Truck Stop Tango

Krissy Daniels

Truck Stop Tango Krissy Daniels

Six years ago, I made the biggest mistake of my life.
I betrayed Slade Mason. Then disappeared.
I'm home now. And I want her back.
Trouble is, she's lying. Keeping secrets. Pushing me away.
What she doesn't know is that not even her deception could make me leave her again.

Five years ago, I made the toughest decision of my life.
I did the unthinkable. Then covered my crime.
Now, Tango Rossi is back. And I want him more than ever.
Problem is, he wants answers I can't give.
What he doesn't realize is that his betrayal is the very reason we can never be together.

~Nichole~ Sizzling Pages Romance Reviews says

I absolutely adore this author. I just can't do this type of second chance.

Julie says

A great story, full of twists that will keep the reader guessing and then cheering for the young lovers. Tango used to mean every thing to Slade but she has every reason to feel no regret for the loss of Tango Rossi's mother and there's several other people she wishes to avoid also. She's older and toughened up now, he tore her heart to shreds but now she has her feelings for Tango are under control. Tango has returned to bury his mother, he also has finally come to see his love, his Slade, but she is keeping secrets, I have to know what is holding her back.

This story is amazing and I loved the characters, they were so interesting and well developed. I found myself just rooting for them to make it as they made a great family. This is an additive book, very hard to put down once started, I highly recommend it.

Rosalie Gammon says

Have you danced today?

What an awesome read. Great storyline. Loved the suspense, mystery, shock and awe. Brilliantly written. An intriguing uniting thread to the end. So many twists and turns. I'd recommend many times over. Thanks Prissy Daniels. Look forward to many more.

Tracie R says

4.5 Stars Truck Stop Tango is the first book I have read by Krissy Daniels and I really enjoyed it. The mystery, twists and compelling storyline this story kept me hooked. Great Romantic Suspense, I look forward to reading more by this author.

twists, turns, lies and betrayals. What could have been a simple second chance story turns out to be so much more. Tango and Slade were childhood sweethearts. He was the rich guy with the overprotective elite parents. Slade was from the wrong side of town and her mom had a less than stellar reputation. Tango broke

Slade's heart and left for 6 years. Absolutely no contact. Tragedy brings him back and he barrels through everything to get his girl back. He took a lot for granted and some things that he did we not cool. Breaking her phone when her child is away is not a way to say take me back. He was kind of hard to like. He had his moments. He did always take up for her and did not let anyone say anything bad about her. Slade did not let Tango grovel enough. She was too easy on him. The big secret was pretty easy to guess but still made the story entertaining. I

I voluntarily reviewed an Advance Reader Copy of this book.

This was an awesome book. I was hooked from the first page and didn't want to stop reading until it was finished. I loved the characters and their story. The book was full of mystery, suspense, and romance. I definitely recommend.

Carolyn's says

The title intrigued me. The description was enticing giving just enough to have you wondering what was going on. When I started reading this book I immediately became immersed in the story- why did Tango leave his home, his family and not return for 6 years. Tragedy brings him home and face to face with what he calls the love of his life, but why aren't they together, what happened 6 years ago.

Slade is fierce and protective and immediately has you guessing why she has such strong feelings of hate or disgust for the newly departed. Her attraction to Tango is gripping and she can't stand to be around him because she know she will be weak and give in so she pushes him away. These two have a tortured past that has left them both with deep scars.

I consider myself good at solving mysteries and thought I had this one figured out. However, this book had as many layers as an onion and just like that onion some were tasty, some were bitter and some made you weep. The relationships Slade had cultivated within her small group were precious to her and she kept that circle small for protection for her and her secrets- blocking everything else out. She is a strong, sassy and sexy woman who fiercely protects what is hers. How can she fight her attraction to Tango- if she lets him close enough he will discover her secrets and it - will- ALL- be over.

Tango knows she is lying- he can't figure out why. Why does she push him away? He has his own past and issues to work through while dealing with his family, but can't help digging into Slade's life.

While there was enough action, adventure and sex appeal to this book, the true scene stealer is a little boy by the name of Rocky James Mason! Absolutely adorable!

My first Krissy Daniels book and I am a fan! Cannot wait for Tucker's book!

Lynn says

Where to start...Slade.... I loved her... she is an amazing heroine...she has lived a rough life, her whole life has been a painful at times disaster. Her mother was known more or less as the town drunk/slut, she was in love with the town golden boy...and he with her. That relationship however blew up with help from hateful parents and a slut whore of a best friend, and a drunk and "poor me un-heroic boy". You see that part of the story in flashbacks, the cheating scene is brief but clear. Tango, I really wanted to love him...but his weak excuse for cheating was beyond silly and hatefilled and his cowardly behavior afterward worse. There is a secret..a big one that I figured out fairly quickly, but awaiting its discovery was suspenseful. Although once again the hero acts the injured party when his selfish, cowardly, asshole behavior created the entire debacle. In stating that he does redeem...LATE... I really want to know more about Dane... he was a heroic anti hero whom I could cheer for. Loved Rocky and the Slades and especially Tucker....although am a little wary of the next story featuring Tucker with the ho from Tangos past as his heroine.... :0

Evelyn Swift (Featherbrained Books) says

Hmmm where do I begin?

If you don't like cheating in novels you will not enjoy this. If you think that once the hero has found his soul mate and then is physical with another woman you will not enjoy this. I absolutely love second chance romances but this premise is very hard to swallow because there is absolutely no excuse for cheating and it really cheapens the entire "romance" aspect (for me at least).

Yes, the hero in this novel really is named Tango Rossi. And the catch phrase between the hero and heroine is asking each other if they've "danced yet today" and he calls her "babylive".

