Gin Bonham lives with a dark secret. Born with an ability she never wanted, she builds her life around science and logic, running from the terror she is capable of causing. When sexy stranger Mathias spots her on a dance floor and cuts in, he leads Gin in a sensual rhythm that continues long after the music stops. But Mathias hides the fact that he knows exactly what she can do: in the deepest recesses of her mind lurks the power to manipulate fire. Destiny is coming for her and it doesn't care if she's ready or not.

Mathias possesses tracking and espionage skills so extraordinary that his fellow Lash demons call him The Hunter. Pursue and interrogate. He never fails. When he is tasked with coaxing Gin to work with the Lash demons against a common enemy, he relishes the challenge. But meeting her awakens a new, primal drive that pulls him toward her even as his tactics break her heart.

Failing to win Gin's cooperation is not an option. But she is determined to flee, putting thousands of miles between her and any other supernatural creatures, including Mathias. Can she cool the charred embers of her emotions enough to forgive Mathias and embrace what she was meant to become? Or will her ability explode into something more than she can control?

## From Reader Review Wicked Flames for online ebook

### Dianne says

Never have demons looked so good or oozed so much sex appeal! How do I know, you ask? I have followed every word in this series from Sharon Kay and this woman can write! With her latest addition to the Solsti Series, **Wicked Flames**, Ms. Kay did not just tell me a smoking hot story; she put me in the story, while my mental movie screen put her word-born images into my head! I do believe at one point, I may have had steam coming out my ears as my internal fire alarms went off!

Speaking of fire, it is an affinity that Gin possesses, controlling fire (mostly), one she keeps hidden at all costs as she tries to go about normal human activities and the day to day challenges we all face. Enter Mathias, who heats up more than Gin's fire power, as he, too finds this woman more than just another assignment as he makes his move that will change her destiny forever. Will Mathias cool this fiery Solsti's temper or will their equally matched determination clash like two bulls running head toward each other.

Welcome back to the world of Torth and the characters who populate it as Sharon Kay fills our minds with vivid descriptions, molten hot scenes and takes us down paths that are unpredictable and often dangerous, as Gin fights to run from her newfound life and Mathias fights to get her to accept it. Who holds the wildcard in this tug of war of both lives and hearts? When he smoke clears, who will be left standing by whom? Not really sure how Sharon Kay can take an often written about genre and dress it up so fresh and new like she does, but this is one series that just gets better and better! From its well-developed, damaged and completely loveable characters to the plot twists that make your head spin, to the sensual heat that will scorch your eyeballs, Sharon Kay's inner writing demon is in full control! Can't wait to see what happens next!

I received an ARC edition from Sharon Kay in exchange for my honest review.

Dear Sharon,

I'm not good at memes or gifs or funny pictures to insert, otherwise I would put a picture of me lying here breathless with my heart so full and my mind blown and awaiting the new year again for book #4!

I don't know what you did before you started writing, but you are a true storyteller and you definitely have a calling. I'm putting you right up there with my other favorite author Kristen Ashley (even reminds me of her Fantasyland series with the stories you weave). I literally put my whole day on hold just to finish this book, and boy, you did not disappoint. My ebook was about 600+ pages, but I wish it was longer. (Please feel free to make it longer!).

I kinda wish stubborn Gin's experience on Torth was longer, but I guess she had other kick ass things to do on earth instead.

Stubborn hard headed Ginger and her Hunter. I don't know what else to say about them...

If you're contemplating reading this series, just DO IT!! Read it! Then you can come back and join me in praising Sharon Kay for her magical way with words that transported me temporarily to a world filled with badass lash demons, magic, and the Solsti women that wield them both.

\*\*\*\*\*

July can't come fast enough! I want to read this now! See what a monster you've turned me into Sharon Kay??

(Sung like Jennifer Lopez's song "Waiting For Tonight")

Waiting for July, oh

When this book will be here in my arms

Waiting for July, ooooooh oh

I'll dream of Mathias and Gin

Setting things on fire (wink\* wink\*)

Received a gifted copy for a honest review!

5 Wicked Stars

This book was amazing! It was about Gin the third Solsti. We get to learn more about her and why she thinks her power is a curse. This book doesn't have as much action on Torth as the first two books do, but Mathias makes up for that. Mathias is HOT!!

