## **The Unthinkable** Robin Nadler

Mike has made a lifetime of bad choices. He stayed in a relationship that meant nothing and allowed his heart to be trampled because he never believed he deserved any better.

He learned, when he met Jade, just how wrong he had been. She was everything he ever wanted but was afraid to go after. The way she looked at him simply made him happy to be alive.

He fell in love for the first time in his life.

But his demons were right there, scratching and clawing their way back to the surface.

He was on a path of self destruction. He felt it was what he deserved. He never thought he would hurt anyone but himself.

He was so wrong.

Jade tried to help him, but she never saw it coming.

Until it was too late.

Until the unthinkable happened.

## From Reader Review The Unthinkable for online ebook

### Veronica says

This novel didn't take me long at all to read. The shorter novels for Nadler are a HUGE improvement.

Unfortunately, this books kind of lagged a bit. I fould myself drifting in and out of focus. The beginning was action packed, but very minimal; it was just excitement from the previous but fizzed out quickly.

The ending certainly picked up with action and a page turner. Even when we knew something was going on with Julie and it took a little while to reveal what was going on - that dragged a little but still had me turning the pages.

Grammer, spelling mistakes, missing words and incorrect content was an issue again (For example: "Stephanie looked to her husband AND Jack" Uhhh Jack IS her husband and the other person was Tommy).

[SPOILER ALERT]- I fould it a little unbelievable about Jade's pregnancy. Yes, we knew they had unprotected sex and right away I said "crap, she's going to get pregnant. here we go..." Not only did she, but with twins. Like come on, please. Just seemed a little unbelievable like "ugh, really?"

Overall, really upset the beginning and middle were weak. Could have maybe been combined with the previous novel. Definitely a huge hook at the end to pick up the next novel.

3.5 out of 5 stars.

### Betty says

#### A rollercoaster of emotions

Full of twists and turns from the start. If you are a follower of the Family by Choice series, this will bring things to a head for some situations, as well as devastating consequences for some very special people
