The Quest for Character Charles R. Swindoll

So many voices today tell us that avoiding pain and dodging trouble are the best we can expect from life. Yet God is at work in us. He doesn't call us to a bland vanilla existence but to an exciting quest for the best thing in life -- a heart that reflects the character qualities of Jesus Christ. Let Chuck Swindoll show you the building blocks of character that God wants to develop in you and how these traits can help you achieve lasting fulfillment. The Quest for Character offers forty encouraging meditations on character qualities that can significantly change your life. Each brief devotional ends with helpful suggestions for refining your character and scripture readings to draw you into God's Word.

Rob Culler says

Love this!

Wannie Michelmann says

What can I say? I love this book. It covers so beautifully the Godly character one should have to love and honor God and people. It is idealistic however a good goal one can have. Highly recommended.

Julie Baylor says

I really enjoyed using this book as a morning devotional. I highly recommend it!

David says

Several short stories on various character matters. Good reading and good illustrations.

Malot says

Very insightful. I just keep on re-reading different portions of the book, and each time I'd do it, I'd feel both refreshed and challenged to become a better person.

Clint Mccain says

I read this one back in the 80's & still have it.

Many a Swindoll book are fun to read; full of stories, amusing metaphors and jokes that all point to deeper

spiritual truths. Swindoll also has a very easy writing style that makes following his point a simple, enjoyable process. Great subject matter, such as in this book, is a norm for him.

I must admit that this Bible devotional was one of the best Bible devotionals I ever read since I got saved on Sunday, the 22nd of January 2006... This devotional helped me to look forward to reading the Bible everyday and made me take Bible reading more positively, because it can be really tough in the Christian walk. It helped me see the Bible in a new light ,with new eyes, it made me see that the Bible is still relevant to what I am going through right now despite the fact that it was written hundreds of centuries ago. In fact Paul says the Bible "is useful for teaching, for showing people what is wrong with their lives, for correcting faults and for teaching how to live right" (2 Timothy 3:16 NCV) Mr. Swindoll brought out the applicability of the Bible through his commentaries ..It was a joy reading Mr. Swindoll's commentaries just before I read the Word for the Day.... I loved his stories and illustrations that he used to drive the point home when it comes to giving and guarding your heart in the quest for Character.