Gin doesn't want to be like her sisters. She doesn't want her power. She wants to move to remote areas and help people get water. She wants nothing to do with the life her sisters live with demons, fairies and other mythical creatures. Why can't life be easy? Everything is going well until Mathias shows up. She wants him and isn't focused on the strange things happening around her. What will she do when she finds out who and what Mathias and Ria are?

Mathias is sent to get Gin to accept her powers and use them. He was told to use any manner necessary. He wasn't expecting to be attracted to her. He can't take his eyes off her from the moment he sees her. He knows she needs to know the truth, but if he tells her she will run. What will he do? Start the relationship as a lie? Or will he end up chasing her because he scared her off?

This is an amazing third book and I cannot wait for the final book in the series!! I need it now. Before starting this book I thought I knew who the fourth Solsti was, but I was very wrong!! I did guess who it was a little over half way through the book though. Way to keep me glued to my couch so I could read this book Sharon!!

This latest addition to the Solsti Prophecy was exciting, romantic and suspenseful.

Gin Bonham has always rejected her power and wants nothing to do with it. She does not understand how her sisters have joined forces with the demons and continues to resist their pleas to join them.

Mathasis is a lash demon and is known as the hunter. His task is to convince Gin to join her sisters in fighting a common enemy, and it is not as easy as Mathasis thought it would be. Great chemistry between the two of them from the start and it just gets better as the story continues.

The story is a wonderful romance, very hot, and Mathasis and Gin scorch the pages. There was suspense, of course some bad guys, and lots of adventure. The world building is well written and the continuity continues from book to book. I love this series and can't wait for the next book.

I received this book from the author for an honest review.

Where do I even begin with this book... oh, yeah. with the first one in the series! LOL. Each book seems to get better and better.

This is book 3 in the series, and I am DYING to know how it's all going to turn out.

This book is about the 3 Solsti, the supposed youngest and only other living sister, Gin. Gin, is so much like her power. Strong and stubborn. Ever since a scary incident, where she couldn't control herself or her power, she has vowed to never have anything to do with it ever again.

Her sisters have come to control their powers, and are trying to persuade Gin to do the same, to prepare themselves for whatever is to come.

Gin has become fast friends with Ria, without knowing the true reason why. Still stubborn as ever, enter Mathias into the story. This is pure heat and lust at first glance and dance. Gin has always been busy, and wrapped in studies and work, never any time for men. Mathias quickly changes that.

Love, Love, Love this story so much! I am way beyond excited to read the final installment of this series.

This book, like the first has it all. Love, sex, drama, little bit of banter, hint of betrayal, you get the idea. Must Read 5 Stars!

My Review

Sharon Kay has done it again!

Wicked Flames is book three in her fantastic Solsti Prophecy series and it is hot, hot, hot.

Book three focuses on Gin, the third sister to join in the Solsti fun and she wants absolutely nothing to do with their new world or the "gift" of fire which she has been given. Enter Mathias, sexy Lash demon, sent to protect her and convince her to get with the program. As the story is introduced we see that Gin isn't just being stubborn but that she has very valid reasons for shunning her powers and the lifestyles that her sisters have taken to.

Wicked Flames is told in multiple points of views. You get a great insight into Gin's struggles and Mathias's inner dialogue. You also get to see the instant heat between these two well developed characters and you gain a clear understanding of why they are both approaching things the way they are.

This is a series that you must read in order. Do yourself a favor and grab book one, Wicked Wind. If you've taken advantage of the Kindle Unlimited program Wicked Wind is available for download. WooHoo! So be sure to grab your copy today and join me in counting down the days until we get book #4 in this fantastic series.

**Recommendation:** If you love STEAMY PARANORMAL ROMANCE with a great plot to push the story along then this series is a must read.

The Solsti Prophecy series offers:

Well developed and hot characters.

Great plot that moves the story forward.

Steamy romance.

Conflict, Passion, and Action.

If you enjoyed Gena Showalter's Lord of the Underworld series then I think you will also enjoy this series.

**Warning:** This is for 18+ readers. Language and steamy sex scenes.

4.5 Stars

Gin. She's the most stubborn of her sisters, and she wants NOTHING to do with her power. She goes into a restaurant with candles she blows them out. She's looking for a place to live? She makes sure it doesn't have gas burning appliances. She hasn't been around an open flame in years. Why? Because she's scared of what she could do with it. Gin doesn't want to hurt people in fact she wants to help them and she's scared of the

gift the could burn someone to death by accident.