Do with that information what you will but this is about the cheesiest thing I have ever read between two people.

Our story begins with Slade who is trying to live her life free from the horrors of her past. She has many secrets that only she knows about, including trying to unsuccessfully forget about the man who betrayed her six years ago. The same man who is back in town after learning that his mother has passed away.

Tango Rossi wants to make amends with Slade. He regrets everything he did in the past and wants Slade back in his life. But Slade is keeping a big secret that threatens to tear them apart and she isn't sure if she can trust her heart to Tango again.

I think Tango had A LOT more grovelling to do regarding the cheating aspect of the novel. Slade does keep a lot of big secrets as well, things she should have told Tango a long time ago, but she only reacted to the situation as best she could.

The entire novel is a strange mix between crime, bikers and mafia. Tango, from everything I gleaned, is of

Latin decent, but his last name is Italian which confused me. I think I must have missed something but he speaks to Slade in Spanish near the end of the novel?

The whole mafia part of the story was very odd as well. I thought it was very unbelievable that (view spoiler).

Also another big warning, besides the cheating, is this book also contains some slut-shaming. Tango calls this girl Kaylee a whore for sleeping with his dad, even though his dad is the one sleeping with a women Tango's age right after his wife dies...and Tango also calls girls that I presume hang around the mafia family (confused on that) "Luciano's whores" even though he is the one sleeping with all these women? Supposedly even though he loves Slade so much....

Slade wasn't a terrible character. I had to admire her gumption, her determination in life and whatever was thrown at her she tried to do her best. In terms of the romance though I hated how easily she forgave Tango and her indecision was a bit much. For example she would tell Tango that he couldn't touch her at all and in her head, she would say over and over again that she couldn't fall for Tango again, but then she would decide to go skinny dipping with him. Obviously fully knowing having them together naked is a bad idea. I normally don't mind this kind of stuff because it leads to good sexual tension but Slade was a bit ridiculous. Especially since they didn't even have sex or fully commit to each other until (view spoiler). I honestly skimmed the rest of the novel from 85% on.

I also guessed correctly at Slade's "big secret" right away so I was a bit disappointed that it wasn't more of a surprise since there was such a build up. I think the author could have made it more mysterious.

Overall this is a big pass for me and I think most people can just skip this one.

a great read.

Valeen Robertson (Live Thru Books Blog) says

I wanted to love *Truck Stop Tango*, I really did. Unfortunately, I just couldn't. It's interesting and has action, suspense, mystery and a little heat, but the pacing is off, doesn't answer all the questions it raises, has way too many subplots, and the H, Tango, is a douche bag. The setup is this: Tango and Slade have been best friends since they were little kids. She's the daughter of the town whore, ugh, I really hate that phrase but it's

hammered into our heads that this is what she is, is considered white trash (another phrase I **REALLY HATE**) and he's the son of really wealthy, conservative parents. As they become teenagers, they start dating and fall in love, much to the horror of his asshole parents. Then, for some reason, on the night of their prom, he cheats on her with her friend, Addison, and she catches them in the act. The next day, he bails, and she doesn't see him again for 6 years.

But, now, he's back in town for his mother's funeral, and determined to get his one true love, Slade, back. Yeah...sure, she's his one true love but he's spent his 6 years away fucking his way through the whores (yep, there's that word again) that litter the criminal (mafia) family he found his way into, and he doesn't care that Slade doesn't want him back. He spends far too little time groveling at Slade's feet, instead, he bulldozes his way into her life because he just knows Slade loves him, too, and hasn't gotten over him, regardless of the fact that the last time she saw him, he was fucking her friend, and he hasn't reached out to her at all since then. Yeah, he's a real prize, this one is!

Then there is the whole subplot of Slade's son, where he came from, who his father is, and what other secrets Slade is hiding. I actually like this subplot, because I like Slade, even though she's a little too indecisive with Slade (and **FAR** too forgiving). What I don't like is that there's another, interconnected, subplot of an MC association, not to mention the mafia association, in addition to the fact that Slade makes all kinds of discoveries about her blood line. Way, way too many things going on!

Ugh, my head is reeling thinking of all the things that happen in *Truck Stop Tango*. If it had been pared way back, and if Tango hadn't been such an asshole, I might have rated it higher, but, unfortunately, I can't give it a higher review.

I received an ARC through NetGalley for an honest review.

Ann-Maree Howarth says

I must say I really could not put this book down; it had me tapping my Kindle busily to the end. This is the first book of Krissy Daniels that I have read and the first book in this series as well. I found her writing intriguing and full of drama she told us a wonderful story that was totally enjoyable to read. It's a second chance story with twists, turns, drama, hate, love, and loss. You will just love the characters and enjoy getting to know and understand them on the journey through the book. This is my honest review of this book that I read. It was a bit steamy in parts but it was in total contexts of the story so it just enhanced the drama of the book. I would highly recommend this series and can't wait until next week when books two "Truck Stop Tryst" is released.

Christine says

This book is about a young man named Tango who left his life six years ago and is now back to claim the woman he betrayed and left. Slade had to make a tough decision that has to do with Tango but if he hangs around and finds out he'll never forgive her. Both have secret and both are trying to keep loved ones safe but will they be able to be together when the truth comes to life?

This was a good book very different than what i'm used to reading. Slade is an amazing woman she had to make tough decisions but she chose to do what she thought was right. I feel bad for Tango but he did cheat on Slade and made some bad choices but he does redeem himself when he returns to claim Slade the only girl he's ever loved. This book had so many twists and turns I thought I knew what was going and then it was totally turned on it's head and turned out to be something else. The ending brings up some questions about people that leads into book 2 which is fun.
