William Shakespeare: Complete Plays

William Shakespeare

William Shakespeare: Complete Plays William Shakespeare

King Lear. Hamlet, Prince of Denmark. Romeo and Juliet. Macbeth. Othello, the Moor of Venice. A Midsummer Night's Dream. The Merchant of Venice. Lovers of literature will immediately recognize these as signature dramas of William Shakespeare, whose plays still rank as the greatest works ever produced for the stage. More than four centuries after they were written, they have yet to be surpassed for their poetry and their insight into the human condition.

William Shakespeare: Complete Plays collects all thirty-seven of the immortal Bard's comedies, tragedies, and historical plays. In this volume all of Shakespeare's memorable characters—star-crossed lovers, majestic monarchs, wise fools, lovable rogues, treacherous villains, conflicted heroes, cagey heroines, and creatures magical and mythic—strut and fret their hour upon the stage. These characters, and the roles they play, have influenced virtually all literature written since. For readers who appreciate the emotional power of the written word, and the heights of humor and the depths of drama that can be encompassed by a single type of literature, William Shakespeare: Complete Plays is an indispensable collection of timeless masterpieces.

Vilja says

Vaikea antaa kokonaisarvosanaa, kun tässä on neljä toisistaan täysin eriävä näytelmää. Hamletista pidin paljon, Romeo ja Julia oli kiva lukea kun tarina on niin tuttu, Venetian kauppias oli porukan yllättäjä, pidin valtavasti ja kuningas Lear hiukan blaah. Lear kärsi kyllä myös huonosta lukijasta, olin tänään todella väsynyt ja kahlasin tätä silmät puoliummessa kotimatkalla. Kokonaisuutena kuitenkin reippaasti positiivisen puolella, Shakespeare vain vaatii tietynlaisen mielentilan.

Lovely edition. I am excited to use it!

JD says

Does this even need a recommendation?!

Narcis says

Will, always Will !!!

May Barbieri says

Li só Hamlet, não terminei o livro inteiro (mas esse nunca foi a pretensão). (Hamlet is a little bitch)

Ken Moten says

This book is the collection of all of Shakespeare's plays (that he wrote solo) and is taken from an edition published in 1904 and edited by Arthur Henry Bullen. This collection was published by Barnes & Noble and is basically Bullen's combining of the First Folio mostly with the Second Quarto parts inserted. It is a decent anthology although it does not include the original notes or supplement commentary that Bullen originally included (thou you can check all of that out on-line). If you just want a simple collection of all of Shakespeare's plays for a cheap price, this is the book. If you want a much more comprehensive reading of the plays, there are much better collections and publishers out there. Though I have individual plays by the Bard already, this is a nice collection of 36 plays-the majority which I would not spend money on individually.

Zach says

I've read several of these and enjoyed more than half of them for all different reasons. Only a few that I was disinterested in.

Armin khakpour says

best

Jessie Creps says

I used this collection of works by Shakespeare when I did a research project for a competition, it's a great book to have a collection.

Josh Caporale says

I am rating this complete collection of plays as a book and not by each play, for each play serves as an individual work and has been or will be rated individually based on my thought on each. Why am I giving this book five stars? I am giving it five stars, because for someone that is not enthusiastic about Shakespeare like myself or for someone that likes to read and own books, but is on a budget, this is the only Shakespeare book you ever need to purchase. This has every legitimate Shakespeare play (Two Noble Kinsmen was strictly John Fletcher) and features the complete play from details regarding the character and setting to the entire script and its details. I have referred to this for Shakespeare related assignments and for Literary Gladiators discussions. This book is also very affordable and is often \$7.98 at Barnes & Noble.
