One drawn to fire.

One drawn to air.

One drawn to water.

One drawn to earth.

Brought together by ancient forces woven long ago, The Four must come together to fulfill their destiny.

They will change forever as they prepare to face the biggest challenge of their lives-- fighting to prevent two worlds from tearing each other apart.

Good book, and unfortunately, a quick read. A refreshing change from the usual haul evil item from point a to point b quest. And it's always interesting to see how an author weaves magic into our modern world creating their very own, and unique, mileau.

If you are looking for an entertaining story to occupy you over coffee and biscotti, you shouldn't be disappointed with this one.

I really enjoyed this book but it is one that I would read off and on. Love how magic and elements are woven into the story with some supernatural creatures. There are four people from our world and timeframe that discover they have the ability to control an element. Abby with fire has to struggle with control, Sara with air is happy to help everyone, Joe with earth accidently creates a living sculpture, and William with water has visions.

A must read to find out what their purpose is and why they are so important to they world of the fey.

I found this book to be well written and entertaining and would be a good read for YA.

I really enjoyed reading this book. It was a bit different from my usual choice of genre, but I found it to be a nice change of pace. The book was well-written and the characters were well-developed and interesting. I felt that I got to know the characters pretty well. I found myself wondering about the characters and the events in the story during times I was not reading it, which to me, it the mark of a good book. The author did a great job of switching between the two worlds without making the story confusing. I also felt the author was very descriptive in her writing, and I had no trouble imagining the scenes and the characters with my mind's eye. This was a fairly long book, but I found it to be an interesting one.

I received a free copy of this book and voluntarily chose to review.

I had a hard time getting into this book . I usually really like fairies and stuff like this but this one took awhile to get ahold of me.

I received a free copy of this book for my honest review

As an avid reader of horror (Koontz, King, and Ketchum) and mystery (Max Allan Collins and Ross MacDonald), I've always wanted to find a good book to open my mind into the world of fantasy. I've tried a lot of other authors in the past and found none of them appealing (although I'm willing to give them another try). This was the book that took my hand with gentle smooth fingers and carried me into the perfect world of fantasy that I'd been looking for. A cast of characters that would make you want to pull up a chair and have a drink with (coffee or tea, whichever they preferred) and have a real conversation with; the scenes were vividly detailed and the author's writing style kept me turning the pages to find out what happened next. This is the kind of book no one should miss.

'The Four Sworn' is the tale of four artists who begin to exhibit powers relating to the four elements; earth, wind, fire & water.

I found it very easy to get absorbed in this book so I read the whole thing over two nights! The characters were believable and different, and their personalities seemed to suit the element they gained power over. Some of the things they discovered they could do were very surprising and inventive! I liked Abby the most,

as even though she was temperamental there were reasons behind it and I couldn't help sympathising with her. Sarah was fun and her motherly relationship with Oogan was adorable.

The story was an interesting one. The sudden development of their powers and what it all meant was then added to by an otherworldly threat. Everything was well laid out before the threat developed which meant the story moved at a slower pace than I'm used to, but that said it never dragged. Everything was tied up neatly in the end (well, almost but I won't spoil it for you!) so there's no way to predict what the next book might bring but if it's anything like this one it will be an enthralling read!

Overall this is an enthralling fantasy novel and a great start to a fantastic new series!