Mathias is the best Hunter there is and he's also an expert at persuasion and now he has his toughest assignment yet. Convince a reluctant Solsti to jump onboard and start training and preparing with her sisters, by any means necessary. But one look at her and he knows it's gonna be a challenge, and one that's wrapped in a sexy little package at that. What lengths will he go to, to convince her and what happens when all the cards are on the table?

In this addition to the series the Solsti story continues to grow from what we've already read in the previous two books, as well as tell the story of the third sister. Seeing her story and why she's so reluctant you can see her point and why Gin is so reluctant to get involved. I loved Mathias and how he helped her see her gift a different way and come to terms with what she thought of as a horrible event. And the two together were HOT!!!! I loved seeing them burn up the dance floor and go toe to toe together and come together and be stronger for it was great. I also loved the little glimpses we saw not only from Nicole and Brooke but other sources as well. Definitely excited for this series and where it will go from here!!!

### **Jennifer Greeff says**

I can't get enough of this series. Sharon Kay has me spellbound to both her characters and her writing. I don't read a lot of the paranormal genre anymore but every time I get the privilege of reading another story in the Solsti Prophecy, I get a book hangover for days and can't pick up another novel of any genre.

Wicked Flames picks up where Wicked Waves left off. Gin Bonham, sister to Nicole and Brooke, and the third Solsti prophesied to exist when the world would need them most, wants nothing to do with the gift that was bestowed on her at birth. Believing that her gift of producing flame on a whim to be a curse unlike her sisters wind and water manipulation, she turns her back on all things related to the strange magic. She's put others in danger with her ability and for years has fought long and hard with her sisters to keep it hidden and at bay. But now that Nicole and Brooke have settled down with their Demon mates at Demon Central in Chicago, the fight is coming straight to Gin's doorstep.

Mathias is a Hunter and Lash Demon. He's able to persuade people and all manner of creatures alike to do things that he wants them to do so when he's given the order to persuade Gin Bonham, he heads out and won't give up until she joins the fight along side her sisters. What Mathias is not prepared for is the fiery attitude and personality to go with the flames he knows she's capable of producing. The heat between them throws him off balance and now he's stuck between a rock and a hard place, wanting to keep his little fire starter safe but at the same time asking her to put herself in harms way to save the world.

He licked her skin, tracing the edge of a moon engulfed in flames. "I want to hear the story behind this."

"I had this dream that the moon was on fire and somehow it was my fault. I don't know why. Maybe because back in high school I loved learning about mythology, and the goddess of the moon is also the goddess of hunting. Her name is Diana, or Artemis in Greek. She's a badass, but she's a myth."

Gin finds herself in the thick of things with a man she finds she knows nothing about but can't get off her mind. How after trying to avoid this very situation for so long has she found herself in the thick of the fight once and for all? The question remains, can she pull herself together and fight for what's right, join her sisters and save the world, or will she decide the thought of hurting others with her power is just too big a

risk?

Incredible writing, phenomenal story and just the right level of heat between characters to leave you salivating but sated in the end. I always want more! I'm greedy and can't get enough of the characters as they find one another and stumble through impossible situations. The lore and the mythology and the way that Sharon sets it all up in this gorgeous package is just mind bending and wonderful to behold. It's a treat to read one of her novels and I'm now waiting with bated breath to read the fourth installment of the Solsti Prophecy series.

#### **~ 4 Wicked Flames Stars ~**

*Wicked Flames* is book three in the *Solsti Prophecy* by Sharon Kay. This novel takes place right after *Wicked Waves*, so you do need to read in order.

The Lash demons are so darn sexy that you can't help but fall in love with them. This novel is loaded with action that keeps the characters jumping from one moment to another. And when things weren't so dire, we are treated to some super-steamy sex scenes that keep the heart racing.

Gin is the only sister that wants nothing to do with her powers. We do finally learn why this is. I was a little frustrated with her stubbornness and the blinders she puts on. She's blind to think that she can't get involved in what is happening with her sisters and the world. Her stubbornness to refuse to use, learn, and to see the necessity of her gift got to be frustrating at times.

