I was vaguely unsatisfied at the ending. While everything was wrapped up, it kinda felt like the author ran out of steam by the end.

---

### **Jeffrey A. Dewey says**

#### **An unending saga**

The warring began with an upheaval ending with a disgraced Count but the story didn't stop there.....is another book to follow as there appears to some of the left to be told. Awesome read.

---

### **Steven Brown says**

#### **Not too bad of an ending to the series though the story does feel dragged-out.**

Michael G Manning knows how to worldbuild and create interesting characters but the plot and pacing of the series is off. In the first couple books it was the point of view errors that threw me off the most but in the last three books this was improved upon. I will likely read other books based in this world but only after a break from it.

There is a significant tonal difference between this story and the rest of the series ... To be blunt it's depressing and dark for most of the book. Much of the humor that made the previous books a bit light-hearted even when a lot of bad things were happening is gone. This has the effect of making the story feel longer because the reader is waiting for the chance to laugh or relax a little while a lot of bad things keep happening. It is one depressing chapter after the next. There is made worse by the fact that a significant portion of the story focuses on a subplot that, while having elements in the previous books, seems solely designed to occupy the main protagonist while the author deals with the other characters and the events surrounding them. Basically the main protagonist/his representative has to get something from A to B. it's simple and an interesting concept that should have been over quickly. Instead he is forced to leave what he needs at A to travel to B only to turn around to go back to A to finally end up back at B with it ending up rather meaningless in terms of the story's/series resolution. In truth it felt as if the author put it in so that he would have something to write about in the next series based in this world after he wrote the prequel series.

I love stories that are written in a way that makes it feel as if you're flying through it. But I also love a good ending that gives the reader enough time at the end of a long series to feel as if you know where the characters are and are going. Unfortunately this story does not fall into either category. there is a good 25% or so of the ending that takes place after the climax. It does attempt to tie up some of the loose ends but leaves some while it also creates others that are seeds for a future series as well as an epilogue designed to lead into the prequel series.

### **Férial says**

[I thought till the end that Mordecai would be able to revive Dorian somehow (Gram took his Dad's "h

---

### **Brandon DeHart says**

I enjoyed the entire series. Can't wait to read the character books.

---

### **Maureen Hoar says**

#### **What a finish**

I love this author . Her can draw the plot in words and you just sit back and watch it unfold. This makes me beg the question who is the real wizard of this story? Mordecai or Me Manning?! Unfortunately I will run out of books for this author but I will read every one of them.

---

### **Paul Caruso says**

#### **Creative**

Mr. Manning has weaved a lot of technical detail into this final installment. Some authors tire of their world and characters as a series gets old (and some, annoyingly, get so tired they don't even see the story through). Not so with this series, the creative exploration continues until the very end.

As with the past books, some of the personal interactions are a little choppy, but this is a book very much worth the time.

#### **The Final Redemption (Mageborn Book 5) Review**

Dear Michael, excellent book, excellent series. Loved the plot line and exciting action throughout the series. The characters were entertaining and wonderful. I really enjoyed reading this series and look forward to reading your other series. I highly recommend reading this adult series to anyone interested in reading a great story and series. Thanks again for the entertainment and enjoyable time.

### **Evan Morgan says**

#### **Another great book from one of my favorite authors.**

This whole series is the type that you can't put down. The final redemption was the hardest for me, loved the book but the turn of events were hard to cope with but the last few chapters made it totally worth while. Plenty of twists in this one.

---

### **Ambra says**

A great conclusion! It left me with a wide smile :) ...I'll gladly read the prequel but personally I hope the author will consider writing a sequel about Moira, Matthew and all the other children...

---

### **Daniel Davidsen says**

[The entire whipping thing just ruined it for me. He pretty much saved the entire human race twice in the span of some years and handed her the kingdom on a plate. He's always had that little spark of ego that made me love him as a character but just throws it out. (hide spo

---

### **John Stevens says**

Powers seemingly beyond measure are wonderfully juxtaposed with innate and external struggles. Dark and light twists are woven in a silk web that bring afore the gestalt of the tale, which avidly affixes the eyes to each and every line. With possible allusions of more to come, it is a wonderful conclusion to the mageborn

saga, and should be heralded as a refreshing fantasy that cries out to those who resist the conventional power rise which is consequently superficially restricted by the author. Not a far cry from the works of David Gemmell, David Eddings, Tolkien, Terry Goodkind, just to name a few, I look forward to the next instalment!

---

### **Hitandmiss says**

Short Review - Ending leaves a lot to be desired, quite a few plot lines left unfinished, and several chars get a few lines with no real explanation to where they are going in life. A few major revelations left me puzzled as to the nature of what exactly happened in this series, Mainly what where the Dark Gods about? and what exactly happened to the rest of the Mages? Also the revelations regarding the shining gods leave me puzzled as to their actions in the first books.

I expect the forth coming book might go someway to answering this, but I kinda expected this book to solve more of the future problems the King was solving in the last, and also visit some of the other city's and kingdoms on the map.
