Key West runs blood red as Jack Marsh is caught between a ruthless Cuban Drug Lord, known as El Condor, that has had ten million dollars stolen from him by someone in Key West, and an aging Mafia Don that knows who made the heist, and will kill to get it for himself. The heart pounding race through Old Town Key West, a storm tossed crossing of the Florida Strait to an isolated beach on the north shore of Cuba, then back out to a showdown in the deep waters around an old coral Cay has Jack Marsh running against the clock as he tries to determine who is friend and who is foe ...and how to dump the money before he gets himself killed.

The mystique of Key West, the beauty of the coral reefs and cays surrounding the area, the mysterious deep waters of the Florida Strait known as The Blue. The characters that make Key West the magnet of the Islands all come alive in an action suspense thriller that will leave you breathless.

### **Christopher Herte says**

#### **Great Tropical Read**

I enjoyed the Jack Marsh character and his buddy Tommy. If you enjoy the Florida, Key West, Caribbean setting in an action story, you'll love it.

### **Chaplain Stanleigh Chapin says**

#### **A light Key West adventure**

There are many stories being written about life in Key West and the Florida Keys, This one was a nice change of pace.

### **Jack Galloway says**

#### **Another good Keys series**

I have read a lot of different story lines involving the Keys, sunken treasure, bad people and this is another interesting story along those lines. A very good start to a new series but with a different direction.

### **Jeff Benham says**

New author for me and new character with a Key West backdrop. Starts out reasonably enough. Jack Marsh owns a bar. He is ex-Marine and that is a good thing to be with the situations he finds himself in. Take an old Mafia boss, add a Mexican bandito and some crooked cops. Stir it all in with \$10 million that Jack somehow gets possession of and you have the ingredients for an excellent adventure.

### **S.D. says**

Not since GUN MONKEYS by Victor Gischler have I had so much fun reading a book. Jack Marsh is ex-military running a bar in Key West. He's part owner of a boat with his military buddy, Tommy, who does deep sea treasure recovery. A Cuban drug lord and aging mafia don have Jack in their crosshairs over a missing \$10 million. It's hard to know who to trust as bullets fly and money floats. There are a number of books in this series and I have already nabbed Books 2 and 3 in the series.

### **Key west smackdown**

One of the few books read in the last few years that didn't have a hero that was bigger than life. Jack makes mistakes, gets knocked around, and if he comes out ahead it's more by luck than skill. Interesting and worth a look at others of the series.

## **Larry Kaminski says**

### **Good believable story and well written action**

I enjoy books written about events in the Keys... this was a good thriller that was a fast read and enjoyable