Mathias on the other hand made it worth while. He is one sexy Lash demon and although he withheld early on, he quickly showed his ability to communicate honestly and from the heart. I was pleased to see that Mathias was incredibly patient and encouraging with Gin. I also felt his frustrations with her even though I could understand her fear.

We also get a surprise appearance with a Thief? Who could it be? And, we learn something about Raniero & Ashina. It was sweet how this played into the story.

*I'm enjoying this series. It's all adding up to one big event. If you like fast-paced stories with a touch of magic and paranormal then you should give this series a try.*

### **★Moonrise Books says**

Gin Bonham knows that demons exist. She also knows that her sisters are embracing their powers to manipulate water and the wind. With a traumatic event behind her, fear is all Gin associates with her own ability. And so, she wraps herself around a carefully constructed, normal life, free from the world of demons and supernatural powers... or so she thinks!

Demons are all around her. Some are there to protect her, while others are there to cause her harm. But with portals to the other realm showing up on Earth the Hunter demon, Mathias, is instructed by the leader of the Lash demons to meet Gin, and to convince her to join in their mission. Mathias is confident he'll achieve his goal. The problem is, once they meet, the chemistry between Mathias and Gin is off the charts! And plans are put on hold.

As Mathias and Gin's romance intensifies, danger is creeping in. A sinister plan is underway, and time is of the essence.

"They reached the foyer, dimly lit with the sun's valiant effort to shine thorough the clouds ... Eight male Deserati demons lurked..."

And in the realm of Torth, we discover delightful exploits, as the Lash demon and the Solsti weave their way through this enchanted world. All the vibrant details we've come to know, love, and expect from this series are realized in this installment!

I loved all the characters, but especially Mathias. He's powerful, loyal, handsome, and respectful -- all the important elements of a swoon-worthy alpha male! And the romance is exquisite. This book contains some of the most well written, and steamy love scenes I've read!

Get ready for an exciting adventure, with vibrant world building, and fully developed characters! This is a must read for paranormal romance fans.

### **Gaele says**

I've read each of the books in this series, and I have to say that I found Gin the hardest of the sisters to empathize with or even like. Stubbornly refusing to see the necessity of embracing her powers, and using that stubbornness to hide her inherent fear of making a mistake, Gin's transformation was slower than I expected to see.

Mathias I found to be a bit withholding early on, although he quickly showed his ability to communicate honestly and from the heart – a real surprise for a very alpha and protective demon. There were times when I felt his frustration with Gin's hesitancy, even though I could understand her fear. The thing is –Gin is smart: off the chains smart. So, when she started to get some answers about how things work, and their purpose, she should have loosened up some and trusted in herself and her powers. And Mathias was incredibly patient and encouraging: something truly unexpected from his manner and approach to go, do, solve and leave.

Loaded with action that kept the characters jumping from one moment to another, and when the action wasn't always 'life threatening' readers were treated to some super-steamy, super-sized sex scenes that keep heartbeats racing even though there is no running involved.

I've enjoyed this series, and look forward to finding out just where the one surprising revelation told in a seemingly out of place point of view will take us. If you like sexy, fast paced stories that carry a touch of magic and paranormal – this is a great series to grab.

I received an eBook copy of the title from the author for purpose of honest review. I was not compensated for this review: all conclusions are my own responsibility.

### **Racquel Reck says**

This scorching third addition to Sharon Kay's Solsti Prophecy series grabs you from the beginning and doesn't let go. The plot she's been weaving from the first two books in her series thickens here and will leave you begging for the next book.

Gin Bonham has an affinity for fire and unlike her sisters she has no wish to embrace her talent. She goes to class, teaches dance and does everything a normal young woman does while trying to keep her secret. That is until one super sexy tall demon burns up the dance floor with her. But he isn't who she thinks he is.

Mathias, he's a demon with a mission. We all know this gorgeous Hunter from the second book in the series. When he's on an assignment he gives it his full focus. That is until his duties require persuading one super hot Solsti with a temper as fiery as her power.

The way the plot unfolds leaves you guessing and wanting to turn the page to find out if your assumptions are correct. Guess what? They're not. Sharon like always has a talent for writing the unexpected. Your heart flutters, races and melts along with these two characters. It's by far the best in the series and if you think her imagination was outstanding in the first two books you haven't seen anything yet.

This book has the world of Torth like you haven't seen it before. So strap in and be prepared to go on an adventure through fast action, sizzling romance, steamy sex, and plot twist that will leave you with your mouth hanging open. I can't wait for the next book and when you're done with this one you will be begging for it too.

Thank you Sharon Kay for another excellently crafted, magical read.

Wicked Flames by Sharon Kay

5 stars!!

HOT!

This is the third novel in the Solsti Prophecy series by Sharon Kay, and as far as paranormal romances go I have to say, one of my absolute favorites! I quickly fell in love with Nicole and Brook's stories in Wicked Wind and Wicked Waves, but Gin and Mathias had me in love from the first page. This is a book filled with magic, romance, SEX and excitement and will leave you not wanting to put it down!

Gin is fighting her gift, or curse if you ask her what it was. She wants nothing to do with anything even remotely supernatural. She avoids the open flame like the plague, no candles, all electric amenities etc. and she has completely devoted her life to what she can scientifically explain and prove. After what has happened in her life, she wants to dedicate herself to helping make sure everyone in the world has clean water to drink, thinking that is not only an option, but also a way to make sure she doesn't hurt anyone.

Mathias is by all means an purposes "Hunter" with his abilities to track anyone or anything anywhere, he makes a lethal combination especially for those who dare to cross his mission. Convincing the reluctant Solsti to not only get over her hatred for her abilities but also join their cause was going to take finesse and hard work. Especially because he would have to hide who and what he really is in order to even get close to her. What he never expected was for her to become his everything. "I will always protect you, always find you."

While the "love" part of this story seemed a tad rushed as far as the time line went, considering the extreme situations they were put in, Sharon Kay brought an amazing sophistication to the excitement and allows you to fall in love, right with them. The way that Mathias and Gin work together to come outside of themselves, and bond is so special, and unique to their story and it is one that will leave you breathless. "You'll feel my need for you, right along with your need for me."

The fourth book in the Solsti Prophecy series, On Wicked Ground, is projected to come out January of 2015. It will tell the story of the final Solsti and I am fairly certain the big battle that the Solsti were born to come up against. Good and evil, love and hate, drama and suspense..... this series has it all! The real question is, are you up for it?

---

### **KathyAnne says**

I have to say that I was looking forward to this installment primarily because there is just something about the ability to manipulate fire that I find very appealing and exciting. It also makes an excellent backdrop for a little bit of "personal" heat and steam... and Gin and Mathias did not disappoint! Yes, they have great chemistry. Probably my favorite couple match so far in this series.

Gin is a Solsti... there are four all together... and she can manipulate fire. Her two sisters can manipulate water and wind. There is a 4th Solsti and we get some hints as to who she is in this book. Nope, I'm not gonna' tell ya'... but, I love where that part of the story is going.

Gin was determined to live a normal human life and was afraid of her gift of using fire due to an incident from her teen years. But, the Solsti are more powerful together as a team and Mathias was sent to convince her to step up and accept her gift and learn to use it. There is something powerful brewing in the Demon world and they will need the power of the Solsti for what is coming. What Mathias didn't expect was to fall for the beautiful and powerful fire wielding Solsti. And, since he can conjur up a ball of fire... because yep, he is a Demon... that makes them a pretty good match. OH... and by the way... he can dance! I love a man who can dance... wins me over every time.

Excellent addition to the series... and I can't wait to see what happens next in the world of the Solsti.

Lash demons you have to love them, I thought Gunnar and Kai were hot but now I have new favourite Mathias <3

Well on to the book, this is book 3 of series and I've loved them all but this is my favourite so far, Mathias is a Lash Demon and is a great character and he can dance! His not perfect and makes mistakes, but he has many qualities. He will need them all to convince Gin they need her, or should I say he needs her.....

Gin is a strong female, not wanting anything to do with being a solstice or getting to know any Lash Demons.

When Gin and Mathias meet they have a spark neither can deny, but gin has no idea who he is and how vulnerable she is in the world now that people know the solstice are real.

I really liked Gin, she's very grounded and caring she also questioned everything and didn't forget Mathias made a big mistake even when she was happy with him, which I found very realistic for a pnr book.

This book has action, romance, but delves a little deeper in to the past and explains lots of things which added to my enjoyment.

As with all Sharon's work the book flows well and writing and story draws you in to a magical world full of hot lash demons and heart warming romance, what's not to love!
